

PROSPECTUS

\$240,000,000
Insight Acquisition Corp.
24,000,000 Units

Insight Acquisition Corp. is a blank check company whose business purpose is to effect a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target with respect to an initial business combination with us.

This is an initial public offering of our securities. Each unit has an offering price of \$10.00 and consists of one share of Class A common stock and one-half of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment as described herein. Only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. The warrants will become exercisable 30 days after the completion of our initial business combination and will expire five years after the completion of our initial business combination or earlier upon redemption or our liquidation, as described herein. The underwriters have a 45-day option from the date of this prospectus to purchase up to 3,600,000 additional units to cover over-allotments, if any.

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account described below as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding shares of Class A common stock that were sold as part of the units in this offering, which we refer to collectively as our public shares, subject to the limitations and on the conditions described herein. If we are unable to complete our initial business combination within 18 months from the closing of this offering, we will redeem 100% of the public shares at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, subject to applicable law and certain conditions as further described herein.

Our sponsor, Insight Acquisition Sponsor LLC, Cantor Fitzgerald & Co., the representative of the underwriters, and Odeon Capital Group, LLC have committed to purchase an aggregate of 8,700,000 private placement warrants, each exercisable to purchase one share of Class A common stock at \$11.50 per share, at a price of \$1.00 per warrant, or \$8,700,000 in the aggregate, in a private placement that will close simultaneously with the closing of this offering.

Our initial stockholders currently own an aggregate of 6,900,000 shares of Class B common stock (up to 900,000 shares of which are subject to forfeiture depending on the extent to which the underwriters' over-allotment option is exercised), which will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of our initial business combination on a one-for-one basis, subject to the adjustments described herein.

Up to 13 qualified institutional buyers or institutional accredited investors which are not affiliated with any member of our management, and which we refer to as the anchor investors throughout this prospectus, have each expressed to us an interest in purchasing up to 2,376,000 units in this offering at the offering price of \$10.00, and such allocations will be determined by the underwriters. There can be no assurance that the anchor investors will acquire any units in this offering, or as to the amount of such units the anchor investors will retain, if any, prior to or upon the consummation of our initial business combination. There is also no guarantee that all 13 anchor investors will participate in the offering. For a discussion of certain additional arrangements with the anchor investors, see "Summary — The Offering — Expression of Interest."

Currently, there is no public market for our units, Class A common stock or warrants. We have been approved to list our units on the New York Stock Exchange, or the NYSE, under the symbol "INAQ.U" on or promptly after the date of this prospectus. We expect the shares of Class A common stock and warrants comprising the units to begin separate trading on the 52nd day following the date of this prospectus unless Cantor Fitzgerald & Co. informs us of its decision to allow earlier separate trading, subject to our satisfaction of certain conditions. Once the securities comprising the units begin separate trading, we expect that the Class A common stock and warrants will be listed on the NYSE under the symbols "INAQ" and "INAQ.WS," respectively.

We are an "emerging growth company" under applicable federal securities laws and will be subject to reduced public company reporting requirements. Investing in our securities involves a high degree of risk. See "Risk Factors" beginning on page 35 for a discussion of information that should be considered in connection with an investment in our securities. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.

Neither the U.S. Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Unit	Total
Public offering price	\$ 10.00	\$240,000,000
Underwriting discounts and commissions(1)	\$ 0.70	\$ 16,800,000
Proceeds, before expenses, to us	\$ 9.30	\$223,200,000

(1) \$0.20 per unit sold in the base offering, or \$4,800,000 in the aggregate, is payable upon the closing of this offering. Includes an additional \$0.50 per unit sold in the base offering, or \$12,000,000 in the aggregate, payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States and released to the underwriters only upon the completion of an initial business combination. If the underwriters' over-allotment option is exercised, \$0.70 per over-allotment unit, or up to an additional \$2,520,000 or \$14,520,000 in the aggregate if the underwriters' over-allotment option is exercised in full, will be deposited in the trust account as deferred underwriting commissions and released to the underwriters only upon the completion of an initial business combination. See also "Underwriting" for a description of compensation and other items of value payable to the underwriters.

Of the proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, \$241,200,000, or \$277,380,000 if the underwriters' over-allotment option is exercised in full (\$10.05 per unit in either case), will be deposited into a trust account in the United States with Continental Stock Transfer & Trust Company acting as trustee, after deducting \$4,800,000 in underwriting discounts and commissions payable upon the closing of this offering and an aggregate of \$2,700,000 (\$2,520,000 if the underwriters' over-allotment option is exercised in full) to pay fees and expenses in connection with the closing of this offering and for working capital following the closing of this offering.

The underwriters are offering the units for sale on a firm commitment basis. The underwriters expect to deliver the units to the purchasers on or about September 7, 2021.

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under "Risk Factors" and our financial statements and the related notes included elsewhere in this prospectus, before investing.

Unless otherwise stated in this prospectus or the context otherwise requires, references to:

- *"we," "us," "company" or "our company" are to Insight Acquisition Corp., a Delaware corporation;*
- *"Cantor" or the "representative" are to Cantor Fitzgerald & Co., the representative of the underwriters in this offering;*
- *"Odeon" are to Odeon Capital Group, LLC, an underwriter in this offering;*
- *"DGCL" refers to the Delaware General Corporation Law as the same may be amended from time to time;*
- *"anchor investors" are to the up to 13 qualified institutional buyers or institutional accredited investors which are not affiliated with any member of our management and that have each expressed to us an interest in purchasing up to 2,376,000 units in this offering, as further described herein;*
- *"founder shares" are to shares of Class B common stock initially purchased by our sponsor in a private placement prior to this offering and the shares of Class A common stock that will be issued upon the automatic conversion of the shares of Class B common stock at the time of our initial business combination as described herein;*
- *"initial stockholders" are to holders of our founder shares prior to this offering (other than the anchor investors);*
- *"management" or our "management team" are to our executive officers and directors;*
- *"directors" are to our current directors;*
- *"common stock" are to our Class A common stock and our Class B common stock;*
- *"public shares" are to shares of Class A common stock sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *"public stockholders" are to the holders of our public shares, including our initial stockholders and management team to the extent our initial stockholders and/or members of our management team purchase public shares, provided that each initial stockholder's and member of our management team's status as a "public stockholder" will only exist with respect to such public shares;*
- *"private placement warrants" are to the warrants issued to our sponsor, Cantor and Odeon in a private placement simultaneously with the closing of this offering; and*
- *"sponsor" are to Insight Acquisition Sponsor LLC, a Delaware limited liability company, formed by our Executive Chairman and Chief Executive Officer.*

Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option.

GENERAL

We are a newly organized blank check company formed as a Delaware corporation for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. Throughout this prospectus we will refer to this as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target with respect to an initial business combination with us.

While we may pursue an acquisition in any business industry or sector, we intend to concentrate our efforts identifying businesses in the FinTech or financial services industry with an enterprise value of approximately \$750 million to \$1.5 billion, with particular emphasis on businesses that are providing or changing technology for traditional financial services (“FinTech”), those in the wealth, investment, asset management and insurance sectors, or certain types of technology companies that provide services to the FinTech or financial services companies. Such companies might include those providing artificial intelligence, blockchain, data and analytics, tech-enabled services, risk/compliance/KYC/AML solutions, including those focused on financial, regulatory, fraud and cybersecurity risk, and/or enterprise software solutions, among others. In addition, we intend to capitalize on the ability of our management team to identify and acquire a business in the Fintech or financial services industries that can benefit from our experience and differentiated global network.

BUSINESS STRATEGY

Our business strategy is to identify and complete a business combination that creates long-term value for our shareholders. Our investment team is well positioned to successfully identify attractive opportunities with growth-stage FinTech and related technology companies, as well as with Wealth or Investment management firms. With our prior investment experience and extensive networks, we are confident that we can successfully execute an initial business combination.

We believe that applying Insight’s approach to investing, and leveraging Insight’s network, resources and expertise, will help our management team execute on our business strategy:

- *Growth mindset.* Insight looks to partner with future market leading companies with several years of sustained growth, with a history of customer trust and engagement and a business model that is reflective of the value they provide. These companies often have potential for a sustained category leadership position, and we will leverage Insight’s experience in identifying growth-stage companies with the potential to become market leaders.
- *Management-focused, partnership-oriented approach.* We will aim to align with the strategy and goals of the management team we partner with. By partnering with existing management, we believe that we can build upon management’s existing traction and support them as they strive to achieve category leadership, while minimizing the business disruption associated with a leadership transition.
- *Long investment horizon.* Insight is a long-term investor and our goal is to help companies transform into industry leaders, and to be supportive along the way by continuing to serve on the Board of Directors. We will target companies where we can be a long-term partner, supporting their path towards market leadership.

We believe there are many potential targets within the FinTech (as well as adjacent technologies), asset and wealth management, and broader financial services sectors that could become attractive public companies. These potential targets exhibit a broad range of business models and financial characteristics from mature businesses with recurring revenues and strong cash flows to high growth innovative companies.

We do not intend to limit our search to one segment of the financial services ecosystem, but will instead target a wide variety of companies across the financial services and technology sectors, with a focus on FinTech and adjacent technologies. The FinTech sector, for example, saw \$45.3 billion of financing volume in 2020. Q1 2021 was the largest and most active quarter ever for FinTech financing activity with over \$29 billion in volume across more than 750 transactions.

During the same period, there was an active IPO market, with six US FinTech initial public offerings. Additionally, 2021 has been an active year for SPAC transactions (16 completed through June 2021) in the FinTech sector, or mergers between FinTech companies and SPACs, with announced deal values of \$54.9 billion. Total announced M&A dollar volume reached \$95 billion in Q1, with 21 deals all valued over \$1 billion, the most ever in a single quarter.

The wealth industry has attracted the attention of private equity investors due to its steady growth, high profit margins, consistent cash flow, and low capital requirements. M&A across the vertical remains a principal path to solving strategic challenges and repositioning businesses for growth. Transaction activity remained high in 2020 with 253 announced transactions, a slight reduction year-over-year with the previous year's 270 transactions. The 2020 transactions included 51 traditional asset manager sales, 51 alternative asset manager sales, and 151 private wealth manager sales. 2020 deal activity was spread across firms with different sizes of assets under management ("AUM"). The transacted AUM rose to \$2.9 trillion, implying an average AUM per transaction of \$11.6 billion in 2020 versus \$1.3 trillion in AUM transacted in 2019, implying an average AUM per transaction of \$4.67 billion for that year.

According to McKinsey & Company research, in 2000, the North American wealth management industry totaled \$13 trillion in client assets, which grew by approximately 45%, reaching roughly \$19 trillion in 2010. There were approximately 420,000 advisors in the US and Canada in 2010. By the end of the third quarter of 2020, the industry was managing a record-high \$34.7 trillion in client assets, with annualized year-to-date net flows at a healthy 2.6%. While as of 2018, the total number of advisors remained largely unchanged from 2010, the advisor workforce aged materially in the US, with only 25% under the age of 44, compared to 33% in 2010. Future industry consolidation will be driven by the fact that a substantial number of advisors are expected to retire over the next decade with their managed assets becoming available for acquisition. These retirements are further fueled by the level of education and professional competency demanded of advisors. The industry is also experiencing a substantial transfer of generational assets and an influx of new generational assets, with a direction towards advisors and companies possessing strong technology. As a consequence, businesses are constantly looking to implement, invest or acquire technology platforms that can further their growth and differentiate their product offerings. This disruption and change in the delivery of financial services includes, among others, digital payments, digital advice (robo-advice), exchanges and trading platforms, the use of big data and artificial intelligence, cloud computing and digital assets. As modelled by Aite Group, assets managed on digital investment platforms are set to increase from AUM of \$343 billion in the third quarter of 2019 to \$1.68 trillion by 2025 and according to Juniper Research, consumer spending via digital wallets will exceed \$10 trillion in 2025, an 83% increase from the \$5.5 trillion spent via digital wallets in 2020. According to the Ernst & Young Global Capital Confidence Barometer, 89% of wealth and asset managers that responded to their surveys agreed that digital transformation will present them with opportunities to reposition their overall business strategy and reshape their portfolios. Of the executives surveyed, 77% believe that their chief executive has a clear vision to achieve accelerated digital transformation through M&A. With increased adoption of technology solutions by consumers and businesses alike, we believe that all components of the industry including both mature and innovative newcomers are poised for continued growth in overall market size and penetration. Key industry characteristics include long-term organic growth, attractive competitive dynamics, and further consolidation opportunities to scale. Key business characteristics include high barriers to entry, low risk of technological obsolescence, and public market-ready scale. Key financial metrics include organic revenue growth, recurring revenues, and strong cash flow conversion. We will seek to acquire established businesses that we believe are fundamentally sound, but potentially would benefit from the financial, operational, technological, strategic or managerial improvements our Company and management team can provide to maximize value. We will also look at earlier-stage companies that exhibit the potential to transform the industries in which they participate, and which offer the potential of sustained high levels of revenue growth.

Consistent with our industry focus, we intend to target FinTech, financial services and related technology businesses that have strong management teams, demonstrated organic growth, and differentiated products or services. We believe that the extensive networks of our management team and board of directors will deliver access to a broad spectrum of opportunities across the FinTech, financial services and technology landscapes. In addition to any potential business candidates we may identify on our own, we anticipate that other target business candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity funds venture capital firms and large business enterprises seeking to divest non-core assets or divisions.

Our Past SPAC Company Blank Check Experience

Jeffrey Gary, who is our CEO and CFO, is an officer and director of Fusion Acquisition Corp. (NYSE: FUSE; “Fusion I”), a special purpose acquisition company that completed its initial public offering in June 2020 in which it sold units, each consisting of one share of Class A common stock and one-half of one warrant to purchase one share of Class A common stock for an offering price of \$10.00 per unit, generating aggregate proceeds of approximately \$350,000,000.

On February 11, 2021, Fusion I entered into an agreement and plan of merger with MoneyLion Inc. (“MoneyLion”), pursuant to which, among other things, MoneyLion will become a wholly owned subsidiary of Fusion I. In connection with the business combination, Fusion I raised \$250 million through a private placement of shares of its Class A common stock at a price of \$10.00 per share. The business combination is expected to close in the third quarter of 2021.

Jeffrey Gary who is our CEO and CFO, is an officer and director of Fusion Acquisition II Corp. (NYSE: FSNB; “Fusion II”), a special purpose acquisition company that completed its initial public offering in February 2020 in which it sold units, each consisting of one share of Class A common stock and one-third of one warrant to purchase one share of Class A common stock for an offering price of \$10.00 per unit, generating aggregate proceeds of approximately \$500,000,000.

OUR MANAGEMENT TEAM

We will seek to capitalize on the financial services experience and contacts of the members of our board of directors and management team, including Michael Singer, our Executive Chairman, and Jeffrey Gary, our Chief Executive Officer and Chief Financial Officer, to identify, evaluate, and acquire a target business.

Michael Singer, our Executive Chairman, is the Managing Partner of Alternative Insight, LLC. In 2017, he formed Alternative Insight LLC to serve as management company for his investment management activities, directorships and consultancy. He was Executive Vice Chairman of the Board of Directors of National Holdings Corporation (Nasdaq: NHLD), which was sold to B. Riley Financial in February 2021. From 2012 to 2017, Mr. Singer was Chief Executive Officer and President of Ramius (Cowen Investment Management). Prior to that, he was Head of Alternative Investments at Third Avenue Management. From 2004 to 2009, he was co-President of Ivy Asset Management, an institutional fund of hedge funds business. Mr. Singer began his career at Weiss, Peck & Greer, where he spent nine years and served as Senior Managing Director and Executive Committee Member. Mr. Singer received his Juris Doctorate from the Emory University School of Law and Bachelor of Science degree in accounting with honors from Penn State University. He is an attorney and CPA.

Jeffrey Gary is our Chief Executive Officer and Chief Financial Officer. Mr. Gary has a 30-year track record in the investment and financial services industry, including significant merger and acquisition (“M&A”) experience. He is an experienced board member and investor, having worked on numerous transactions with SPACs and public and private equity companies and has directly led audit, fiduciary, and corporate governance committees

of these companies. He was on the boards of directors of National Holdings Corporation (Nasdaq: NHLD) (February 2019 to February 2021), where he also served as the chair of the audit committee until the successful sale of National to B. Riley Financial in February 2021. He currently serves on the Board of Directors for the Arca US Treasury Mutual Fund and is the Audit Committee Chair (since December 2019). Mr. Gary also sits on the advisory boards for Monroe Capital (since January 2020) and two FinTech companies, DealBox (since May 2019) and Total Network Service/Digital Names (since May 2019). From October 2018 to March 2020, Mr. Gary served on the board of directors of the Axonic Alternative Income Mutual Fund. Previously, Mr. Gary was a senior portfolio manager and led investment teams at Avenue Capital Group (from January 2012 to July 2018), Third Avenue (from May 2009 to December 2010), BlackRock, Inc. (NYSE: BLK) (“BlackRock”) (from September 2003 to December 2008), AIG/American General (NYSE: AIG) (from May 1998 to September 2003), and Koch Industries (from September 1996 to April 1998) where he invested across all asset classes with a focus on the high-yield, bank loan and distressed markets. During this time, he operated in a variety of roles, which included presenting each quarter on regulatory, compliance, shareholder, the Sarbanes-Oxley Act of 2002, and other SEC matters to the Board. His role also included making investments and negotiating capital structures for numerous corporate buyout and acquisition transactions. He also successfully launched and managed several new investment businesses between 1996 and 2018, and was an angel investor/advisor for a start-up healthcare company. For a number of years, Mr. Gary was the portfolio manager for numerous NYSE-listed funds. Mr. Gary also sat as an investment committee member at BlackRockKelso Capital BDC (Nasdaq: BKCC) (“BKCC”) from February 2005 to December 2008, where he was involved with the review and approval of all private equity and credit investments, and was a team member in the launch and initial public offering of BKCC. Additionally, Mr. Gary was employed at Avenue Capital from January 2012 to July 2018. He started his career at PricewaterhouseCoopers as a senior auditor from September 1984 to June 1987 and later as a senior analyst at Citigroup (NYSE: C) from July 1987 to July 1988. From August 1988 to December 2002, Mr. Gary was an investment banker at Mesrow Financial. From January 1993 to August 1996, he was a senior distressed analyst at Cargill, Inc. Mr. Gary has served as a Board Director and Chief Financial Officer of Fusion 1 since June 2020. Mr. Gary has served on the Board of Directors and as the Chief Financial Officer of Fusion Acquisition II Corp. since February 2021. Mr. Gary earned a Bachelor of Science in Accounting from Penn State University in 1984 and a Master of Business Administration in Finance and International Business from Northwestern University (Kellogg) in 1991. Mr. Gary is a Certified Public Accountant.

David Brosgol, one of our directors, is General Counsel of Voyager Digital, a crypto-asset trading platform for retail and institutional investors. Prior to joining Voyager Digital in February 2021, Mr. Brosgol worked with Anchorage, a crypto-native custodian and digital asset platform as a Manager and Advisor, from December 2019 to November 2020. From October 2017 to April 2019, he was a Founder, General Counsel and Chief Compliance Officer at Digital Asset Custody Company (“DACC”). Prior to its acquisition by Bakkt, DACC was a pioneer in the digital asset space providing institutional custody of digital assets. From June 2016 to October 2017, Mr. Brosgol was General Counsel and Managing Director at Maverick Capital, a multi-billion-dollar hedge fund manager. Mr. Brosgol earned a B.A. in Economics from Trinity College in 1990, an M.A. in Philosophy from the University of Essex in 1992 and a J.D. from the University of Virginia in 1995.

Victor Pascucci, III, one of our directors, has served as Managing Partner at Energy Capital Ventures, an early-stage venture capital fund focused on the energy sector, and an Advisory Partner at IA Capital, an early-stage venture capital fund focused on the insurance and fintech sector, each since January 2020. From January 2017 to January 2020, Mr. Pascucci was Managing Partner at Lightbank, an early stage venture capital firm where he led investments in Clearcover, Extend and Billtrim. From August 2016 to January 2017, he was Venture Partner and Investment Director at Munich Re | HSB Ventures, a Global 100 diversified insurance company where he led investments in insurtech. From September 2015 to August 2016, he was a Consultant and Advisor at Attraction Ventures LLC, a consulting practice to corporate venture capital programs and venture capital firms. From 2011 to September 2015, Mr. Pascucci was Head of Corporate Development of USAA, an integrated financial services company with a \$330M fintech and insurtech fund. Investments while at USAA included Coinbase, MX, ID.me,

Prosper Marketplace, Cartera Commerce and TRUECar. Also at USAA, Mr. Pascucci held leadership positions in the General Counsel division and Enterprise Strategy & Transformation. In addition, since January 2019, he has served as an independent consultant, board member and advisor to entrepreneurs and venture backed companies, including Axio Global Inc., EnergyCX, Edmit, ID.me Inc, Leaplife, Clearcover and Paceline. Mr. Pascucci earned a B.A. in Communications from Bowling Green State University in 1992 and a J.D. from the University of Toledo College of Law.

William Ullman, one of our directors, is the Chief Executive Officer of Water Street Advisors LLC, a registered investment advisor. He is also the Founder and Chief Executive Officer of The Daily FinQ, a mobile application designed to help Americans become smarter about money and finance, since 2019. Mr. Ullman has been a board member of Van Eck Associates Corp., a New York based investment firm, since 2010. He also currently serves as a special advisor to FinTech Collective, a venture capital firm, a member of the board of directors of the Capital Returns Fund, since 2010, and a senior advisor to Berkshire Global, since 2020. From 2016 to 2018, Mr. Ullman served as Chief Commercial Officer of Orchard Platform and Chief Executive Officer of its broker-dealer subsidiary (Orchard Platform Markets LLC) prior to its sale to Kabbage in 2018. From 2006 to 2016, he was the founder of Right Wall Capital Management LLC, a firm focused on investing in the financial services sector, including financial technology companies. From 2001 to 2006, Mr. Ullman was the Senior Managing Director, Global Clearing Services at Bear Stearns & Co., Inc. Mr. Ullman earned an A.B. in History from Princeton University in 1985 and an M.B.A. from the Anderson School at UCLA in 1989.

We believe that the members of our board of directors and management team's extensive relationships that were developed over their respective substantial careers at leading financial institutions, as well as their collective executive experience in financial services, FinTech, and the financial markets, will allow us to identify and complete an attractive initial business combination. Similarly, we believe their experience in founding, nurturing, and growing multiple businesses, including asset managers and FinTech businesses, will serve as a valuable foundation to locate and consummate an initial business combination in the financial services industry.

The past performance of our management team or their respective affiliates is not a guarantee of either: (i) success with respect to any business combination we may consummate; or (ii) that we will be able to identify a suitable candidate for our initial business combination. You should not rely on the historical record of our management team's or their respective affiliates' performance as indicative of any future performance.

For more information on the experience and background of our management team, see the section entitled "Management."

BUSINESS COMBINATION CRITERIA AND PROCESS

Consistent with our business strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective target businesses. We will use these criteria and guidelines in evaluating initial business combination opportunities, but we may decide to enter into our initial business combination with a target business that does not meet these criteria and guidelines. We intend to seek to acquire companies in the FinTech, wealth, asset or investment management or insurance tech (insurtech) sectors or companies that provide technology enables services to these sectors in the valuation range of \$750 million to \$1.5 billion that we believe:

- are fundamentally sound and can unlock and enhance stockholder value through a combination with us, thereby offering attractive risk-adjusted returns for our stockholders;
- have strong, experienced management teams, or provide a platform to assemble an effective management team with a track record of driving growth and profitability;

- are at an inflection point, such as requiring additional capital to fund growth through increased marketing and technology spending, are able to innovate through new operational techniques, or where we believe we can drive improved financial performance;
- can benefit from the application and exploitation of financial service technologies;
- have a history of, or potential for, strong, stable free cash flow generation, with predictable and recurring revenue streams;
- can grow both organically and where we believe our ability to source proprietary opportunities and execute transactions will help the business grow through additional acquisitions
- have a leading or defendable market position and that demonstrate advantages when compared to their competitors, which may help to create barriers to entry against new competitors;
- can benefit from being a publicly traded company, with access to broader capital markets, to achieve the company's growth strategy;
- exhibit unrecognized value or other characteristics that we believe can be enhanced based on our analysis and due diligence review.
- are disrupting large market segments with a large total addressable market. As part of the evaluation process, we will diligence the market segment to thoroughly understand the underlying drivers, business model and competitive environment;
- businesses with substantially mitigated product risk, through proven models, meaningful revenue, and strong unit economics;
- companies that are ready to scale, where we can provide support and industry expertise to support them in scaling their business and executing on their strategic vision; and
- world class firms and management teams looking for an active capital partner that will support their growth with experience and expertise, in addition to capital.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management team may deem relevant. In the event that we decide to enter into our initial business combination with a target business that does not meet the above criteria and guidelines, we will disclose that the target business does not meet the above criteria in our stockholder communications related to our initial business combination, which, as discussed in this prospectus, would be in the form of proxy solicitation materials or tender offer documents, as applicable, that we would file with the SEC. In evaluating a prospective target business, we expect to conduct a due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspections of facilities, as well as reviewing financial and other information which will be made available to us.

We intend to pursue an initial business combination with a high-quality growth company that has the potential to become a market leader. We will apply our experience in sourcing and executing transactions to identify and negotiate a combination with what we believe is an exceptional business. Our team has extensive expertise in the FinTech and Wealth, Asset and Investment management sectors, and we expect that our ultimate target will be in one of those fields, although we may consummate a transaction with a business in a different industry.

In recent years, private technology companies have created extraordinary value through rapid growth at significant scale. Innovative firms are leveraging new technologies such as cloud computing and artificial intelligence to disrupt traditional industries and establish new markets. Furthermore, the global COVID-19

pandemic has accelerated digital transformation across the globe, providing a tailwind for technology disruptors across all industries. As the world adapts to the new normal and continues to adopt these newly created solutions and services, we believe that technology companies with the right market fit are positioned to benefit from significant value creation.

Despite these large market opportunities, technology companies have been remaining private for longer. Availability of private capital has enabled these businesses to grow at scale to “unicorn” valuations and beyond. We believe these investment opportunities will be attractive to public investors and that we are ideally positioned to take these companies public.

Technology companies in their growth stage benefit materially from being publicly-traded. Newly public companies benefit from expanded access to capital markets, a more liquid currency for potential acquisitions and growth capital and increased brand awareness. In addition, a business combination with Insight Acquisition Corp. would provide such companies with additional benefits including a more expeditious route to the public markets, an opportunity to broadly share growth plans through filed forecasts, and earlier certainty of capital through the inclusion of a potential PIPE, when compared to a traditional IPO. Partnering with our management team, who are known for supporting high-growth FinTech and Wealth, Asset and Investment management companies, provides an attractive mechanism to go public.

As part of the evaluation process, we expect to conduct extensive due diligence to assess the company’s market opportunity, competitive positioning, business model and financial profile. Our review process may include, among other things, interviews with competitors, customers and vendors, analysis of significant risks and opportunities, meetings with management and employees, and review of other relevant information, which may encompass, among other things, document reviews, inspections of facilities, as well as reviewing financial and other information which will be made available to us.

INITIAL BUSINESS COMBINATION

The NYSE rules require that we must consummate an initial business combination with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the trust account (net of amounts disbursed to management for working capital purposes, if permitted, and excluding the amount of any deferred underwriting commissions). Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm which is a member of FINRA or a valuation or appraisal firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of the target’s assets or prospects.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting

securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of the 80% of net assets test described above. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses.

Prior to the date of this prospectus, we filed a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Securities Exchange Act of 1934, as amended, or the Exchange Act. As a result, we are subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

SOURCING OF POTENTIAL INITIAL BUSINESS COMBINATION TARGETS

We believe our management team's significant operating and transaction experience and relationships will provide us with a substantial number of potential initial business combination targets. Over the course of their careers, the members of our management team and our directors and advisors have developed a broad network of contacts and corporate relationships around the world, which includes private equity firms, venture capitalists and entrepreneurs. This network has grown through the activities of our management team sourcing, acquiring and financing businesses, the reputation of our management team for integrity and fair dealing with sellers, financing sources and target management teams and the experience of our management team in executing transactions under varying economic and financial market conditions. In addition, members of our management team have developed contacts derived directly from serving on the boards of directors of several public and private companies.

This network has provided our management team with a flow of referrals, which in the past has resulted in numerous transactions which were proprietary or where a limited group of investors were invited to participate in the sale process. We believe that this network will provide us with multiple investment opportunities. In addition, we anticipate that target business combination candidates will be brought to our attention by various unaffiliated sources, including participants in our targeted markets and their advisors, private equity funds and large business enterprises seeking to divest non-core assets or divisions.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, executive officers or directors, or completing the business combination through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm which is a member of FINRA or a valuation or appraisal firm stating that such an initial business combination is fair to our company from a financial point of view.

Members of our management team and our independent directors will directly or indirectly own founder shares and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial

business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

As described in “Management — Conflicts of Interest,” each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to another entity pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of the company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

In addition, our sponsor and our officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. In particular, Mr. Gary serves as Chief Financial Officer and Director of Fusion I, a special purpose acquisition company that completed its initial public offering in June 2020. Fusion I, like us, may pursue initial business combination targets in any businesses or industries and has until December 30, 2021, to do so (absent an extension in accordance with their charters). On February 11, 2021, Fusion I entered into an agreement and plan of merger with MoneyLion Inc. (“MoneyLion”), pursuant to which, among other things, MoneyLion agreed to be acquired by Fusion I. Mr. Gary also serves as Chief Financial Officer and Director of Fusion II, a special purpose acquisition company that completed its initial public offering in March 2021. Fusion II, like us, may pursue initial business combination targets in any businesses or industries and has until March 2, 2023, to do so (absent an extension in accordance with their charters). Fusion 2 raised \$500 million and as a result are focused on companies with an enterprise value of \$1.5 billion to \$5 billion which is larger than the target size for Insight. Any such companies, including Fusion I and Fusion II, may present additional conflicts of interest in pursuing an acquisition target. However, we do not believe that any such potential conflicts would materially affect our ability to identify and pursue business combination opportunities or to complete our initial business combination.

CORPORATE INFORMATION

Our executive offices are located at 333 East 91st Street, New York, New York 10128, and our telephone number is (917) 374-2922. We intend to maintain a corporate website at <http://www.insightacqcorp.com> following the consummation of this offering.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended (the “Securities Act”), as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”). As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period. References herein to “emerging growth company” will have the meaning associated with it in the JOBS Act.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates exceeds \$250 million as of the prior June 30th, and (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the prior June 30.

THE OFFERING

In making your decision on whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled "Risk Factors" in this prospectus.

Securities offered	24,000,000 units, at \$10.00 per unit, each unit consisting of: <ul style="list-style-type: none">• one share of Class A common stock; and• one-half of one redeemable warrant.
NYSE symbols	Units: "INAQ.U" Class A common stock: "INAQ" Warrants: "INAQ WS"
Trading commencement and separation of shares of Class A common stock and warrants	The units are expected to begin trading on or promptly after the date of this prospectus. The shares of Class A common stock and warrants comprising the units will begin separate trading on the 52 nd day following the date of this prospectus unless Cantor informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of Class A common stock and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.
Separate trading of the Class A common stock and warrants is prohibited until we have filed a Current Report on Form 8-K	In no event will the Class A common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly after the closing of this offering, which closing is anticipated to take place three business days from the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report

on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

Units	
Number outstanding before this offering	0
Number outstanding after this offering	24,000,000(1)
Common stock:	
Number outstanding before this offering	6,900,000(2)(3)
Number outstanding after this offering	30,000,000(1)(3)(4)
Warrants:	
Number of private placement warrants to be sold in a private placement simultaneously with this offering	8,700,000(1)
Number of warrants to be outstanding after this offering and the private placement	20,700,000(1)(5)

Exercisability Each whole warrant offered in this offering is exercisable to purchase one share of Class A common stock. Only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant.

We structured each unit to contain one-half of one warrant, with each whole warrant exercisable for one share of Class A common stock, as compared to units issued by some other similar special purpose acquisition companies which contain whole warrants exercisable for one whole share, in order to reduce the dilutive effect of the warrants

-
- (1) Assumes no exercise of the underwriters' over-allotment option and the forfeiture of 900,000 founder shares by our initial stockholders for no consideration.
 - (2) Includes up to 900,000 founder shares that will be forfeited by our initial stockholders depending on the extent to which the underwriters' over-allotment option is exercised.
 - (3) Founder shares are currently classified as shares of Class B common stock, which shares will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of our initial business combination on a one-for-one basis, subject to adjustment as described below adjacent to the caption "Founder shares conversion and anti-dilution rights."
 - (4) Includes 24,000,000 public shares and 6,000,000 founder shares.
 - (5) Includes 12,000,000 public warrants included in the units to be sold in this offering and 8,700,000 private placement warrants to be sold in the private placement.

upon completion of a business combination as compared to units that each contain a whole warrant to purchase one whole share, thus making us, we believe, a more attractive business combination partner for target businesses.

Exercise price

\$11.50 per share, subject to adjustments as described herein. In addition, if (x) we issue additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial stockholders or their affiliates, without taking into account any founder shares held by our initial stockholders or such affiliates, as applicable, prior to such issuance), (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and (z) the volume weighted average trading price of our Class A common stock during the 20 trading day period starting on the trading day prior to the day on which we consummate our initial business combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described below under “Redemption of warrants” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

Exercise period

The warrants will become exercisable 30 days after the completion of our initial business combination; provided that we have an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement). If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our best efforts to file a post-effective amendment to the registration statement of which this prospectus forms a part or a new registration statement with the SEC and have an effective registration statement covering the shares of Class A common stock issuable upon

exercise of the warrants and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the Class A common stock issuable upon exercise of the warrants is not effective by the 60th business day after the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if our shares of Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, and in the event we do not so elect, we will use our best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination or earlier upon redemption or liquidation. On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.

Redemption of warrants

Once the warrants become exercisable, we may redeem the outstanding warrants for cash (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption, which we refer to as the 30-day redemption period; and
- if, and only if, the closing price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities for capital raising purposes in connection with the closing of our initial business combination as described elsewhere in this prospectus) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants for cash unless an effective registration statement under the Securities Act covering the Class A common stock issuable upon exercise of the warrants is effective and a

current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

None of the private placement warrants will be redeemable by us so long as they are held by the initial purchasers of the private placement warrants or their permitted transferees.

Cashless exercise

If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a “cashless basis.” In determining whether to require all holders to exercise their warrants on a “cashless basis,” our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of our warrants. In such event, each holder would pay the exercise price by surrendering the warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the excess of the “fair market value” of our Class A common stock (defined below) over the exercise price of the warrants by (y) the fair market value. The “fair market value” will mean the average reported closing price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. Please see “Description of Securities — Warrants — Public Stockholders’ Warrants” for additional information.

Founder shares

On May 5, 2021 our sponsor paid \$25,000 to cover certain of our offering costs in exchange for 6,181,500 founder shares, or approximately \$0.004 per share. On July 29, 2021, we effected a 1:1.1162791 stock split of our Class B common stock, resulting in our sponsor holding an aggregate of 6,900,000 founder shares. Prior to the initial investment in the company of \$25,000 by the sponsor, the company had no assets, tangible or intangible. The per share price of the founder shares was determined by dividing the amount of cash contributed to the company by the number of founder shares issued. The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 27,600,000 units if the underwriters’ over-allotment option is exercised in full, and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Up to 900,000 of the founder shares will be forfeited depending on the extent to which the underwriters’ over-allotment option is not exercised.

The founder shares are identical to the shares of Class A common stock included in the units being sold in this offering, except that:

- the founder shares are subject to certain transfer restrictions, as described in more detail below;
- the founder shares are entitled to registration rights;
- our initial stockholders, sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to (i) waive their redemption rights with respect to any founder shares and public shares they hold in connection with the completion of our initial business combination, (ii) waive their redemption rights with respect to any founder shares and public shares they hold in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders' rights or pre-initial business combination activity and (iii) waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold if we fail to complete our initial business combination within 18 months from the closing of this offering or any extended period of time that we may have to consummate an initial business combination as a result of an amendment to our amended and restated certificate of incorporation (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame). If we submit our initial business combination to our public stockholders for a vote, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination. As a result, in addition to our initial stockholders' founder shares, we would need 9,000,001, or 37.5%, of the 24,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised, or 1,500,001, or 6.25%, of the 24,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming only the minimum number of shares are voted and the over-allotment option is not exercised));
- the anchor investors will not be entitled to (i) redemption rights with respect to any founder shares held by them in connection with the completion of our initial business combination, (ii) redemption rights with respect to any founder shares held by them in connection with a stockholder vote to amend our amended and restated certification of incorporation in a manner

that would affect the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 18 months from the closing of this offering or (iii) rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within 18 months from the closing of this offering (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our business combination within the prescribed time frame); and

- the founder shares are automatically convertible into our Class A common stock concurrently with or immediately following the consummation of our initial business combination on a one-for-one basis, subject to adjustment pursuant to certain anti-dilution rights, as described below adjacent to the caption “Founder shares conversion and anti-dilution rights.”

Transfer restrictions on founder shares

Our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (i) one year after the completion of our initial business combination and (ii) the date on which we complete a liquidation, merger, capital stock exchange or other similar transaction after our initial business combination that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property; except to certain permitted transferees and under certain circumstances as described herein under “Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants”. Any permitted transferees will be subject to the same restrictions and other agreements of our initial stockholders with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up. Notwithstanding the foregoing, if (1) the closing price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination or (2) if we consummate a transaction after our initial business combination which results in our stockholders having the right to exchange their shares for cash, securities or other property, the founder shares will be released from the lock-up.

Founder shares conversion and anti-dilution rights

The founder shares will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of our initial business combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of

Class A common stock or equity-linked securities are issued or deemed issued in connection with our initial business combination, the number of shares of Class A common stock issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the total number of shares of Class A common stock outstanding after such conversion (after giving effect to any redemptions of shares of Class A common stock by public stockholders), including the total number of shares of Class A common stock issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial business combination, excluding any shares of Class A common stock or equity-linked securities or rights exercisable for or convertible into shares of Class A common stock issued, or to be issued, to any seller in the initial business combination and any private placement warrants issued to our sponsor, officers or directors upon conversion of working capital loans, provided that such conversion of founder shares will never occur on a less than one-for-one basis.

Anchor Investor Expression of Interest

Up to 13 anchor investors have each expressed to us an interest in purchasing up to 2,376,000 units in this offering at the offering price of \$10.00 per unit, and such allocations will be determined by the underwriters.

Pursuant to such units, the anchor investors have not been granted any stockholder or other rights in addition to those afforded to our other public stockholders. Further, the anchor investors are not required to (i) hold any units, shares of Class A common stock or warrants they may purchase in this offering or thereafter for any amount of time, (ii) vote any shares of Class A common stock they may own at the applicable time in favor of our initial business combination or (iii) refrain from exercising their right to redeem their public shares at the time of our initial business combination. The anchor investors will have the same rights to the funds held in the trust account with respect to the shares of Class A common stock underlying the units they may purchase in this offering as the rights afforded to our other public stockholders.

There can be no assurance that the anchor investors will acquire any units in this offering, or as to the amount of such units the anchor investors will retain, if any, prior to or upon the consummation of our initial business combination. There is also no guarantee that all 13 anchor investors will participate in the offering. In the event that the anchor investors purchase all of the units that they have expressed an interest in purchasing in this offering, hold all such units until prior to consummation of our initial business combination and vote their public shares in favor of our initial business combination, in addition to the founder shares, no affirmative votes from other public

stockholders would be required to approve our initial business combination. The anchor investors are not required to vote any of their public shares in favor of our initial business combination or for or against any other matter presented for a stockholder vote.

Each anchor investor has entered into separate investment agreements with us and our sponsor pursuant to which each anchor investor agreed to purchase 75,000 or 150,000 founder shares, as the case may be, or an aggregate of 2,376,000 founder shares, from our sponsor at the closing of this offering, subject to such anchor investors' acquisition of 100% of the units allocated to it by the underwriters in this offering. Pursuant to the investment agreements, the anchor investors have agreed to (a) vote any founder shares held by them in favor of our initial business combination and (b) subject any founder shares held by them to the same lock-up restrictions as the founder shares held by our sponsor and independent directors.

Voting Rights

Holders of record of our Class A common stock and holders of record of our Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders, with each share of common stock entitling the holder to one vote except as required by law.

Private placement warrants

Our sponsor, Cantor and Odeon have committed, pursuant to a written agreement, to purchase an aggregate of 8,700,000 private placement warrants, each exercisable to purchase one share of Class A common stock at \$11.50 per share, at a price of \$1.00 per warrant, or \$8,700,000 in the aggregate, in a private placement that will close simultaneously with the closing of this offering. Of those 8,700,000 private placement warrants, our sponsor has agreed to purchase 7,500,000 private placement warrants and Cantor and Odeon have agreed to purchase 1,200,000 private placement warrants in the aggregate. A portion of the purchase price of the private placement warrants will be added to the proceeds from this offering to be held in the trust account such that at the time of closing of this offering \$241,200,000 (or \$277,380,000 if the underwriters exercise their over-allotment option in full) will be held in the trust account. If we do not complete our initial business combination within 18 months from the closing of this offering, the private placement warrants will expire worthless. The private placement warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by their initial purchasers or their permitted transferees (except as described below under "Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants"). If the private placement warrants are held by holders other than their initial purchasers or their permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

Transfer restrictions on private placement warrants

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination, except as described herein under “Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants”.

In addition, for as long as the private placement warrants are held by Cantor or Odeon or their respective designees or affiliates, they will be subject to the lock-up and registration rights limitations imposed by FINRA Rule 5110 and may not be exercised after five years from the commencement of sales of this offering.

Proceeds to be held in trust account

The rules of the NYSE provide that at least 90% of the gross proceeds from this offering and the sale of the private placement warrants be deposited in a trust account. Of the proceeds we will receive from this offering and the sale of the private placement warrants described in this prospectus, \$241,200,000, or \$277,380,000 if the underwriters’ over-allotment option is exercised in full (\$10.05 per unit in either case), will be deposited into a segregated trust account located in the United States at JP Morgan Chase Bank, N.A. with Continental Stock Transfer & Trust Company acting as trustee, after deducting \$4,800,000 in underwriting discounts and commissions payable upon the closing of this offering and an aggregate of \$2,700,000 to pay fees and expenses in connection with the closing of this offering and for working capital following the closing of this offering. The proceeds to be placed in the trust account include \$12,000,000 (or up to \$14,520,000 if the underwriters’ over-allotment option is exercised in full) in deferred underwriting commissions.

Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, the proceeds from this offering and the sale of the private placement warrants will not be released from the trust account until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares if we are unable to complete our initial business combination within 18 months from the closing of this offering, subject to applicable law, and (iii) the redemption of our public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders’ rights for pre-initial business combination activity. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

Anticipated expenses and funding sources

Unless and until we complete our initial business combination, no proceeds held in the trust account will be available for our use, except the withdrawal of interest to pay our taxes and/or to redeem our public shares in connection with an amendment to our amended and restated certificate of incorporation, as described above. The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. We estimate the interest earned on the trust account will be approximately \$48,240 per year, assuming an interest rate of 0.02% per year; however, we can provide no assurances regarding this amount. Unless and until we complete our initial business combination, we may pay our expenses only from such interest withdrawn from the trust account and:

- the net proceeds of this offering and the sale of the private placement warrants not held in the trust account, which initially will be approximately \$2,000,000 (\$1,820,000 if the underwriters' over-allotment option is exercised in full) in working capital after the payment of approximately \$700,000 in expenses relating to this offering; and
- any loans or additional investments from our sponsor, members of our management team or their affiliates or other third parties, although they are under no obligation to advance funds or invest in us, and provided that any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of our initial business combination. Up to \$1,500,000 of such loans may be convertible into private placement warrants, at a price of \$1.00 per warrant, at the option of the lender.

Conditions to completing our initial business combination

NYSE rules require that we must consummate an initial business combination with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the trust account (net of amounts disbursed to management for working capital purposes, if permitted, and excluding the amount of any deferred underwriting commissions). Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm which is a member of FINRA or a valuation or appraisal firm. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to

the value of the target's assets or prospects. We will complete our initial business combination only if the post-transaction company in which our public stockholders own shares will own or acquire 50% or more of the outstanding voting securities of the target or is otherwise not required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to our initial business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock or shares of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our issued and outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of the 80% of net assets test described above, provided that in the event that the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses and we will treat the target businesses together as our initial business combination for purposes of a seeking stockholder approval or conducting a tender offer, as applicable.

Permitted purchases of public shares and public warrants by our affiliates

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial stockholders, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares our initial stockholders, directors, officers, advisors or their affiliates may purchase in such transactions, subject to compliance with applicable law and the NYSE rules. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds held in the trust account will be used to purchase shares or public warrants in such transactions. If they engage in such transactions, they will be restricted from making any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules

under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. We expect any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. See “Proposed Business — Permitted purchases of our securities” for a description of how our sponsor, initial stockholders, directors, executive officers, advisors or any of their affiliates will select which stockholders to purchase securities from in any private transaction.

The purpose of any such purchases of shares could be to vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. In addition, if such purchases are made, the public “float” of our Class A common stock or warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Redemption rights for public stockholders upon completion of our initial business combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein. The amount in the trust account is initially anticipated to be \$10.05 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our initial stockholders, sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their

redemption rights with respect to any founder shares they hold and any public shares they may acquire during or after this offering, and the anchor investors will not be entitled to redemptions rights with respect to any founder shares held by them, in connection with the completion of our business combination.

Manner of conducting redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) without a stockholder vote by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under applicable law or stock exchange listing requirement. Asset acquisitions and share purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding Class A common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. So long as we obtain and maintain a listing for our securities on the NYSE we will be required to comply with the NYSE's stockholder approval rules.

The requirement that we provide our public stockholders with the opportunity to redeem their public shares by one of the two methods listed above will be contained in provisions of our amended and restated certificate of incorporation and will apply whether or not we maintain our registration under the Exchange Act or our listing on the NYSE. Such provisions may be amended if approved by holders of 65% of our common stock entitled to vote thereon. If we amend such provisions of our amended and restated certificate of incorporation, we will provide our public stockholders with the opportunity to redeem their public shares in connection with a stockholder meeting.

If we provide our public stockholders with the opportunity to redeem their public shares in connection with a stockholder meeting, we will:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or

by proxy of shares of outstanding capital stock of the Company representing a majority of the voting power of all outstanding shares of capital stock of the Company entitled to vote at such meeting. Our initial stockholders will count towards this quorum and, pursuant to the letter agreement, our sponsor, officers and directors have agreed to vote any founder shares they hold and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions), and the anchor investors have agreed to vote any founder shares held by them, in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to our founder shares, we would need only 9,000,001, or 37.5%, of the 24,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised, or 1,500,001, or 6.25%, of the 24,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming only the minimum number of shares are voted and the over-allotment option is not exercised)). These quorum and voting thresholds, and the voting agreements of our initial stockholders and the anchor investors, may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction or whether they were a stockholder on the record date for the stockholder meeting held to approve the proposed transaction.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than the number of public shares we are permitted to redeem. If

public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial business combination.

Upon the public announcement of our initial business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

We intend to require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to, at the holder’s option, either deliver their stock certificates to our transfer agent or deliver their shares to our transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) system, prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a stockholder vote, we intend to require a public stockholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the vote in which the name of the beneficial owner of such shares is included. The proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. We believe that this will allow our transfer agent to efficiently process any redemptions without the need for further communication or action from the redeeming public stockholders, which could delay redemptions and result in additional administrative cost. If the proposed initial business combination is not approved and we continue to search for a target company, we will promptly return any certificates or shares delivered by public stockholders who elected to redeem their shares.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. In addition, our proposed initial business combination may impose a minimum cash requirement for: (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we

will not complete the initial business combination or redeem any shares in connection with such initial business combination, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof. We may, however, raise funds through the issuance of equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop arrangements we may enter into following consummation of this offering, in order to, among other reasons, satisfy such net tangible assets or minimum cash requirements.

Limitation on redemption rights of stockholders holding 15% or more of the shares sold in this offering if we hold stockholder vote

Notwithstanding the foregoing redemption rights, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering, without our prior consent. We believe the restriction described above will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights against a business combination if such holder’s shares are not purchased by us, our sponsor or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders’ ability to redeem to no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders’ ability to vote all of their shares (including all shares held by those stockholders that hold more than 15% of the shares sold in this offering) for or against our initial business combination.

Release of funds in trust account on closing of our initial business combination

On the completion of our initial business combination, the funds held in the trust account will be used to pay amounts due to any public

stockholders who exercise their redemption rights as described above under “Redemption rights for public stockholders upon completion of our initial business combination,” to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post- transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

Redemption of public shares and distribution and liquidation if no initial business combination

Our amended and restated certificate of incorporation provides that we will have only 18 months from the closing of this offering to complete our initial business combination. If we are unable to complete our initial business combination within such 18-month period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject, in each case, to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the 18-month time period.

Our initial stockholders have entered into agreements with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 18 months from the closing of this offering or any extended period of time that we may have to consummate an initial business combination as a result of an amendment to our amended and restated certificate of incorporation. However, if our initial stockholders or management

team or the anchor investors acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 18-month time frame.

The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete our initial business combination within 18 months from the closing of this offering or any extended period of time that we may have to consummate an initial business combination as a result of an amendment to our amended and restated certificate of incorporation and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares.

Our sponsor, executive officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations described above under "Limitations on redemptions." For example, our board of directors may propose such an amendment if it determines that additional time is necessary to complete our initial business combination. In such event, we will conduct a proxy solicitation and distribute proxy materials pursuant to Regulation 14A of the Exchange Act seeking stockholder approval of such proposal, and in connection therewith, provide our public stockholders with the redemption rights described above upon stockholder approval of such amendment.

Limited payments to insiders

There will be no finder's fees, reimbursement, consulting fee, monies in respect of any payment of a loan or other compensation paid by us to our sponsor, officers or directors, or any affiliate of our sponsor or officers prior to, or in connection with any services rendered in order to effectuate, the consummation of our initial business combination (regardless of the type of transaction that it is). However, the following payments will be made to our sponsor, officers or directors, or our or their affiliates, and, if made prior to our initial business combination will be made from funds held outside the trust account.

- Repayment of up to an aggregate of \$300,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;
- Payment to our sponsor of \$10,000 per month for office space, secretarial and administrative services provided to or incurred by members of our management team;
- Subject to approval by our board of directors, payments of up to \$15,000 per month to members of our management team for services rendered to us commencing on the date that our securities are first listed on the NYSE through the earlier of consummation of our initial business combination and our liquidation;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating, negotiating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Except for the foregoing, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans.

Audit Committee

We will establish and maintain an audit committee. Among its responsibilities, the audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates and monitor compliance with the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to promptly take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see the section entitled “Management — Committees of the Board of Directors — Audit Committee.”

RISKS

Summary of Risk Factors

An investment in our securities involves a high degree of risk. The occurrence of one or more of the events or circumstances described in the section titled “Risk Factors,” alone or in combination with other events or circumstances, may materially adversely affect our business, financial condition and operating results. In that event, the trading price of our securities could decline, and you could lose all or part of your investment. Such risks include, but are not limited to:

- We are a blank check company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.
- Our public stockholders may not be afforded an opportunity to vote on our proposed initial business combination, which means we may complete our initial business combination even though a majority of our public stockholders do not support such a combination.
- Your only opportunity to effect your investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.
- If we seek stockholder approval of our initial business combination, our initial stockholders, management team and the anchor investors have agreed to vote their founder shares in favor of such initial business combination, regardless of how our public stockholders vote.
- The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.
- The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.
- The requirement that we complete our initial business combination within 18 months after the closing of this offering may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets, in particular as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our stockholders.
- Our search for a business combination, and any target business with which we ultimately consummate a business combination, may be materially adversely affected by the recent coronavirus (COVID-19) outbreak and other events and the status of debt and equity markets.
- If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors or their affiliates may elect to purchase shares or warrants from public stockholders, which may influence a vote on a proposed business combination and reduce the public “float” of our securities.
- If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for submitting or tendering its shares, such shares may not be redeemed.
- You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

- The NYSE may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.
- You will not be entitled to protections normally afforded to investors of many other blank check companies.
- Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we have not completed our initial business combination within the required time period, our public stockholders may receive only approximately \$10.00 per share, or less in certain circumstances, on our redemption of their shares, and our warrants will expire worthless.
- If the net proceeds of this offering and the sale of the private placement warrants not being held in the trust account are insufficient to allow us to operate for at least the 18 months following the closing of this offering, it could limit the amount of cash available to fund our search for a target business or businesses and complete our initial business combination, and we will depend on loans from our sponsor or management team to fund our search and to complete our initial business combination.
- Past performance by our management team and their affiliates, including investments and transactions in which they have participated and businesses with which they have been associated, may not be indicative of future performance of an investment in the company.
- Unlike some other similarly structured special purpose acquisition companies, our initial stockholders will receive additional shares of Class A common stock if we issue certain shares to consummate an initial business combination.
- We may reincorporate in another jurisdiction in connection with our initial business combination and such reincorporation may result in taxes imposed on stockholders or warrant holders.

SUMMARY FINANCIAL DATA

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	<u>May 5, 2021</u>
Balance Sheet Data:	
Working capital (deficiency)	\$ (12,118)
Total assets	\$ 36,618
Total liabilities	\$ 12,118
Stockholder's equity	\$ 24,500

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

Risks Relating to our Search for, and Consummation of or Inability to Consummate, a Business Combination

We are a blank check company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a blank check company incorporated under the laws of the State of Delaware with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination. We have no plans, arrangements or understandings with any prospective target business concerning a business combination and may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

Our stockholders may not be afforded an opportunity to vote on our proposed initial business combination, and even if we hold a vote, holders of our founder shares will participate in such vote, which means we may complete our initial business combination even though a majority of our public stockholders do not support such a combination.

We may choose not to hold a stockholder vote to approve our initial business combination if the business combination would not require stockholder approval under applicable law or stock exchange listing requirement. Except for as required by applicable law or stock exchange requirement, the decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. Even if we seek stockholder approval, the holders of our founder shares will participate in the vote on such approval. Accordingly, we may complete our initial business combination even if a majority of our public stockholders do not approve of the business combination we complete. Please see the section entitled “Proposed Business — Stockholders May Not Have the Ability to Approve Our Initial Business Combination” for additional information.

Your only opportunity to affect the investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of our initial business combination. Since our board of directors may complete a business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the business combination, unless we seek such stockholder vote. Accordingly, your only opportunity to affect the investment decision regarding our initial business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

Potential participation in this offering by our anchor investors could reduce the public float for our shares.

Our anchor investors have each expressed to us an interest to purchase an aggregate of up to 2,376,000 units in this offering at the offering price and we have agreed to direct the underwriters to sell to the anchor investors such amount of units. Because these expressions of interest are not binding agreements or commitments to purchase, our anchor investors may determine to purchase fewer or no units in this offering or the underwriters may determine to sell fewer or no units to our anchor investors. If our anchor investors purchase all of the units for which they have expressed an interest, such purchases would reduce the available public float for our securities. Any such reduction in our available public float may consequently reduce the trading volume, volatility and liquidity of our securities relative to what they would have been had such units been purchased by public investors and could result in our securities being delisted from the NYSE.

If we seek stockholder approval of our initial business combination, our initial stockholders, management team and the anchor investors have agreed to vote their founder shares in favor of such initial business combination, regardless of how our public stockholders vote.

Our sponsor, officers and directors have agreed to vote their founder shares, as well as any public shares purchased during or after this offering (including in open market and privately negotiated transactions), and our anchor investors have agreed to vote any founder shares held by them, in favor of our initial business combination. As a result, in addition to our initial stockholders' founder shares, we would need only 9,000,001, or 37.5%, of the 24,000,000 public shares sold in this offering to be voted in favor of an initial business combination (assuming all outstanding shares are voted; or 1,500,001, or 6.25%, assuming only the minimum number of shares representing a quorum are voted and assuming our sponsor, officers and directors do not purchase any public shares) in order to have our initial business combination approved (in each case assuming the over-allotment option is not exercised). Holders of our founder shares will own 20% of our outstanding shares of common stock immediately following the completion of this offering and the private placement. Accordingly, if we seek stockholder approval of our initial business combination, the agreement by our initial stockholders to vote in favor of our initial business combination, and the agreement by the anchor investors to vote any founder shares held by them, will increase the likelihood that we will receive the requisite stockholder approval for such initial business combination. The anchor investors are not required to vote any of their public shares in favor of our initial business combination or for or against any other matter presented for a stockholder vote.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with minimum cash requirement for (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 or make us unable to satisfy a minimum cash condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third party financing. In addition, if a larger number of shares is submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third party financing. Raising additional third party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. Furthermore, this dilution would increase to the extent that the anti-dilution provision of the Class B common stock results in the issues of shares of Class A common stock on a greater than one-to-one basis upon conversion of the shares of Class B common stock at the time of our initial business combination. In addition, the amount of the deferred underwriting commissions payable to the underwriters will not be adjusted for any shares that are redeemed in connection with an initial business combination. The per share amount we will distribute to stockholders who properly exercise their redemption rights will not be reduced by the deferred underwriting commission and after such redemptions, the amount held in trust will continue to reflect our obligation to pay the entire deferred underwriting commissions. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.

If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with your exercise of redemption rights until we liquidate or you are able to sell your shares in the open market.

The requirement that we complete our initial business combination within 18 months after the closing of this offering may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets, in particular as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination within 18 months from the closing of this offering. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

Our search for a business combination, and any target business with which we ultimately consummate a business combination, may be materially adversely affected by the recent coronavirus (COVID-19) outbreak and other events and the status of debt and equity markets.

Since it was first reported to have emerged in December 2019, a novel strain of coronavirus, which causes COVID-19, has spread across the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a “Public Health Emergency of International Concern.” On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a “pandemic.” The COVID-19 outbreak has adversely affected, and other events (such as terrorist attacks, natural disasters or a significant outbreak of other infectious diseases) could adversely affect, the economies and financial markets worldwide, potentially including the business of any potential target business with which we intend to consummate a business combination. Furthermore, we may be unable to complete a business combination at all if concerns relating to COVID-19 continue to restrict travel, limit the ability to have meetings with potential investors or make it impossible or impractical to negotiate and consummate a transaction with the target company’s personnel, vendors and services providers in a timely manner, if at all. The extent to which COVID-19 impacts our search for a business combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other events (such as terrorist attacks, natural disasters or a significant outbreak of other infectious diseases) continue for an extensive period of time, our ability to consummate a business combination, or the operations of a target business with which we ultimately consummate a business combination, may be materially adversely affected.

In addition, our ability to consummate a transaction may be dependent on the ability to raise equity and debt financing which may be impacted by COVID-19 and other events (such as terrorist attacks, natural disasters or a significant outbreak of other infectious diseases), including as a result of increased market volatility, decreased market liquidity in third-party financing being unavailable on terms acceptable to us or at all.

Finally, the outbreak of COVID-19 may also have the effect of heightening many of the other risks described in this “Risk Factors” section, such as those related to the market for our securities and cross-border transactions.

We may not be able to complete our initial business combination within 18 months after the closing of this offering, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate.

We may not be able to find a suitable target business and complete our initial business combination within 18 months after the closing of this offering. Our ability to complete our initial business combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and the other risks described herein. If we have not completed our initial business combination within such time period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case, to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

If we seek stockholder approval of our initial business combination, our sponsor, initial stockholders, directors, executive officers, advisors and their affiliates may elect to purchase shares or public warrants from public stockholders, which may influence a vote on a proposed business combination and reduce the public “float” of our Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial stockholders, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. There is no limit on the number of shares our initial stockholders, directors, officers, advisors or their affiliates may purchase in such transactions, subject to compliance with applicable law and the NYSE rules. However, other than as expressly stated herein, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares or public warrants in such transactions. Such purchases may include a contractual acknowledgment that such stockholder, although still the record holder of our shares, is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights.

In the event that our sponsor, initial stockholders, directors, executive officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. The purpose of any such purchases of shares could be to vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. We expect any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements. See “Proposed Business — Permitted purchases of our securities” for a description of how our sponsor, directors, executive officers, advisors or any of their affiliates will select which stockholders to purchase securities from in any private transaction.

In addition, if such purchases are made, the public “float” of our Class A common stock or public warrants and the number of beneficial holders of our securities may be reduced, possibly making it difficult to obtain or maintain the quotation, listing or trading of our securities on a national securities exchange.

If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the proxy rules or tender offer rules, as applicable, when conducting redemptions in connection with our initial business combination. Despite our compliance with these rules, if a stockholder fails to receive our proxy materials or tender offer documents, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or submit public shares for redemption. For example, we intend to require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to, at the holder’s option, either deliver their stock certificates to our transfer agent, or to deliver their shares to our transfer agent electronically prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a stockholder vote, we intend to require a public stockholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the vote in which the name of the beneficial owner of such shares is included. In the event that a stockholder fails to comply with these or any other procedures

disclosed in the proxy or tender offer materials, as applicable, its shares may not be redeemed. See the section of this prospectus entitled “Proposed Business — Submitting Stock Certificates in Connection with Redemption Rights.”

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of this offering and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been selected, we may be deemed to be a “blank check” company under the United States securities laws. However, because we will have net tangible assets in excess of \$5,000,000 upon the completion of this offering and the sale of the private placement warrants and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of an initial business combination. For a more detailed comparison of our offering to offerings that comply with Rule 419, please see “Proposed Business — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.”

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of stockholders are deemed to hold in excess of 15% of our Class A common stock, you will lose the ability to redeem all such shares in excess of 15% of our Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in this offering without our prior consent, which we refer to as the “Excess Shares.” However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your shares in open market transactions, potentially at a loss.

Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

We expect to encounter competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these

competitors possess similar or greater technical, human and other resources to ours or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, we are obligated to offer holders of our public shares the right to redeem their shares for cash at the time of our initial business combination in conjunction with a stockholder vote or via a tender offer. Target companies will be aware that this may reduce the resources available to us for our initial business combination. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination. If we are unable to complete our initial business combination, our public stockholders may receive only their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

If the net proceeds of this offering not being held in the trust account are insufficient to allow us to operate for at least the 18 months following the closing of the offering, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination, and we will depend on loans from our sponsor or management team to fund our search and to complete our initial business combination.

Of the net proceeds of this offering, only \$2,000,000 (\$1,820,000 if the underwriters' over-allotment option is exercised in full) will be available to us initially outside the trust account to fund our working capital requirements. We believe that, upon closing of this offering, the funds available to us outside of the trust account will be sufficient to allow us to operate for at least the 18 months following such closing; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a "no-shop" provision (a provision in letters of intent or merger agreements designed to keep target businesses from "shopping" around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent or merger agreement where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business.

In the event that our offering expenses exceed our estimate of \$700,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$700,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount. The amount held in the trust account will not be impacted as a result of such increase or decrease. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate. Neither our sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants of the post-business combination entity at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. Consequently, our public stockholders may only receive an estimated \$10.05 per share, or possibly less, on our redemption of our public shares, and our warrants will expire worthless.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.05 per share.

Our placing of funds in the trust account may not protect those funds from third party claims against us. Although we will seek to have all vendors, service providers (other than our independent registered public accounting firm), prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will consider whether competitive alternatives are reasonably available to us and will only enter into an agreement with such third party if management believes that such third party's engagement would be in the best interests of the company under the circumstances. The underwriters of this offering as well as our registered independent public accounting firm will not execute agreements with us waiving such claims to the monies held in the trust account.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our initial business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.05 per public share initially held in the trust account, due to claims of such creditors. Pursuant to the letter agreement the form of which is filed as an exhibit to the registration statement of which this prospectus forms a part, our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.05 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.05 per public share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and we believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.05 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Our directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.05 per share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account if less than \$10.05 per public share due to reductions in the value of the trust assets, in each case less taxes payable, and our sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment and subject to their fiduciary duties may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.05 per share.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover some or all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, by paying public stockholders from the trust account prior to addressing the claims of creditors, thereby exposing itself and us to claims of punitive damages.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities,

each of which may make it difficult for us to complete our initial business combination. In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company with the SEC;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations that we are not subject to.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading “investment securities” constituting more than 40% of our assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete a business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the trust account may only be invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an “investment company” within the meaning of the Investment Company Act. This offering is not intended for persons who are seeking a return on investments in government securities or investment securities. The trust account is intended as a holding place for funds pending the earliest to occur of either: (i) the completion of our initial business combination; (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 18 months from the closing of this offering; and (iii) absent an initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders’ rights or pre-initial business combination activity, our return of the funds held in the trust account to our public stockholders as part of our redemption of the public shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a business combination. If we are unable to complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination, and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial business combination, and results of operations.

Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 18 months from the closing of this offering may be considered a liquidating distribution under Delaware law. If a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution. However, it is our intention to redeem our public shares as soon as reasonably possible following the 18th month from the closing of this offering in the event we do not complete our initial business combination and, therefore, we do not intend to comply with the foregoing procedures.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the 10 years following our dissolution. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. If our plan of distribution complies with Section 281(b) of the DGCL, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would likely be barred after the third anniversary of the dissolution. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend beyond the third anniversary of such date. Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 18 months from the closing of this offering is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful (potentially due to the imposition of legal proceedings that a party may bring or due to other circumstances that are currently unknown), then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution.

We may not hold an annual meeting of stockholders until after the consummation of our initial business combination, which could delay the opportunity for our stockholders to elect directors.

In accordance with the NYSE's corporate governance requirements, we are not required to hold an annual meeting until no later than one year after our first fiscal year end following our listing on the NYSE. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

Because we are neither limited to evaluating a target business in a particular industry sector nor have we selected any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business's operations.

Our efforts to identify a prospective initial business combination target will not be limited to a particular industry, sector or geographic region. While we may pursue an initial business combination opportunity in any industry or sector, we intend to capitalize on the ability of our management team to identify, acquire and operate a business or businesses that can benefit from our management team's established global relationships and operating experience. Our management team has extensive experience in identifying and executing strategic investments globally and has done so successfully in a number of sectors. Our amended and restated certificate of incorporation prohibits us from effectuating a business combination with another blank check company or similar company with nominal operations. Because we have not yet selected any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any stockholders or warrant holders who choose to remain stockholders or warrant holders following the business combination could suffer a reduction in the value of their securities. Such stockholders or warrant holders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy materials or tender offer documents, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

We are not required to obtain an opinion from an independent investment banking firm or from a valuation or appraisal firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our stockholders from a financial point of view.

Unless we complete our initial business combination with an affiliated entity or our board of directors cannot independently determine the fair market value of the target business or businesses (including with the assistance of financial advisors), we are not required to obtain an opinion from an independent investment banking firm which is a member of FINRA or from a valuation or appraisal firm that the price we are paying is fair to our stockholders from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy materials or tender offer documents, as applicable, related to our initial business combination.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete our initial business combination. We and our officers have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt is outstanding;
- our inability to pay dividends on our Class A common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our Class A common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of this offering and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

The net proceeds from this offering and the private placement of warrants will provide us with \$229,200,000 (or \$262,860,000 if the underwriters' over-allotment option is exercised in full) that we may use to complete our initial business combination (after taking into account the \$12,000,000, or up to \$14,520,000 if the over-allotment option is exercised in full, of deferred underwriting commissions being held in the trust account).

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset, or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our business combination strategy, we may seek to effectuate our initial business combination with a privately held company. Very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete our initial business combination with which a substantial majority of our stockholders or warrant holders do not agree.

Our amended and restated certificate of incorporation does not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. In addition, our proposed initial business combination may impose a minimum cash requirement for: (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. As a result, we may be able to complete our initial business combination even though a substantial majority of our public

stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisors or any of their affiliates. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares in connection with such initial business combination, all shares of Class A common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

In order to effectuate an initial business combination, special purpose acquisition companies have, in the recent past, amended various provisions of their charters and other governing instruments, including their warrant agreements. We cannot assure you that we will not seek to amend our amended and restated certificate of incorporation or governing instruments in a manner that will make it easier for us to complete our initial business combination that our stockholders may not support.

In order to effectuate a business combination, special purpose acquisition companies have, in the recent past, amended various provisions of their charters and governing instruments, including their warrant agreements. For example, special purpose acquisition companies have amended the definition of business combination, increased redemption thresholds and extended the time to consummate an initial business combination and, with respect to their warrants, amended their warrant agreements to require the warrants to be exchanged for cash and/or other securities. Amending our amended and restated certificate of incorporation will require the approval of holders of 65% of our common stock, and amending our warrant agreement will require a vote of holders of at least 50% of the public warrants and, solely with respect to any amendment to the terms of the private placement warrants or any provision of the warrant agreement with respect to the private placement warrants, 50% of the number of the then outstanding private placement warrants. In addition, our amended and restated certificate of incorporation requires us to provide our public stockholders with the opportunity to redeem their public shares for cash if we propose an amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete an initial business combination within 18 months of the closing of this offering or with respect to any other material provisions relating to stockholders' rights or pre-initial business combination activity. To the extent any of such amendments would be deemed to fundamentally change the nature of the securities offered through this registration statement, we would register, or seek an exemption from registration for, the affected securities. We cannot assure you that we will not seek to amend our charter or governing instruments or extend the time to consummate an initial business combination in order to effectuate our initial business combination.

The provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of 65% of our common stock, which is a lower amendment threshold than that of some other special purpose acquisition companies. It may be easier for us, therefore, to amend our amended and restated certificate of incorporation to facilitate the completion of an initial business combination that some of our stockholders may not support.

Our amended and restated certificate of incorporation provides that any of its provisions related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the private placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public stockholders as described herein) may be amended if approved by holders of 65% of our common stock entitled to vote thereon and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of 65% of our common stock entitled to vote thereon. If we amend such provisions of our amended and restated certificate of incorporation, we will provide our public stockholders with the opportunity to redeem their public shares in connection with a

stockholder meeting. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our outstanding common stock entitled to vote thereon, subject to applicable provisions of the DGCL or applicable stock exchange rules. Our initial stockholders, who will collectively beneficially own 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), may participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which govern our pre-business combination behavior more easily than some other special purpose acquisition companies, and this may increase our ability to complete a business combination with which you do not agree. Our stockholders may pursue remedies against us for any breach of our amended and restated certificate of incorporation.

Our sponsor, executive officers and directors have agreed, pursuant to written agreements with us, that they will not propose any amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares. Our stockholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, executive officers, or directors for any breach of these agreements. As a result, in the event of a breach, our stockholders would need to pursue a stockholder derivative action, subject to applicable law.

Certain agreements related to this offering may be amended without stockholder approval.

Each of the agreements related to this offering to which we are a party, other than the warrant agreement and the investment management trust agreement, may be amended without stockholder approval. Such agreements are: the underwriting agreement; the letter agreement among us and our initial stockholders, sponsor, officers and directors; the registration rights agreement among us and our initial stockholders; the private placement warrants purchase agreement between us and our sponsor; and the administrative services agreement among us, our sponsor and an affiliate of our sponsor. These agreements contain various provisions that our public stockholders might deem to be material. For example, our letter agreement and the underwriting agreement contain certain lock-up provisions with respect to the founder shares, private placement warrants and other securities held by our initial stockholders, sponsor, officers and directors. Amendments to such agreements would require the consent of the applicable parties thereto and would need to be approved by our board of directors, which may do so for a variety of reasons, including to facilitate our initial business combination. While we do not expect our board of directors to approve any amendment to any of these agreements prior to our initial business combination, it may be possible that our board of directors, in exercising its business judgment and subject to its fiduciary duties, chooses to approve one or more amendments to any such agreement. Any amendment entered into in connection with the consummation of our initial business combination will be disclosed in our proxy materials or tender offer documents, as applicable, related to such initial business combination, and any other material amendment to any of our material agreements will be disclosed in a filing with the SEC. Any such amendments would not require approval from our stockholders, may result in the completion of our initial business combination that may not otherwise have been possible, and may have an adverse effect on the value of an investment in our securities. For example, amendments to the lock-up provision discussed above may result in our initial stockholders selling their securities earlier than they would otherwise be permitted, which may have an adverse effect on the price of our securities.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.

We have not selected any specific business combination target but intend to target businesses with enterprise values that are greater than we could acquire with the net proceeds of this offering and the sale of the private placement warrants. As a result, if the cash portion of the purchase price exceeds the amount available from the trust account, net of amounts needed to satisfy any redemption by public stockholders, we may be required to seek additional financing to complete such proposed initial business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. Further, we may be required to obtain additional financing in connection with the closing of our initial business combination for general corporate purposes, including for maintenance or expansion of operations of the post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, or to fund the purchase of other companies. If we are unable to complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless. In addition, even if we do not need additional financing to complete our initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our initial business combination.

Our initial stockholders control a substantial interest in us and thus may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Upon closing of this offering, holders of our founder shares will own 20% of our issued and outstanding common stock (assuming they do not purchase any units in this offering). Accordingly, they may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation. If our initial stockholders purchase any units in this offering or if our initial stockholders purchase any additional Class A common stock in the aftermarket or in privately negotiated transactions, this would increase their control. Neither our initial stockholders nor, to our knowledge, any of our officers or directors, have any current intention to purchase additional securities, other than as disclosed in this prospectus. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A common stock. In addition, our board of directors, whose members were elected by our sponsor, is and will be divided into three classes, each of which will generally serve for a term for three years with only one class of directors being elected in each year. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our initial business combination, in which case all of the current directors will continue in office until at least the completion of the business combination. If there is an annual meeting, as a consequence of our “staggered” board of directors, only a minority of the board of directors will be considered for election and our initial stockholders, because of their ownership position, will have considerable influence regarding the outcome. Accordingly, our initial stockholders will continue to exert control at least until the completion of our initial business combination.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that the proxy statement with respect to the vote on an initial business combination include historical and pro forma financial statement disclosure. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America (“GAAP”), or international financial reporting standards as issued by the International Accounting Standards Board (“IFRS”), depending on the circumstances and the historical financial statements may be required to be audited in accordance with the

standards of the Public Company Accounting Oversight Board (United States) (“PCAOB”). These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing an initial business combination.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2022. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target business with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

As the number of special purpose acquisition companies evaluating targets increases, attractive targets may become scarcer and there may be more competition for attractive targets. This could increase the cost of our initial business combination and could even result in our inability to find a target or to consummate an initial business combination.

In recent years, the number of special purpose acquisition companies that have been formed has increased substantially. Many potential targets for special purpose acquisition companies have already entered into an initial business combination, and there are still many special purpose acquisition companies preparing for an initial public offering, as well as many such companies currently in registration. As a result, at times, fewer attractive targets may be available to consummate an initial business combination.

In addition, because there are more special purpose acquisition companies seeking to enter into an initial business combination with available targets, the competition for available targets with attractive fundamentals or business models may increase, which could cause targets companies to demand improved financial terms. Attractive deals could also become scarcer for other reasons, such as economic or industry sector downturns, geopolitical tensions, or increases in the cost of additional capital needed to close business combinations or operate targets post business combination. This could increase the cost of, delay or otherwise complicate or frustrate our ability to find and consummate an initial business combination, and may result in our inability to consummate an initial business combination on terms favorable to our investors altogether.

Our initial business combination and our structure thereafter may not be tax-efficient to our stockholders and warrant holders. As a result of our business combination, our tax obligations may be more complex, burdensome and uncertain.

Although we will attempt to structure our initial business combination in a tax-efficient manner, tax structuring considerations are complex, the relevant facts and law are uncertain and may change, and we may prioritize commercial and other considerations over tax considerations. For example, in connection with our initial business combination and subject to any requisite stockholder approval, we may structure our business

combination in a manner that requires stockholders and/or warrant holders to recognize gain or income for tax purposes, effect a business combination with a target company in another jurisdiction, or reincorporate in a different jurisdiction (including, but not limited to, the jurisdiction in which the target company or business is located). We do not intend to make any cash distributions to stockholders or warrant holders to pay taxes in connection with our business combination or thereafter. Accordingly, a stockholder or a warrant holder may need to satisfy any liability resulting from our initial business combination with cash from its own funds or by selling all or a portion of the shares received. In addition, stockholders and warrant holders may also be subject to additional income, withholding or other taxes with respect to their ownership of us after our initial business combination.

In addition, we may effect a business combination with a target company that has business operations outside of the United States, and possibly, business operations in multiple jurisdictions. If we effect such a business combination, we could be subject to significant income, withholding and other tax obligations in a number of jurisdictions with respect to income, operations and subsidiaries related to those jurisdictions. Due to the complexity of tax obligations and filings in other jurisdictions, we may have a heightened risk related to audits or examinations by U.S. federal, state, local and non-U.S. taxing authorities. This additional complexity and risk could have an adverse effect on our after-tax profitability and financial condition.

Risks Relating to the Post-Business Combination Company

Subsequent to our completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and the price of our securities, which could cause you to lose some or all of your investment.

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will identify all material issues that may be present with a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining debt financing to partially finance the initial business combination or thereafter. Accordingly, any stockholders or warrant holders who choose to remain stockholders or warrant holders following the business combination could suffer a reduction in the value of their securities. Such stockholders or warrant holders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy materials or tender offer documents, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

Resources could be wasted in researching business combinations that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may only receive their pro rata portion of the funds in the trust account that are available for distribution to public stockholders, and our warrants will expire worthless.

We are dependent upon our executive officers and directors and their loss could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our officers and directors, at least until we have completed our initial business combination. In addition, our executive officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating their time among various business activities, including identifying potential business combinations and monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or executive officers. The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us.

Our ability to successfully effect our initial business combination and to be successful thereafter will be dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully effect our initial business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our initial business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we engage after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination, and a particular business combination may be conditioned on the retention or resignation of such key personnel. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with our company after the completion of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. Such negotiations also could make such key personnel's retention or resignation a condition to any such agreement. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business, subject to their fiduciary duties under Delaware law.

We may have a limited ability to assess the management of a prospective target business and, as a result, may effect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target business's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target business's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any stockholders or warrant holders who choose to remain stockholders or warrant holders following the business combination could suffer a reduction in the value of their securities. Such stockholders or warrant holders are unlikely to have a remedy for such reduction in value unless they are able to successfully claim that the reduction was due to the breach by our officers or directors of a duty of care or other fiduciary duty owed to them, or if they are able to successfully bring a private claim under securities laws that the proxy solicitation or tender offer materials, as applicable, relating to the business combination contained an actionable material misstatement or material omission.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The loss of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

Our management may not be able to maintain control of a target business after our initial business combination. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure our initial business combination so that the post-transaction company in which our public stockholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares of Class A common stock in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new shares of Class A common stock, our stockholders immediately prior to such transaction could own less than a majority of our outstanding Class A common stock subsequent to such transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's shares than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain control of the target business.

Risks Relating to Acquiring and Operating a Business in Foreign Countries

If we effect our initial business combination with a company located outside of the United States, we would be subject to a variety of additional risks that may adversely affect us.

If we pursue a target company with operations or opportunities outside of the United States for our initial business combination, we may face additional burdens in connection with investigating, agreeing to and completing such initial business combination, and if we effect such initial business combination, we would be subject to a variety of additional risks that may negatively impact our operations.

If we pursue a target a company with operations or opportunities outside of the United States for our initial business combination, we would be subject to risks associated with cross-border business combinations, including in connection with investigating, agreeing to and completing our initial business combination, conducting due diligence in a foreign jurisdiction, having such transaction approved by any local governments, regulators or agencies and changes in the purchase price based on fluctuations in foreign exchange rates.

If we effect our initial business combination with such a company, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- costs and difficulties inherent in managing cross-border business operations;
- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- exchange listing and/or delisting requirements;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- local or regional economic policies and market conditions;
- unexpected changes in regulatory requirements;
- challenges in managing and staffing international operations;
- longer payment cycles;
- tax issues, such as tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- challenges in collecting accounts receivable;
- cultural and language differences;
- employment regulations;
- underdeveloped or unpredictable legal or regulatory systems;
- corruption;
- protection of intellectual property;
- social unrest, crime, strikes, riots and civil disturbances;
- regime changes and political upheaval;
- terrorist attacks and wars; and
- deterioration of political relations with the United States.

We may not be able to adequately address these additional risks. If we were unable to do so, we may be unable to complete such initial business combination, or, if we complete such initial business combination, our operations might suffer, either of which may adversely impact our business, financial condition and results of operations.

Risks Relating to our Management Team

We may not have sufficient funds to satisfy indemnification claims of our directors and executive officers.

We have agreed to indemnify our officers and directors to the fullest extent permitted by law. However, our officers and directors have agreed to waive any right, title, interest or claim of any kind in or to any monies in the trust account and to not seek recourse against the trust account for any reason whatsoever. Accordingly, any indemnification provided will be able to be satisfied by us only if (i) we have sufficient funds outside of the trust account or (ii) we consummate an initial business combination. Our obligation to indemnify our officers and directors may discourage stockholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

Past performance by our management team and their affiliates may not be indicative of future performance of an investment in us.

Information regarding performance by, or businesses associated with, our management team or businesses associated with them is presented for informational purposes only. The past performance of our management team or their respective affiliates, including with respect to Fusion I and Fusion II, is not a guarantee of either: (i) success with respect to any business combination we may consummate; or (ii) that we will be able to identify a suitable candidate for our initial business combination. Other than Mr. Gary, no member of our management team has had management experience with special purpose acquisition corporations in the past. You should not rely on the historical record of our management team's or their respective affiliates' performance as indicative of any future performance.

We may seek business combination opportunities in industries or sectors that may be outside of our management's areas of expertise.

We will consider a business combination outside of our management's areas of expertise if a business combination candidate is presented to us and we determine that such candidate offers an attractive business combination opportunity for our company. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will not ultimately prove to be less favorable to investors in this offering than a direct investment, if an opportunity were available, in a business combination candidate. In the event we elect to pursue a business combination outside of the areas of our management's expertise, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained in this prospectus regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to ascertain or assess adequately all of the relevant risk factors. Accordingly, any stockholders who choose to remain stockholders following our initial business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

Our executive officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our executive officers is engaged in several other business endeavors for which he may be entitled to substantial compensation, and our executive officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as officers and board members for other entities. If our executive officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. For a complete discussion of our executive officers' and directors' other business affairs, please see "Management — Officers and Directors."

Our officers and directors presently have, and any of them in the future may have additional, fiduciary or contractual obligations to other entities and, accordingly, may have conflicts of interest in determining to which entity a particular business opportunity should be presented.

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Each of our officers and directors presently has, and any of them in the future may have, additional fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of the company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

In addition, our sponsor and our officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. Any such companies, businesses or investments may present additional conflicts of interest in pursuing an initial business combination.

In particular, Mr. Gary serves as Chief Financial Officer and Director of Fusion I, a special purpose acquisition company that completed its initial public offering in June 2020. Fusion I, like us, may pursue initial business combination targets in any businesses or industries and has until December 30, 2021, to do so (absent an extension in accordance with their charters). On February 11, 2021, Fusion I entered into an agreement and plan of merger with MoneyLion, pursuant to which, among other things, MoneyLion agreed to be acquired by Fusion I. Mr. Gary also serves as Chief Financial Officer and Director of Fusion II, a special purpose acquisition company that completed its initial public offering in March 2021. Fusion II, like us, may pursue initial business combination targets in any businesses or industries and has until March 2, 2023, to do so (absent an extension in accordance with their charters). Any such companies, including Fusion I and Fusion II, may present additional conflicts of interest in pursuing an acquisition target.

For a complete discussion of our executive officers' and directors' business affiliations and the potential conflicts of interest that you should be aware of, please see "Management — Officers and Directors," "Management — Conflicts of Interest" and "Certain Relationships and Related Party Transactions."

Our executive officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, executive officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is affiliated with our sponsor, our directors or executive officers, although we do not intend to do so. Nor do we have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

The personal and financial interests of our directors and officers may influence their motivation in timely identifying and selecting a target business and completing a business combination. Consequently, our directors' and officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular business combination are appropriate and in our stockholders' best interest. If this were the case, it would be a breach of their fiduciary duties to us as a matter of Delaware law and we or our stockholders might have a claim against such individuals for infringing on our stockholders' rights. However, we might not ultimately be successful in any claim we may make against them for such reason.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsor, executive officers, directors or existing holders which may raise potential conflicts of interest.

In light of the involvement of our sponsor, executive officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our sponsor, executive officers, directors or existing holders. Our directors also serve as officers and board members for other entities, including, without limitation, those described under "Management — Conflicts of Interest." Such entities may compete with us for business combination opportunities. Our sponsor, officers and directors are not currently aware of any specific opportunities for us to complete our initial business combination with any entities with which they are affiliated, and there have been no substantive discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for a business combination as set forth in "Proposed Business — Effecting our initial business combination — Selection of a target business and structuring of our initial business combination" and such transaction was approved by a majority of our independent and disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm which is a member of FINRA or a valuation or appraisal firm regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our sponsor, executive officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest.

Since our sponsor, executive officers and directors will lose their entire investment in us if our initial business combination is not completed (other than with respect to public shares they may acquire during or after this offering), a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

On May 5, 2021, our sponsor paid \$25,000 to cover certain of our offering costs in exchange for 6,181,250 founder shares, or approximately \$0.004 per share. On July 29, 2021, we effected a 1:1.1162791 stock split of our Class B common stock, resulting in our sponsor holding an aggregate of 6,900,000 founder shares. Prior to the initial investment in the company of \$25,000 by the sponsor, the company had no assets, tangible or intangible. The purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the number of founder shares issued.

The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 27,600,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Up to 900,000 of the founder shares will be forfeited depending on the extent to which the underwriters' over-allotment is exercised. The founder shares will be worthless if we do not complete an initial business combination. In addition, our sponsor has committed to purchase an aggregate of 7,500,000 private placement warrants, each exercisable for one share of Class A common stock at \$11.50 per share, for an aggregate purchase price of \$7,500,000, or \$1.00 per warrant, that will also be worthless if we do not complete our initial business combination. The personal and financial interests of our executive officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination. This risk may become more acute as the 18-month anniversary of the closing of this offering nears, which is the deadline for our completion of an initial business combination.

From time to time, we and members of our management team may be subject to legal proceedings, regulatory disputes, and governmental inquiries that could cause us to incur significant expenses, divert our management's attention, and materially harm our financial condition.

From time to time, we may be subject to claims, lawsuits, government investigations, and other proceedings involving competition and antitrust, securities, tax, commercial disputes, and other matters that could adversely affect our financial condition. Litigation and regulatory proceedings may be protracted and expensive, and the results are difficult to predict. Additionally, such litigation and regulatory proceedings require a great deal of financial resources and attention from us and our management team. Adverse outcomes with respect to litigation or any of these legal proceedings may result in significant settlement costs or judgments, or penalties and fines, and could negatively affect our ability to identify and complete an initial business combination and may have an adverse effect on the price of our securities.

Members of our management team have been involved in a wide variety of businesses. Such involvement has, and may lead to, media coverage and public awareness. As a result, members of our management team and the related companies may from time to time be involved in civil disputes or governmental investigations unrelated to our business. Any such claims or investigations may be detrimental to our reputation and could negatively affect our ability to identify and complete an initial business combination and may have an adverse effect on the price of our securities.

Risks Relating to our Securities

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. Therefore, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the trust account only upon the earlier to occur of: (i) our completion of an initial business combination, and then only in connection with those shares of Class A common stock that such stockholder properly elected to redeem, subject to the limitations described herein, (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders' rights or pre-initial business combination activity, and (iii) the redemption of our public shares if we are unable to complete an initial business combination within 18 months from the closing of this offering, subject to applicable law and as further described herein. In addition, if our plan to redeem our public shares if we are unable to complete an initial business combination within 18 months from the closing of this offering is not completed for

any reason, compliance with Delaware law may require that we submit a plan of dissolution to our then-existing stockholders for approval prior to the distribution of the proceeds held in our trust account. In that case, public stockholders may be forced to wait beyond 18 months from the closing of this offering before they receive funds from our trust account. In no other circumstances will a public stockholder have any right or interest of any kind in the trust account. Holders of warrants will not have any right to the proceeds held in the trust account with respect to the warrants. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

The NYSE may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

We have applied to list our units on the NYSE. We expect that our units will be listed on the NYSE on or promptly after the date of this prospectus and our Class A common stock and warrants on or promptly after their date of separation. Although after giving effect to this offering we expect to meet, on a pro forma basis, the minimum initial listing standards set forth in the NYSE's listing standards, we cannot assure you that our securities will be, or will continue to be, listed on the NYSE in the future or prior to our initial business combination. In order to continue listing our securities on the NYSE prior to our initial business combination, we must maintain certain financial, distribution and share price levels. Generally, we must maintain a minimum average global market capitalization and a minimum number of holders of our securities. Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with the NYSE's initial listing requirements, which are more rigorous than the NYSE's continued listing requirements, in order to continue to maintain the listing of our securities on the NYSE. For instance, our share price would generally be required to be at least \$4.00 per share, our global market capitalization would be required to be at least \$150 million, the aggregate market value of our publicly-held shares would be required to be at least \$40 million and we would be required to have a minimum of 400 round lot holders and 1,100,000 publicly held shares. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If the NYSE delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A common stock is a "penny stock" which will require brokers trading in our Class A common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because we expect that our units and eventually our Class A common stock and warrants will be listed on the NYSE, our units, Class A common stock and warrants will qualify as covered securities under the statute. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on the NYSE, our securities would not qualify as covered securities under the statute and we would be subject to regulation in each state in which we offer our securities.

You will not be permitted to exercise your warrants unless we register and qualify the underlying Class A common stock or certain exemptions are available.

If the issuance of the Class A common stock upon exercise of the warrants is not registered, qualified or exempt from registration or qualification under the Securities Act and applicable state securities laws, holders of warrants will not be entitled to exercise such warrants and such warrants may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the Class A common stock included in the units.

Under the terms of the warrant agreement, we have agreed that, as soon as practicable, but in no event later than 15 business days, after the closing of our initial business combination, we will use our best efforts to file with the SEC a post-effective amendment to the registration statement of which this prospectus forms a part or a new registration statement covering the registration under the Securities Act of the shares of Class A common stock issuable upon exercise of the warrants and thereafter will use our best efforts to cause the same to become effective within 60 business days following our initial business combination and to maintain a current prospectus relating to the shares of Class A common stock issuable upon exercise of the warrants until the expiration of the warrants in accordance with the provisions of the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order.

If the shares of Class A common stock issuable upon exercise of the warrants are not registered under the Securities Act, under the terms of the warrant agreement, holders of warrants who seek to exercise their warrants will not be permitted to do so for cash and, instead, will be required to do so on a cashless basis in accordance with Section 3(a)(9) of the Securities Act or another exemption.

In no event will warrants be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration or qualification is available.

If our shares of Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of “covered securities” under Section 18(b)(1) of the Securities Act, we may, at our option, not permit holders of warrants who seek to exercise their warrants to do so for cash and, instead, require them to do so on a cashless basis in accordance with Section 3(a)(9) of the Securities Act; in the event we so elect, we will not be required to file or maintain in effect a registration statement or register or qualify the shares underlying the warrants under applicable state securities laws, and in the event we do not so elect, we will use our best efforts to register or qualify the shares underlying the warrants under applicable state securities laws to the extent an exemption is not available.

In no event will we be required to net cash settle any warrant, or issue securities (other than upon a cashless exercise as described above) or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under the Securities Act or applicable state securities laws.

You may only be able to exercise your public warrants on a “cashless basis” under certain circumstances, and if you do so, you will receive fewer shares of Class A common stock from such exercise than if you were to exercise such warrants for cash.

The warrant agreement provides that in the following circumstances holders of warrants who seek to exercise their warrants will not be permitted to do for cash and will, instead, be required to do so on a cashless basis in accordance with Section 3(a)(9) of the Securities Act: (i) if the shares of Class A common stock issuable upon

exercise of the warrants are not registered under the Securities Act in accordance with the terms of the warrant agreement; (ii) if we have so elected and the shares of Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of “covered securities” under Section 18(b)(1) of the Securities Act; and (iii) if we have so elected and we call the public warrants for redemption. If you exercise your public warrants on a cashless basis, you would pay the warrant exercise price by surrendering the warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the excess of the “fair market value” of our shares of Class A common stock (as defined in the next sentence) over the exercise price of the warrants by (y) the fair market value. The “fair market value” is the average reported closing price of the shares of Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of exercise is received by the warrant agent or on which the notice of redemption is sent to the holders of warrants, as applicable. As a result, you would receive fewer shares of Class A common stock from such exercise than if you were to exercise such warrants for cash.

The grant of registration rights to our initial stockholders, the anchor investors and holders of our private placement warrants may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our shares of Class A common stock.

Pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our initial stockholders, the anchor investors, the underwriters and their permitted transferees can demand that we register the shares of Class A common stock into which founder shares are convertible, holders of our private placement warrants and their permitted transferees can demand that we register the private placement warrants and the Class A common stock issuable upon exercise of the private placement warrants and holders of warrants that may be issued upon conversion of working capital loans may demand that we register such warrants or the Class A common stock issuable upon conversion of such warrants. The registration rights will be exercisable with respect to the founder shares and the private placement warrants and the Class A common stock issuable upon exercise of such private placement warrants. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our Class A common stock that is expected when the shares of common stock owned by our initial stockholders, holders of our private placement warrants or holders of our working capital loans or their respective permitted transferees are registered.

We may issue additional shares of Class A common stock or shares of preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A common stock upon the conversion of the founder shares at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. Any such issuances would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation authorizes the issuance of up to 200,000,000 shares of Class A common stock, par value \$0.0001 per share, 20,000,000 shares of Class B common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. Immediately after this offering, there will be 176,000,000 and 14,000,000 (assuming in each case that the underwriters have not exercised their over-allotment option and the forfeiture of 900,000 shares of Class B common stock) authorized but unissued shares of Class A common stock and Class B common stock, respectively, available for issuance which amount does not take into account shares reserved for issuance upon exercise of outstanding warrants or shares issuable upon conversion of the Class B common stock. The Class B common stock is automatically convertible into Class A common stock concurrently with or immediately following the consummation of our

initial business combination, initially at a one-for-one ratio but subject to adjustment as set forth herein and in our amended and restated certificate of incorporation. Immediately after this offering, there will be no shares of preferred stock issued and outstanding.

We may issue a substantial number of additional shares of Class A common stock or shares of preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A common stock upon conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions as set forth therein. However, our amended and restated certificate of incorporation provides, among other things, that prior to our initial business combination, we may not issue additional shares that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote as a class with our public shares (a) on any initial business combination or (b) to approve an amendment to our amended and restated certificate of incorporation to (x) extend the time we have to consummate a business combination beyond 18 months from the closing of this offering or (y) amend the foregoing provisions. These provisions of our amended and restated certificate of incorporation, like all provisions of our amended and restated certificate of incorporation, may be amended with a stockholder vote. The issuance of additional shares of common stock or shares of preferred stock:

- may significantly dilute the equity interest of investors in this offering;
- may subordinate the rights of holders of Class A common stock if shares of preferred stock are issued with rights senior to those afforded our Class A common stock;
- could cause a change in control if a substantial number of shares of Class A common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our units, Class A common stock and/or warrants.

Unlike some other similarly structured special purpose acquisition companies, our initial stockholders will receive additional shares of Class A common stock if we issue certain shares to consummate an initial business combination.

The founder shares will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of our initial business combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock or equity-linked securities are issued or deemed issued in connection with our initial business combination, the number of shares of Class A common stock issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the total number of shares of Class A common stock outstanding after such conversion (after giving effect to any redemptions of shares of Class A common stock by public stockholders), including the total number of shares of Class A common stock issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the company in connection with or in relation to the consummation of the initial business combination, excluding any shares of Class A common stock or equity-linked securities or rights exercisable for or convertible into shares of Class A common stock issued, or to be issued, to any seller in the initial business combination and any private placement warrants issued to our sponsor, officers or directors upon conversion of working capital loans, provided that such conversion of founder shares will never occur on a less than one-for-one basis. This is different than some other similarly structured special purpose acquisition companies in which the initial stockholders will only be issued an aggregate of 20% of the total number of shares to be outstanding prior to our initial business combination.

Our sponsor paid an aggregate of \$25,000 to cover certain of our offering costs in exchange for 6,900,000 founder shares, or approximately \$0.0036 per founder share and, accordingly, you will experience immediate and substantial dilution from the purchase of our shares of Class A common stock.

The difference between the public offering price per share (allocating all of the unit purchase price to the share of Class A common stock and none to the warrant included in the unit) and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to you and the other investors in this offering. Our initial stockholders acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public stockholders will incur an immediate and substantial dilution of approximately 94.6% or \$9.46 per share, assuming no exercise of the underwriters' over-allotment option), the difference between the pro forma net tangible book value per share after this offering of \$0.54 and the initial offering price of \$10.00 per unit. This dilution would increase to the extent that the anti-dilution provisions of the founder shares result in the issuance of shares of Class A common stock on a greater than one-to-one basis upon conversion of the founder shares at the time of our initial business combination and would become exacerbated to the extent that public stockholders seek redemptions from the trust for their public shares. In addition, because of the anti-dilution protection in the founder shares, any equity or equity-linked securities issued in connection with our initial business combination would be disproportionately dilutive to our Class A common stock.

We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least 50% of the then outstanding public warrants. As a result, the exercise price of your warrants could be increased, the exercise period could be shortened and the number of shares of Class A common stock purchasable upon exercise of a warrant could be decreased, all without your approval.

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder if holders of at least 50% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the public warrants with the consent of at least 50% of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash or stock (at a ratio different than initially provided), shorten the exercise period or decrease the number of shares of Class A common stock purchasable upon exercise of a warrant.

Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company.

Our warrant agreement will provide that, subject to applicable law: (i) any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement, including under the Securities Act, will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and (ii) that we irrevocably submit to such jurisdiction, which jurisdiction shall be the exclusive forum for any such action, proceeding or claim. The warrant agreement will also provide that we will waive any objection to such exclusive jurisdiction or that such courts represent an inconvenient forum.

Notwithstanding the foregoing, these provisions of the warrant agreement will not apply to suits brought to enforce any liability or duty created by the Exchange Act or any other claim for which the federal district courts of the United States of America are the sole and exclusive forum. Any person or entity purchasing or otherwise acquiring any interest in any of our warrants shall be deemed to have notice of and to have consented to the forum provisions in our warrant agreement. If any action, the subject matter of which is within the scope the forum provisions of the warrant agreement, is filed in a court other than a court of the State of New York or the United States District Court for the Southern District of New York (a "foreign action") in the name of any holder

of our warrants, such holder shall be deemed to have consented to: (x) the personal jurisdiction of the state and federal courts located in the State of New York in connection with any action brought in any such court to enforce the forum provisions (an “enforcement action”) and (y) having service of process made upon such warrant holder in any such enforcement action by service upon such warrant holder’s counsel in the foreign action as agent for such warrant holder.

This choice-of-forum provision may limit a warrant holder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with our company, which may discourage such lawsuits. Alternatively, if a court were to find this provision of our warrant agreement inapplicable or unenforceable with respect to one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could materially and adversely affect our business, financial condition and results of operations and result in a diversion of the time and resources of our management and board of directors.

Certain of our warrants are expected to be accounted for as a warrant liability and will be recorded at fair value upon issuance with changes in fair value each period reported in earnings, which may have an adverse effect on the market price of our common stock or may make it more difficult for us to consummate an initial business combination.

Following the consummation of this offering, we will account for the 20,700,000 warrants to be issued in connection with this offering (including 12,000,000 warrants sold as part of the units in this offering and the 8,700,000 private placement warrants, assuming the underwriters’ over-allotment option is not exercised) in accordance with the guidance contained in Derivatives and Hedging — Contracts in Entity’s Own Equity (ASC 815-40). Such guidance provides that because the warrants do not meet the criteria for equity treatment thereunder, each warrant must be recorded as a liability. Accordingly, we will classify each warrant as a liability at its fair value. This liability is subject to re-measurement at each balance sheet date. With each such re-measurement, the warrant liability will be adjusted to fair value, with the change in fair value recognized in our statement of operations and therefore our reported earnings. The impact of changes in fair value on earnings may have an adverse effect on the market price of our common stock. In addition, potential targets may seek a special purpose acquisition company that does not have warrants that are accounted for as a warrant liability, which may make it more difficult for us to consummate an initial business combination with a target business.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, provided that the closing price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities for capital raising purposes in connection with the closing of our initial business combination as described elsewhere in this prospectus) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to proper notice of such redemption provided that on the date we give notice of redemption. We will not redeem the warrants unless an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the warrants is effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding warrants could force you to (i) exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants. None of the private placement warrants will be redeemable by us so long as they are held by their initial purchasers or their permitted transferees.

Our warrants may have an adverse effect on the market price of our shares of Class A common stock and make it more difficult to effectuate our initial business combination.

We will be issuing warrants to purchase 12,000,000 shares of our Class A common stock (or up to 13,800,000 shares of Class A common stock if the underwriters' over-allotment option is exercised in full) as part of the units offered by this prospectus and, simultaneously with the closing of this offering, we will be issuing in a private placement an aggregate of 8,700,000 private placement warrants, each exercisable to purchase one share of Class A common stock at \$11.50 per share. In addition, if our sponsor or an affiliate of our sponsor or certain of our officers and directors makes any working capital loans, such lender may convert those loans into up to an additional 1,500,000 private placement warrants, at the price of \$1.00 per warrant. To the extent we issue common stock to effectuate a business transaction, the potential for the issuance of a substantial number of additional shares of Class A common stock upon exercise of these warrants could make us a less attractive acquisition vehicle to a target business. Such warrants, when exercised, will increase the number of issued and outstanding shares of Class A common stock and reduce the value of the Class A common stock issued to complete the business transaction. Therefore, our warrants may make it more difficult to effectuate a business transaction or increase the cost of acquiring the target business.

Because each unit contains one-half of one warrant and only a whole warrant may be exercised, the units may be worth less than units of other special purpose acquisition companies.

Each unit contains one-half of one warrant. Pursuant to the warrant agreement, no fractional warrants will be issued upon separation of the units, and only whole units will trade. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of shares of Class A common stock to be issued to the warrant holder. This is different from other offerings similar to ours whose units include one common share and one warrant to purchase one whole share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable in the aggregate for one-half of the number of shares compared to units that each contain a whole warrant to purchase one share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if it included a warrant to purchase one whole share.

The determination of the offering price of our units, the size of this offering and terms of the units is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with representatives of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the Class A common stock and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business at attractive values;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering size, price and terms of the units is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

There is currently no market for our securities. Stockholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

The nominal purchase price paid by our sponsor for the founder shares may result in significant dilution to the implied value of your public shares upon the consummation of our initial business combination.

We are offering our units at an offering price of \$10.00 per unit and the amount in our trust account is initially anticipated to be \$10.05 per public share, implying an initial value of \$10.05 per public share. However, prior to this offering, our sponsor paid a nominal aggregate purchase price of \$25,000 for the founder shares, or approximately \$0.004 per share. On July 29, 2021, we effected a 1:1.1162791 stock split of our Class B common stock, resulting in our sponsor holding an aggregate of 6,900,000 founder shares. As a result, the value of your public shares may be significantly diluted upon the consummation of our initial business combination, when the founder shares are converted into public shares. For example, the following table shows the dilutive effect of the founder shares on the implied value of the public shares upon the consummation of our initial business combination, assuming that our equity value at that time is \$229,200,000, which is the amount we would have for our initial business combination in the trust account after payment of \$12,000,000 of deferred underwriting commissions, assuming the underwriters' over-allotment option is not exercised, no interest is earned on the funds held in the trust account, and no public shares are redeemed in connection with our initial business combination, and without taking into account any other potential impacts on our valuation at such time, such as the trading price of our public shares, the business combination transaction costs, any equity issued or cash paid to the target's sellers or other third parties, or the target's business itself, including its assets, liabilities, management and prospects, as well as the value of our public and private warrants. At such valuation, each of our shares of common stock would have an implied value of \$7.68 per share upon consummation of our initial business combination, which would be a 24.2% decrease as compared to the initial implied value per public share of \$10.00 (the price per unit in this offering, assuming no value to the public warrants).

Public shares	24,000,000
Founder shares	6,000,000
Total shares	30,000,000
Total funds in trust available for initial business combination (less deferred underwriting commissions)	\$ 229,200,000
Initial implied value per public share	\$ 10.05
Implied value per share upon consummation of initial business combination	\$ 7.64

The value of the founder shares following completion of our initial business combination is likely to be substantially higher than the nominal price paid for them, even if the trading price of our common stock at such time is substantially less than \$10.00 per share.

Upon the closing of this offering, assuming no exercise of the underwriters' over-allotment option, our sponsor will have invested in us an aggregate of \$7,525,000, comprised of the \$25,000 purchase price for the founder shares and the \$7,500,000 purchase price for the private placement warrants. Assuming a trading price of \$10.00

per share upon consummation of our initial business combination, the 6,000,000 founder shares would have an aggregate implied value of \$46,080,000. Even if the trading price of our common stock was as low as approximately \$1.25 per share, and the private placement warrants were worthless, the value of the founder shares would be equal to the sponsor's initial investment in us. As a result, our sponsor is likely to be able to recoup its investment in us and make a substantial profit on that investment, even if our public shares have lost significant value. Accordingly, our management team, which owns interests in our sponsor, may have an economic incentive that differs from that of the public shareholders to pursue and consummate an initial business combination rather than to liquidate and to return all of the cash in the trust to the public shareholders, even if that business combination were with a riskier or less-established target business. For the foregoing reasons, you should consider our management team's financial incentive to complete an initial business combination when evaluating whether to redeem your shares prior to or in connection with the initial business combination.

General Risk Factors

We are an emerging growth company and a smaller reporting company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies or smaller reporting companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an "emerging growth company" within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor internal controls attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our Class A common stock held by non-affiliates exceeds \$700 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Additionally, we are a "smaller reporting company" as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company

until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates exceeds \$250 million as of the prior June 30th, and (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the prior June 30th. To the extent we take advantage of such reduced disclosure obligations, it may also make comparison of our financial statements with other public companies difficult or impossible.

Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our shares of Class A common stock and could entrench management.

Our amended and restated certificate of incorporation contains provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include a staggered board of directors and the ability of the board of directors to designate the terms of and issue new series of preferred stock, which may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Provisions in our amended and restated certificate of incorporation and Delaware law may have the effect of discouraging lawsuits against our directors and officers.

Our amended and restated certificate of incorporation will require, unless we consent in writing to the selection of an alternative forum, that (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or other employee to us or our stockholders, (iii) any action asserting a claim against us, our directors, officers or employees arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or bylaws, or (iv) any action asserting a claim against us, our directors, officers or employees governed by the internal affairs doctrine may be brought only in the Court of Chancery in the State of Delaware, except any claim (A) as to which the Court of Chancery of the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery or (C) for which the Court of Chancery does not have subject matter jurisdiction. If an action is brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel.

Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, a court may determine that this provision is unenforceable, and to the extent it is enforceable, the provision may have the effect of discouraging lawsuits against our directors and officers, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder.

Notwithstanding the foregoing, our amended and restated certificate of incorporation will provide that the exclusive forum provision will not apply to suits brought to enforce a duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. Additionally, unless we consent in writing to the selection of an alternative forum, the federal courts shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act against us or any of our directors, officers, other employees or agents. Any person or entity purchasing or otherwise acquiring any interest in our securities shall be deemed to have notice of and consented to these provisions. We note, however, that there is uncertainty as to

whether a court would enforce these exclusive forum provisions and that investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder. Section 22 of the Securities Act creates concurrent jurisdiction for state and federal courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may limit our stockholders' ability to obtain a favorable judicial forum for disputes with us and may have the effect of discouraging lawsuits against our directors and officers.

An investment in this offering may result in adverse U.S. federal income tax consequences.

An investment in this offering may result in uncertain U.S. federal income tax consequences. For instance, because there are no authorities that directly address instruments similar to the units we are issuing in this offering, the allocation an investor makes with respect to the purchase price of a unit between the share of Class A common stock and the one-half of one redeemable warrant to purchase one share of our Class A common stock included in each unit could be challenged by the U.S. Internal Revenue Service (the "IRS") or the courts. Furthermore, the U.S. federal income tax consequences of a cashless exercise of warrants included in the units we are issuing in this offering is unclear under current law, and the adjustment to the exercise price and/or redemption price of the warrants could give rise to dividend income to investors without a corresponding payment of cash. In addition, it is unclear whether the redemption rights with respect to our shares of Class A common stock suspend the running of a U.S. Holder's holding period for purposes of determining whether any gain or loss realized by such holder on the sale or exchange of Class A common stock is long-term capital gain or loss and for determining whether any dividend we pay would be considered "qualified dividend income" for U.S. federal income tax purposes. Furthermore, if we are determined to be a personal holding company for U.S. federal income tax purposes in a given taxable year, certain portions of our taxable income in such taxable year would be subject to an additional 20% tax, which would reduce the net after-tax amount of interest income earned on the funds placed in our trust account. We would generally be classified as a personal holding company for U.S. federal income tax purposes in a given taxable year if (1) at any time during the last half of such taxable year, five or fewer individuals (including certain entities such as certain tax exempt organizations, pension funds, and charitable trusts) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of our stock by value and (2) at least 60% of our income for U.S. federal income tax purposes for such taxable year consists of personal holding company income, which includes interest income. See the section titled "U.S. Federal Income Tax Considerations" for a summary of certain U.S. federal income tax considerations generally applicable to an investment in our securities. Prospective investors are urged to consult their tax advisors with respect to these and other tax considerations applicable to their specific circumstances when purchasing, holding or disposing of our securities.

Cyber incidents or attacks directed at us could result in information theft, data corruption, operational disruption and/or financial loss.

We depend on digital technologies, including information systems, infrastructure and cloud applications and services, including those of third parties with which we may deal. Sophisticated and deliberate attacks on, or security breaches in, our systems or infrastructure, or the systems or infrastructure of third parties or the cloud, could lead to corruption or misappropriation of our assets, proprietary information and sensitive or confidential data. As an early stage company without significant investments in data security protection, we may not be sufficiently protected against such occurrences. We may not have sufficient resources to adequately protect against, or to investigate and remediate any vulnerability to, cyber incidents. It is possible that any of these occurrences, or a combination of them, could have adverse consequences on our business and lead to financial loss.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements contained in this prospectus may constitute “forward-looking statements” for purposes of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management team’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intends,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial business combination;
- our expectations around the performance of the prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- the ability of our officers and directors to generate a number of potential business combination opportunities;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
- the trust account not being subject to claims of third parties; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading “Risk Factors”. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

USE OF PROCEEDS

We are offering 24,000,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering together with the funds we will receive from the sale of the private placement warrants will be used as set forth in the following table.

	Without Over- allotment Option	Over-allotment Option Exercised
<i>Gross proceeds</i>		
Gross proceeds from units offered to public ⁽¹⁾	\$ 240,000,000	\$ 276,000,000
Gross proceeds from private placement warrants offered in the private placement	8,700,000	8,700,000
Total gross proceeds	<u>\$ 248,700,000</u>	<u>\$ 284,700,000</u>
<i>Estimated offering expenses⁽²⁾</i>		
Underwriting commissions (2.0% of gross proceeds from units offered to public, excluding deferred portion) ⁽³⁾	\$ 4,800,000	\$ 4,800,000
Legal fees and expenses	300,000	300,000
Printing and engraving expenses	30,000	30,000
Accounting fees and expenses	100,000	100,000
SEC Fees	47,427	47,427
FINRA Expenses	65,705	65,705
Travel and road show	10,000	10,000
NYSE listing and filing fees	85,000	85,000
Miscellaneous	61,868	61,868
Total offering expenses (other than underwriting commissions)	<u>\$ 700,000</u>	<u>\$ 700,000</u>
Proceeds after estimated offering expenses	<u>\$ 243,200,000</u>	<u>\$ 279,200,000</u>
Held in trust account ⁽³⁾	<u>\$ 241,200,000</u>	<u>\$ 277,380,000</u>
% of public offering size	100.5%	100.5%
Not held in trust account	<u>\$ 2,000,000</u>	<u>\$ 1,820,000</u>

The following table shows the use of the approximately \$2,000,000 of net proceeds not held in the trust account^{(4),(5)}.

	Amount	% of Total
Legal, accounting, due diligence, travel, and other expenses in connection with any business combination ⁽⁶⁾	\$ 295,000	14.7%
Legal and accounting fees related to regulatory reporting obligations	150,000	7.5%
Payment for office space, secretarial and administrative services	180,000	9.0%
Continued NYSE listing fees	85,000	4.3%
Directors and officers insurance	950,000	47.5%
Consulting, travel and miscellaneous expenses incurred during search for initial business combination target	70,000	3.5%
Working capital to cover miscellaneous expenses (including payment to members of our management team for services rendered)	<u>270,000</u>	<u>13.5%</u>
Total	<u><u>\$2,000,000</u></u>	<u><u>100.0%</u></u>

- (1) Includes gross proceeds from this offering of \$240,000,000 (or \$276,000,000 if the underwriters' overallotment option is exercised in full) as well as amounts payable to public stockholders who properly redeem their shares in connection with our successful completion of our initial business combination.
- (2) A portion of the offering expenses have been paid from the proceeds of loans from our sponsor of up to \$300,000 as described in this prospectus. These loans will be repaid upon completion of this offering out of

the \$700,000 of offering proceeds that has been allocated for the payment of offering expenses other than underwriting commissions. In the event that offering expenses are more than as set forth in this table, they will be repaid using a portion of the \$2,000,000 of offering proceeds not held in the trust account and set aside for post-closing working capital expenses. In the event that offering expenses are less than set forth in this table, any such amounts will be used for post-closing working capital expenses.

- (3) The underwriters have agreed to defer underwriting commissions of 5.0% of the gross proceeds of the units sold in the base offering. Accordingly, upon and concurrently with the completion of our initial business combination, up to \$12,000,000, which constitutes the underwriters' deferred commissions on the base offering will be paid to the underwriters from the funds held in the trust account. In addition, if the underwriters' over-allotment option is exercised, \$0.70 per over-allotment option unit, or up to an additional \$2,520,000 in the aggregate, will be paid to the underwriters from the funds held in the trust account. See "Underwriting". The remaining funds, less amounts released to the trustee to pay redeeming stockholders, will be released to us and can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs or for general corporate purposes, including payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies or for working capital. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.
- (4) To the extent the over-allotment option is exercised, the amount not held in the trust account and set aside for post-closing working capital expenses would decrease. If the over-allotment option is exercised in full, such amount would be \$1,820,000.
- (5) These expenses are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring our initial business combination based upon the level of complexity of such business combination. In the event we identify a business combination target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses. The amount in the table above does not include interest available to us from the trust account. The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. We estimate the interest earned on the trust account will be approximately \$48,240 per year, assuming an interest rate of 0.02% per year; however, we can provide no assurances regarding this amount.
- (6) Includes estimated amounts that may also be used in connection with our initial business combination to fund a "no shop" provision and commitment fees for financing.

The rules of the NYSE provide that at least 90% of the gross proceeds from this offering and the sale of the private placement warrants be deposited in a trust account. Of the \$248,700,000 in gross proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, or \$284,700,000 if the underwriters' over-allotment option is exercised in full, \$241,200,000 (\$10.05 per unit), or \$277,380,000 if the underwriters' over-allotment option is exercised in full (\$10.00 per unit), will be deposited into a trust account with Continental Stock Transfer & Trust Company acting as trustee, after deducting \$4,800,000 in underwriting discounts and commissions payable upon the closing of this offering and an aggregate of \$2,700,000 to pay fees and expenses in connection with the closing of this offering and for working capital following this offering. The proceeds held in the trust account will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. We estimate the interest earned on the trust account will be \$48,240 per year, assuming an interest rate of 0.02% per year; however, we can provide no assurances regarding this amount.

We expect that the interest earned on the trust account will be sufficient to pay income taxes. We will not be permitted to withdraw any of the principal or interest held in the trust account, except for the withdrawal of interest to pay our taxes, until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares if we are unable to complete our initial business combination within 18 months from the closing of this offering, subject to applicable law, and (iii) the redemption of our public shares properly submitted in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated our initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders' rights or pre-initial business combination activity.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital. There is no limitation on our ability to raise funds through the issuance of equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop arrangements we may enter into following consummation of this offering. However, our amended and restated certificate of incorporation provides that, following this offering and prior to the consummation of our initial business combination, we will be prohibited from issuing additional securities that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote as a class with our public shares (a) on any initial business combination or (b) to approve an amendment to our amended and restated certificate of incorporation to (x) extend the time we have to consummate a business combination beyond 18 months from the closing of this offering or (y) amend the foregoing provisions.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective business combination, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of a business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating a business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsor, members of our management team or any of their affiliates, but such persons are not under any obligation to advance funds to, or invest in, us.

Subsequent to the closing of this offering, we will pay our sponsor \$10,000 per month for office space, secretarial and administrative services provided to members of our management team. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

We will also set aside up to, \$15,000 per month for services rendered to us by members of our management team, subject to approval by our board of directors, commencing on the date that our securities are first listed on the NYSE through the earlier of consummation of our initial business combination and our liquidation.

Prior to the closing of this offering, our sponsor has agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. These loans are non-interest bearing, unsecured and are due at the earlier of December 31, 2021 or the closing of this offering. The loan will be repaid upon the closing of this offering out of the \$700,000 of offering proceeds that has been allocated to the payment of offering expenses.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Except as set forth above, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

Up to 13 anchor investors have each expressed to us an interest in purchasing up to 2,376,000 units in this offering at the offering price of \$10.00 per unit, and such allocations will be determined by the underwriters.

Pursuant to such units, the anchor investors have not been granted any stockholder or other rights in addition to those afforded to our other public stockholders. Further, the anchor investors are not required to (i) hold any units, shares of Class A common stock or warrants they may purchase in this offering or thereafter for any amount of time, (ii) vote any shares of Class A common stock they may own at the applicable time in favor of our initial business combination or (iii) refrain from exercising their right to redeem their public shares at the time of our initial business combination. The anchor investors will have the same rights to the funds held in the trust account with respect to the shares of Class A common stock underlying the units they may purchase in this offering as the rights afforded to our other public stockholders.

There can be no assurance that the anchor investors will acquire any units in this offering, or as to the amount of such units the anchor investors will retain, if any, prior to or upon the consummation of our initial business combination. There is also no guarantee that all 13 anchor investors will participate in the offering. In the event that the anchor investors purchase all of the units that they have expressed an interest in purchasing in this offering, hold all such units until prior to consummation of our initial business combination and vote their public shares in favor of our initial business combination, in addition to the founder shares, no affirmative votes from other public stockholders would be required to approve our initial business combination. The anchor investors are not required to vote any of their public shares in favor of our initial business combination or for or against any other matter presented for a stockholder vote.

DIVIDEND POLICY

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

DILUTION

The difference between the public offering price per share of Class A common stock, assuming no value is attributed to the warrants included in the units we are offering pursuant to this prospectus or the private placement warrants, and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with the sale and exercise of warrants, including the private placement warrants, which would cause the actual dilution to the public stockholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of shares of Class A common stock which may be redeemed for cash), by the number of shares of outstanding Class A common stock.

At May 5, 2021, our net tangible book deficit was \$(12,118), or approximately \$(0.00) per share of common stock. After giving effect to the sale of 24,000,000 shares of Class A common stock included in the units we are offering by this prospectus (or 27,600,000 shares of Class A common stock if the underwriters' over-allotment option is exercised in full), the sale of the private placement warrants and the deduction of underwriting commissions and estimated expenses of this offering, our pro forma net tangible book value at May 5, 2021 would have been \$5,000,003 or \$0.54 per share (or \$5,000,009 or \$0.48 per share if the underwriters' over-allotment option is exercised in full), representing an immediate increase in net tangible book value (as decreased by the value of 20,820,945 shares of Class A common stock that may be redeemed for cash, or 24,005,422 shares of Class A common stock if the underwriters' over-allotment option is exercised in full) of \$0.54 per share (or \$0.48 if the underwriters' over-allotment option is exercised in full) to our initial stockholders as of the date of this prospectus and an immediate dilution to public stockholders from this offering of \$10.00 per share. Total dilution to public stockholders from this offering will be \$9.46 per share (or \$9.52 per share if the underwriters' over-allotment option is exercised in full).

The following table illustrates the dilution to the public stockholders on a per-share basis, assuming no value is attributed to the warrants included in the units or the private placement warrants:

	No exercise of over-allotment option	Exercise of over- allotment option in full
Public offering price	\$ 10.00	\$ 10.00
Net tangible book deficit before this offering	(0.00)	(0.00)
Increase attributable to public stockholders	0.54	0.48
Pro forma net tangible book value after this offering and the sale of the private placement warrants	0.54	0.48
Dilution to public stockholders	\$ 9.46	\$ 9.52
Percentage of dilution to public stockholders	94.6%	95.2%

For purposes of presentation, we have reduced our pro forma net tangible book value after this offering (assuming no exercise of the underwriters' over-allotment option) by \$209,250,497 because holders of up to approximately 86.8% of our public shares may redeem their shares for a pro rata share of the aggregate amount then on deposit in the trust account at a per share redemption price equal to the amount in the trust account as set forth in our tender offer or proxy materials (initially anticipated to be the aggregate amount held in trust two business days prior to the commencement of our tender offer or stockholders meeting, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes), divided by the number of shares of Class A common stock sold in this offering.

The following table sets forth information with respect to our initial stockholders and the public stockholders:

	Shares Purchased		Total Consideration		Average Price
	Number	Percentage	Amount	Percentage	per Share
Initial Stockholders ⁽¹⁾	6,000,000	20.00%	\$ 25,000	0.01%	\$ 0.004
Public Stockholders	24,000,000	80.00	240,000,000	99.99	\$ 10.00
	<u>30,000,000</u>	<u>100.0%</u>	<u>\$240,025,000</u>	<u>100.0%</u>	

- (1) Assumes that 900,000 founder shares are forfeited after the closing of this offering in the event the underwriters do not exercise their over-allotment option.

The pro forma net tangible book value per share after the offering is calculated as follows:

	Without Over- allotment	With Over- allotment
Numerator:		
Net tangible book deficit before this offering	\$ (12,118)	\$ (12,118)
Net proceeds from this offering and sale of the private placement warrants ⁽¹⁾	243,200,000	279,200,000
Plus: Offering costs accrued for or paid in advance, excluded from tangible book value before this offering	36,618	36,618
Less: Deferred underwriting commissions	(12,000,000)	(14,520,000)
Less: Derivative warrant liabilities	(16,974,000)	(18,450,000)
Less: Proceeds held in trust subject to redemption ⁽²⁾	(209,250,497)	(241,254,491)
	<u>\$ 5,000,003</u>	<u>\$ 5,000,009</u>
Denominator:		
Class B common stock outstanding prior to this offering	6,900,000	6,900,000
Class B common stock forfeited if over-allotment is not exercised	(900,000)	—
Class A common stock included in the units offered	24,000,000	27,600,000
Less: Shares subject to redemption	(20,820,945)	(24,005,422)
	<u>9,179,055</u>	<u>10,494,578</u>

- (1) Expenses applied against gross proceeds include offering expenses of \$700,000 and underwriting commissions of \$4,800,000 (excluding deferred underwriting fees). See “Use of Proceeds.”
- (2) If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial stockholders, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. In the event of any such purchases of our shares prior to the completion of our initial business combination, the number of shares of Class A common stock subject to redemption will be reduced by the amount of any such purchases, increasing the pro forma net tangible book value per share. See “Proposed Business — Effecting Our Initial Business Combination — Permitted Purchases of Our Securities.”

CAPITALIZATION

The following table sets forth our capitalization at May 5, 2021, and as adjusted to give effect to the filing of our amended and restated certificate of incorporation, the sale of our units in this offering and the sale of the private placement warrants and the application of the estimated net proceeds derived from the sale of such securities, assuming no exercise by the underwriters of their over-allotment option:

	May 5, 2021	
	Actual	As Adjusted
Note payable to related party ⁽¹⁾	\$ —	\$ —
Deferred underwriting commissions	—	12,000,000
Derivative warrant liabilities ⁽²⁾	—	16,974,000
Class A common stock subject to possible redemption; -0- and 20,820,945 shares, actual and as adjusted, respectively ⁽³⁾	—	209,250,497
Preferred stock, \$0.0001 par value, 1,000,000 shares authorized; none issued and outstanding, actual and as adjusted	—	—

- (1) Our sponsor may loan us up to \$300,000 under an unsecured promissory note to be used for a portion of the expenses of this offering. The “as adjusted” information gives effect to the repayment of any loans made under this note out of the proceeds from this offering and the sale of the private placement warrants. To date, we have not borrowed any amounts under the promissory note.
- (2) We will account for the 20,700,000 warrants to be issued in connection with this offering and concurrent private placement (the 12,000,000 warrants included in the units and the 8,700,000 private placement warrants, assuming the underwriters’ over-allotment option is not exercised) in accordance with the guidance contained in ASC 815-40. Such guidance provides that because the warrants do not meet the criteria for equity treatment thereunder, each warrant must be recorded as a liability. Accordingly, we will classify each warrant as a liability at its fair value. This liability is subject to re-measurement at each balance sheet date. With each such re-measurement, the warrant liability will be adjusted to fair value, with the change in fair value recognized in our statement of operations.
- (3) Upon the completion of our initial business combination, we will provide our public stockholders with the opportunity to redeem their public shares for cash at a per share price equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations described herein whereby redemptions cannot cause our net tangible assets to be less than \$5,000,001.
- (4) Actual share amount is prior to any forfeiture of founder shares and as adjusted amount assumes no exercise of the underwriters’ over-allotment option and forfeiture of an aggregate of 900,000 founder shares.
- (5) As adjusted accumulated deficit includes transaction costs allocated to derivative warrant liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a blank check company incorporated on April 20, 2021 as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions directly or indirectly, with any business combination target with respect to an initial business combination with us. While we may pursue an acquisition in any business industry or sector, we intend to concentrate our efforts identifying businesses in the FinTech or financial services industry with an enterprise value of approximately \$750 million to \$1.5 billion, with particular emphasis on businesses that are providing or changing technology for traditional financial services ("FinTech"), those in the wealth, investment, asset management and insurance sectors, or certain types of technology companies that provide services to the FinTech or financial services companies. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, the proceeds of the sale of our shares in connection with our initial business combination (pursuant to forward purchase agreements or backstop agreements we may enter into following the consummation of this offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing.

The issuance of additional shares in connection with a business combination to the owners of the target or other investors:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B common stock resulted in the issuance of Class A common stock on a greater than one-to-one basis upon conversion of the Class B common stock;
- may subordinate the rights of holders of Class A common stock if shares of preferred stock are issued with rights senior to those afforded our Class A common stock;
- could cause a change in control if a substantial number of shares of our Class A common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our Class A common stock and/or warrants.

Similarly, if we issue debt securities or otherwise incur significant debt to bank or other lenders or the owners of a target, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt is outstanding;
- our inability to pay dividends on our Class A common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our Class A common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;

- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, at May 5, 2021, we had deferred offering costs of approximately \$37,000. Further, we expect to incur significant costs in the pursuit of our initial business combination. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds of this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

Our liquidity needs have been satisfied prior to the completion of this offering through the payment by our sponsor of \$25,000 to cover certain of our offering costs in exchange for the issuance of the founder shares to our sponsor and up to \$300,000 in loans available from our sponsor.

We estimate that the net proceeds from the sale of the units in this offering and the sale of the private placement warrants for an aggregate purchase price of \$8,700,000, after deducting offering expenses of approximately \$700,000 and underwriting commissions of \$4,800,000 (excluding deferred underwriting commissions of \$12,000,000, or \$14,520,000 if the underwriters' over-allotment option is exercised in full), will be \$243,200,000 (or \$279,200,000 if the underwriters' over-allotment option is exercised in full). \$241,200,000 (or \$277,380,000 if the underwriters' over-allotment option is exercised in full) will be held in the trust account, which includes the deferred underwriting commissions described above. The proceeds held in the trust account will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. The remaining approximately \$2,000,000 will not be held in the trust account. To the extent the over-allotment option is exercised, the amount not held in the trust account and set aside for post-closing working capital expenses would decrease. If the over-allotment option is exercised in full, such amount would be \$1,820,000. In the event that our offering expenses exceed our estimate of \$700,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$700,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (excluding deferred underwriting commissions) to complete our initial business combination. We may withdraw interest to pay our taxes. We estimate our annual franchise tax obligations, based on the number of shares of our common stock authorized and outstanding after the completion

of this offering, to be \$200,000, which is the maximum amount of annual franchise taxes payable by us as a Delaware corporation per annum, which we may pay from funds from this offering held outside of the trust account or from interest earned on the funds held in the trust account and released to us for this purpose. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. We expect the interest earned on the amount in the trust account will be sufficient to pay our income taxes. To the extent that our equity or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Prior to the completion of our initial business combination, we will have available to us the approximately \$2,000,000 of proceeds held outside the trust account. We will use these funds to primarily identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a business combination.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business prior to our initial business combination. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We expect our primary liquidity requirements during that period to include approximately \$295,000 for legal, accounting, due diligence, travel and other expenses associated with structuring, negotiating and documenting successful business combinations; \$150,000 for legal and accounting fees related to regulatory reporting requirements; \$85,000 for continued NYSE listing fees; \$950,000 for directors and officers insurance; \$70,000 for consulting, travel and miscellaneous expenses incurred during the search for a business combination target; and approximately \$270,000 for general working capital that will be used for miscellaneous expenses and reserves. We will also pay our sponsor \$10,000 per month for office space, secretarial and administrative services provided to members of our management team subsequent to the closing of this offering.

These amounts are estimates and may differ materially from our actual expenses. In addition, we could use a portion of the funds not being placed in trust to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a “no-shop” provision (a provision designed to keep target businesses from “shopping” around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business, the amount that would be used as a down payment or to fund a “no-shop” provision would be determined based on the terms of the specific business combination and the amount of our available funds at the time. Our forfeiture of such funds (whether as a result of our breach or

otherwise) could result in our not having sufficient funds to continue searching for, or conducting due diligence with respect to, prospective target businesses.

Moreover, we may need to obtain additional financing to complete our initial business combination, either because the transaction requires more cash than is available from the proceeds held in our trust account or because we become obligated to redeem a significant number of our public shares upon completion of the business combination, in which case we may issue additional securities or incur debt in connection with such business combination. In addition, we intend to target businesses with enterprise values that are greater than we could acquire with the net proceeds of this offering and the sale of the private placement units, and, as a result, if the cash portion of the purchase price exceeds the amount available from the trust account, net of amounts needed to satisfy any redemptions by public stockholders, we may be required to seek additional financing to complete such proposed initial business combination. We may also obtain financing prior to the closing of our initial business combination to fund our working capital needs and transaction costs in connection with our search for and completion of our initial business combination. There is no limitation on our ability to raise funds through the issuance of equity or equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop agreements we may enter into following consummation of this offering. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. In addition, following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2022. Only in the event that we are deemed to be a large accelerated filer or an accelerated filer and no longer an emerging growth company would we be required to comply with the independent registered public accounting firm attestation requirement. Further, for as long as we remain an emerging growth company as defined in the JOBS Act, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor has our independent registered public accounting firm tested our systems, of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expenses in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent registered public accounting firm to audit and render an opinion on such report when required by Section 404 of the Sarbanes-Oxley Act. The independent registered public accounting firm may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering and the sale of the private placement warrants held in the trust account will be invested in U.S. government treasury obligations with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of May 5, 2021, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus as we have not conducted any operations to date.

JOBS Act

The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an "emerging growth company" and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an "emerging growth company," we choose to rely on such exemptions we may not be required to, among other things, (i) provide an independent registered public accounting firm's attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the independent registered public accounting firm's report providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of this offering or until we are no longer an "emerging growth company," whichever is earlier.

PROPOSED BUSINESS

General

We are a newly organized blank check company formed as a Delaware corporation for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. Throughout this prospectus we will refer to this as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target with respect to an initial business combination with us.

While we may pursue an acquisition in any business industry or sector, we intend to concentrate our efforts identifying businesses in the FinTech or financial services industry with an enterprise value of approximately \$750 million to \$1.5 billion, with particular emphasis on businesses that are providing or changing technology for traditional financial services (“FinTech”), those in the wealth, investment, asset management and insurance sectors, or certain types of technology companies that provide services to the FinTech or financial services companies. Such companies might include those providing artificial intelligence, blockchain, data and analytics, tech-enabled services, risk/compliance/KYC/AML solutions, including those focused on financial, regulatory, fraud and cybersecurity risk, and/or enterprise software solutions, among others. In addition, we intend to capitalize on the ability of our management team to identify and acquire a business in the Fintech or financial services industries that can benefit from our experience and differentiated global network.

Business Strategy

Our business strategy is to identify and complete a business combination that creates long-term value for our shareholders. Our investment team is well positioned to successfully identify attractive opportunities with growth-stage FinTech and related technology companies, as well as with Wealth or Investment management firms. With our prior investment experience and extensive networks, we are confident that we can successfully execute an initial business combination.

We believe that applying Insight’s approach to investing, and leveraging Insight’s network, resources and expertise, will help our management team execute on our business strategy:

- *Growth mindset.* Insight looks to partner with future market leading companies with several years of sustained growth, with a history of customer trust and engagement and a business model that is reflective of the value they provide. These companies often have potential for a sustained category leadership position, and we will leverage Insight’s experience in identifying growth-stage companies with the potential to become market leaders.
- *Management-focused, partnership-oriented approach.* We will aim to align with the strategy and goals of the management team we partner with. By partnering with existing management, we believe that we can build upon management’s existing traction and support them as they strive to achieve category leadership, while minimizing the business disruption associated with a leadership transition.
- *Long investment horizon.* Insight is a long-term investor and our goal is to help companies transform into industry leaders, and to be supportive along the way by continuing to serve on the Board of Directors. We will target companies where we can be a long-term partner, supporting their path towards market leadership.

We believe there are many potential targets within the FinTech (as well as adjacent technologies), asset and wealth management, and broader financial services sectors that could become attractive public companies. These potential targets exhibit a broad range of business models and financial characteristics from mature businesses with recurring revenues and strong cash flows to high growth innovative companies.

We do not intend to limit our search to one segment of the financial services ecosystem, but will instead target a wide variety of companies across the financial services and technology sectors, with a focus on FinTech and adjacent technologies. The FinTech sector, for example, saw \$45.3 billion of financing volume in 2020. Q1 2021 was the largest and most active quarter ever for FinTech financing activity with over \$29 billion in volume across more than 750 transactions

During the same period, there was an active IPO market, with six US FinTech initial public offerings. Additionally, 2021 has been an active year for SPAC transactions (16 completed through June 2021) in the FinTech sector, or mergers between FinTech companies and SPACs, with announced deal values of \$54.9 billion. Total announced M&A dollar volume reached \$95 billion in Q1, with 21 deals all valued over \$1 billion, the most ever in a single quarter

The wealth industry has attracted the attention of private equity investors due to its steady growth, high profit margins, consistent cash flow, and low capital requirements. M&A across the vertical remains a principal path to solving strategic challenges and repositioning businesses for growth. Transaction activity remained high in 2020 with 253 announced transactions, a slight reduction year-over-year with the previous year's 270 transactions. The 2020 transactions included 51 traditional asset manager sales, 51 alternative asset manager sales, and 151 private wealth manager sales. 2020 deal activity was spread across firms with different sizes of assets under management ("AUM"). The transacted AUM rose to \$2.9 trillion, implying an average AUM per transaction of \$11.6 billion in 2020 versus \$1.3 trillion in AUM transacted in 2019, implying an average AUM per transaction of \$4.67 billion for that year.

According to McKinsey & Company research, in 2000, the North American wealth management industry totaled \$13 trillion in client assets, which grew by approximately 45%, reaching roughly \$19 trillion in 2010. There were approximately 420,000 advisors in the US and Canada in 2010. By the end of the third quarter of 2020, the industry was managing a record-high \$34.7 trillion in client assets, with annualized year-to-date net flows at a healthy 2.6%. While as of 2018, the total number of advisors remained largely unchanged from 2010, the advisor workforce aged materially in the US, with only 25% under the age of 44, compared to 33% in 2010. Future industry consolidation will be driven by the fact that a substantial number of advisors are expected to retire over the next decade with their managed assets becoming available for acquisition. These retirements are further fueled by the level of education and professional competency demanded of advisors. The industry is also experiencing a substantial transfer of generational assets and an influx of new generational assets, with a direction towards advisors and companies possessing strong technology. As a consequence, businesses are constantly looking to implement, invest or acquire technology platforms that can further their growth and differentiate their product offerings. This disruption and change in the delivery of financial services includes, among others, digital payments, digital advice (robo-advice), exchanges and trading platforms, the use of big data and artificial intelligence, cloud computing and digital assets. As modelled by Aite Group, assets managed on digital investment platforms are set to increase from AUM of \$343 billion in the third quarter of 2019 to \$1.68 trillion by 2025 and according to Juniper Research, consumer spending via digital wallets will exceed \$10 trillion in 2025, an 83% increase from the \$5.5 trillion spent via digital wallets in 2020. According to the Ernst & Young Global Capital Confidence Barometer, 89% of wealth and asset managers that responded to their surveys agreed that digital transformation will present them with opportunities to reposition their overall business strategy and reshape their portfolios. Of the executives surveyed, 77% believe that their chief executive has a clear vision to achieve accelerated digital transformation through M&A. With increased adoption of technology solutions by consumers and businesses alike, we believe that all components of the industry including both mature and innovative newcomers are poised for continued growth in overall market size and penetration. Key industry characteristics include long-term organic growth, attractive competitive dynamics, and further consolidation opportunities to scale. Key business characteristics include high barriers to entry, low risk of technological obsolescence, and public market-ready scale. Key financial metrics include organic revenue growth, recurring revenues, and strong cash flow conversion. We will seek to acquire established businesses that we believe are fundamentally sound, but potentially would benefit from the financial, operational, technological, strategic or managerial improvements our Company and management team can provide to maximize value. We will also

look at earlier-stage companies that exhibit the potential to transform the industries in which they participate, and which offer the potential of sustained high levels of revenue growth.

Our Past SPAC Company Blank Check Experience

Jeffrey Gary, who is our CEO and CFO, is an officer and director of Fusion Acquisition Corp. (NYSE: FUSE; “Fusion I”), a special purpose acquisition company that completed its initial public offering in June 2020 in which it sold units, each consisting of one share of Class A common stock and one-half of one warrant to purchase one share of Class A common stock for an offering price of \$10.00 per unit, generating aggregate proceeds of approximately \$350,000,000.

On February 11, 2021, Fusion I entered into an agreement and plan of merger with MoneyLion Inc. (“MoneyLion”), pursuant to which, among other things, MoneyLion will become a wholly owned subsidiary of Fusion I. In connection with the business combination, Fusion I raised \$250 million through a private placement of shares of its Class A common stock at a price of \$10.00 per share. The business combination is expected to close in the third quarter of 2021.

Jeffrey Gary who is our CEO and CFO, is an officer and director of Fusion Acquisition II Corp. (NYSE: FSNB; “Fusion II”), a special purpose acquisition company that completed its initial public offering in February 2020 in which it sold units, each consisting of one share of Class A common stock and one-third of one warrant to purchase one share of Class A common stock for an offering price of \$10.00 per unit, generating aggregate proceeds of approximately \$500,000,000.

Our Management Team

We will seek to capitalize on the financial services experience and contacts of the members of our board of directors and management team, including Michael Singer, our Executive Chairman, and Jeffrey Gary, our Chief Executive Officer and Chief Financial Officer, to identify, evaluate, and acquire a target business.

Michael Singer, our Executive Chairman, is the Managing Partner of Alternative Insight, LLC. In 2017, he formed Alternative Insight LLC to serve as management company for his investment management activities, directorships and consultancy. He was Executive Vice Chairman of the Board of Directors of National Holdings Corporation (Nasdaq: NHLD), which was sold to B. Riley Financial in February 2021. From 2012 to 2017, Mr. Singer was Chief Executive Officer and President of Ramius (Cowen Investment Management). Prior to that, he was Head of Alternative Investments at Third Avenue Management. From 2004 to 2009, he was co-President of Ivy Asset Management, an institutional fund of hedge funds business. Mr. Singer began his career at Weiss, Peck & Greer, where he spent nine years and served as Senior Managing Director and Executive Committee Member. Mr. Singer received his Juris Doctorate from the Emory University School of Law and Bachelor of Science degree in accounting with honors from Penn State University. He is an attorney and CPA.

Jeffrey Gary is our Chief Executive Officer and Chief Financial Officer. Mr. Gary has a 30-year track record in the investment and financial services industry, including significant merger and acquisition (“M&A”) experience. He is an experienced board member and investor, having worked on numerous transactions with SPACs and public and private equity companies and has directly led audit, fiduciary, and corporate governance committees of these companies. He was on the on the boards of directors of National Holdings Corporation (Nasdaq: NHLD) (February 2019 to February 2021), where he also served as the chair of the audit committee until the successful sale of National to B. Riley Financial in February 2021. He currently serves on the Board of Directors for the Arca US Treasury Mutual Fund and is the Audit Committee Chair (since December 2019). Mr. Gary also sits on the advisory boards for Monroe Capital (since January 2020) and two FinTech companies, DealBox (since May 2019) and Total Network Service/Digital Names (since May 2019). From October 2018 to March 2020, Mr. Gary served on the board of directors of the Axonic Alternative Income Mutual Fund. Previously, Mr. Gary was a senior portfolio manager and led investment teams at Avenue Capital Group (from January 2012 to July 2018),

Third Avenue (from May 2009 to December 2010), BlackRock, Inc. (NYSE: BLK) (“BlackRock”) (from September 2003 to December 2008), AIG/American General (NYSE: AIG) (from May 1998 to September 2003), and Koch Industries (from September 1996 to April 1998) where he invested across all asset classes with a focus on the high-yield, bank loan and distressed markets. During this time, he operated in a variety of roles, which included presenting each quarter on regulatory, compliance, shareholder, the Sarbanes-Oxley Act of 2002, and other SEC matters to the Board. His role also included making investments and negotiating capital structures for numerous corporate buyout and acquisition transactions. He also successfully launched and managed several new investment businesses between 1996 and 2018, and was an angel investor/advisor for a start-up healthcare company. For a number of years, Mr. Gary was the portfolio manager for numerous NYSE-listed funds. Mr. Gary also sat as an investment committee member at BlackRockKelso Capital BDC (Nasdaq: BKCC) (“BKCC”) from February 2005 to December 2008, where he was involved with the review and approval of all private equity and credit investments, and was a team member in the launch and initial public offering of BKCC. Additionally, Mr. Gary was employed at Avenue Capital from January 2012 to July 2018. He started his career at PricewaterhouseCoopers as a senior auditor from September 1984 to June 1987 and later as a senior analyst at Citigroup (NYSE: C) from July 1987 to July 1988. From August 1988 to December 2002, Mr. Gary was an investment banker at Mesirow Financial. From January 1993 to August 1996, he was a senior distressed analyst at Cargill, Inc. Mr. Gary has served as a Board Director and Chief Financial Officer of Fusion 1 since June 2020. Mr. Gary has served on the Board of Directors and as the Chief Financial Officer of Fusion Acquisition II Corp. since February 2021. Mr. Gary earned a Bachelor of Science in Accounting from Penn State University in 1984 and a Master of Business Administration in Finance and International Business from Northwestern University (Kellogg) in 1991. Mr. Gary is a Certified Public Accountant.

David Brosgol, one of our directors, is General Counsel of Voyager Digital, a crypto-asset trading platform for retail and institutional investors. Prior to joining Voyager Digital in February 2021, Mr. Brosgol worked with Anchorage, a crypto-native custodian and digital asset platform as a Manager and Advisor, from December 2019 to November 2020. From October 2017 to April 2019, he was a Founder, General Counsel and Chief Compliance Officer at Digital Asset Custody Company (“DACC”). Prior to its acquisition by Bakkt, DACC was a pioneer in the digital asset space providing institutional custody of digital assets. From June 2016 to October 2017, Mr. Brosgol was General Counsel and Managing Director at Maverick Capital, a multi-billion-dollar hedge fund manager. Mr. Brosgol earned a B.A. in Economics from Trinity College in 1990, an M.A. in Philosophy from the University of Essex in 1992 and a J.D. from the University of Virginia in 1995.

Victor Pascucci, III, one of our directors, has served as Managing Partner at Energy Capital Ventures, an early-stage venture capital fund focused on the energy sector, and an Advisory Partner at IA Capital, an early-stage venture capital fund focused on the insurance and fintech sector, each since January 2020. From January 2017 to January 2020, Mr. Pascucci was Managing Partner at Lightbank, an early stage venture capital firm where he led investments in Clearcover, Extend and Billtrim. From August 2016 to January 2017, he was Venture Partner and Investment Director at Munich Re | HSB Ventures, a Global 100 diversified insurance company where he led investments in insurtech. From September 2015 to August 2016, he was a Consultant and Advisor at Attraction Ventures LLC, a consulting practice to corporate venture capital programs and venture capital firms. From 2011 to September 2015, Mr. Pascucci was Head of Corporate Development of USAA, an integrated financial services company with a \$330M fintech and insurtech fund. Investments while at USAA included Coinbase, MX, ID.me, Prosper Marketplace, Cartera Commerce and TRUECar. Also at USAA, Mr. Pascucci held leadership positions in the General Counsel division and Enterprise Strategy & Transformation. In addition, since January 2019, he has served as an independent consultant, board member and advisor to entrepreneurs and venture backed companies, including Axio Global Inc., EnergyCX, Edmit, ID.me Inc, Leaplife, Clearcover and Paceline. Mr. Pascucci earned a B.A. in Communications from Bowling Green State University in 1992 and a J.D. from the University of Toledo College of Law.

William Ullman, one of our directors, is the Chief Executive Officer of Water Street Advisors LLC, a registered investment advisor. He is also the Founder and Chief Executive Officer of The Daily FinQ, a mobile application designed to help Americans become smarter about money and finance, since 2019. Mr. Ullman has been a board

member of Van Eck Associates Corp., a New York based investment firm, since 2010. He also currently serves as a special advisor to FinTech Collective, a venture capital firm, a member of the board of directors of the Capital Returns Fund, since 2010, and a senior advisor to Berkshire Global, since 2020. From 2016 to 2018, Mr. Ullman served as Chief Commercial Officer of Orchard Platform and Chief Executive Officer of its broker-dealer subsidiary (Orchard Platform Markets LLC) prior to its sale to Kabbage in 2018. From 2006 to 2016, he was the founder of Right Wall Capital Management LLC, a firm focused on investing in the financial services sector, including financial technology companies. From 2001 to 2006, Mr. Ullman was the Senior Managing Director, Global Clearing Services at Bear Stearns & Co., Inc. Mr. Ullman earned an A.B. in History from Princeton University in 1985 and an M.B.A. from the Anderson School at UCLA in 1989.

We believe that the members of our board of directors and management team's extensive relationships that were developed over their respective substantial careers at leading financial institutions, as well as their collective executive experience in financial services, FinTech, and the financial markets, will allow us to identify and complete an attractive initial business combination. Similarly, we believe their experience in founding, nurturing, and growing multiple businesses, including asset managers and FinTech businesses, will serve as a valuable foundation to locate and consummate an initial business combination in the financial services industry.

The past performance of our management team or their respective affiliates is not a guarantee of either: (i) success with respect to any business combination we may consummate; or (ii) that we will be able to identify a suitable candidate for our initial business combination. You should not rely on the historical record of our management team's or their respective affiliates' performance as indicative of any future performance.

For more information on the experience and background of our management team, see the section entitled "Management."

Business Combination Criteria and Process

Consistent with our business strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective target businesses. We will use these criteria and guidelines in evaluating initial business combination opportunities, but we may decide to enter into our initial business combination with a target business that does not meet these criteria and guidelines. We intend to seek to acquire companies in the FinTech, wealth, asset or investment management or insurance tech (insurtech) Sectors or companies that provide technology enables services to these sectors in the valuation range of \$750 million to \$1.5 billion that we believe:

- are fundamentally sound and can unlock and enhance stockholder value through a combination with us, thereby offering attractive risk-adjusted returns for our stockholders;
- have strong, experienced management teams, or provide a platform to assemble an effective management team with a track record of driving growth and profitability;
- are at an inflection point, such as requiring additional capital to fund growth through increased marketing and technology spending, are able to innovate through new operational techniques, or where we believe we can drive improved financial performance;
- can benefit from the application and exploitation of financial service technologies;
- have a history of, or potential for, strong, stable free cash flow generation, with predictable and recurring revenue streams;
- can grow both organically and where we believe our ability to source proprietary opportunities and execute transactions will help the business grow through additional acquisitions
- have a leading or defensible market position and that demonstrate advantages when compared to their competitors, which may help to create barriers to entry against new competitors;

- can benefit from being a publicly traded company, with access to broader capital markets, to achieve the company’s growth strategy;
- exhibit unrecognized value or other characteristics that we believe can be enhanced based on our analysis and due diligence review.
- are disrupting large market segments with a large total addressable market. As part of the evaluation process, we will diligence the market segment to thoroughly understand the underlying drivers, business model and competitive environment;
- businesses with substantially mitigated product risk, through proven models, meaningful revenue, and strong unit economics;
- companies that are ready to scale, where we can provide support and industry expertise to support them in scaling their business and executing on their strategic vision; and
- world class firms and management teams looking for an active capital partner that will support their growth with experience and expertise, in addition to capital.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management team may deem relevant. In the event that we decide to enter into our initial business combination with a target business that does not meet the above criteria and guidelines, we will disclose that the target business does not meet the above criteria in our stockholder communications related to our initial business combination, which, as discussed in this prospectus, would be in the form of proxy solicitation materials or tender offer documents, as applicable, that we would file with the SEC. In evaluating a prospective target business, we expect to conduct a due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspections of facilities, as well as reviewing financial and other information which will be made available to us.

We intend to pursue an initial business combination with a high-quality growth company that has the potential to become a market leader. We will apply our experience in sourcing and executing transactions to identify and negotiate a combination with what we believe is an exceptional business. Our team has extensive expertise in the FinTech and Wealth, Asset and Investment management and insurtech sectors, and we expect that our ultimate target will be in one of those fields, although we may consummate a transaction with a business in a different industry.

In recent years, private technology companies have created extraordinary value through rapid growth at significant scale. Innovative firms are leveraging new technologies such as cloud computing and artificial intelligence to disrupt traditional industries and establish new markets. Furthermore, the global COVID-19 pandemic has accelerated digital transformation across the globe, providing a tailwind for technology disruptors across all industries. As the world adapts to the new normal and continues to adopt these newly created solutions and services, we believe that technology companies with the right market fit are positioned to benefit from significant value creation.

Despite these large market opportunities, technology companies have been remaining private for longer. Availability of private capital has enabled these businesses to grow at scale to “unicorn” valuations and beyond. We believe these investment opportunities will be attractive to public investors and that we are ideally positioned to take these companies public.

Technology companies in their growth stage benefit materially from being publicly-traded. Newly public companies benefit from expanded access to capital markets, a more liquid currency for potential acquisitions and growth capital and increased brand awareness. In addition, a business combination with Insight Acquisition Corp.

would provide such companies with additional benefits including a more expeditious route to the public markets, an opportunity to broadly share growth plans through filed forecasts, and earlier certainty of capital through the inclusion of a potential PIPE, when compared to a traditional IPO. Partnering with our management team, who are known for supporting high-growth FinTech and Wealth, Asset and Investment management companies, provides an attractive mechanism to go public.

As part of the evaluation process, we expect to conduct extensive due diligence to assess the company's market opportunity, competitive positioning, business model and financial profile. Our review process may include, among other things, interviews with competitors, customers and vendors, analysis of significant risks and opportunities, meetings with management and employees, and review of other relevant information. which may encompass, among other things, document reviews, inspections of facilities, as well as reviewing financial and other information which will be made available to us.

Initial Business Combination

rules and our amended and restated certificate of incorporation require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the value of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the interest earned on the trust account) at the time of our signing a definitive agreement in connection with our initial business combination. Our board of directors will make the determination as to the fair market value of our initial business combination. If our board of directors is not able to independently determine the fair market value of our initial business combination, we will obtain an opinion from an independent investment banking firm which is a member of FINRA or a valuation or appraisal firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board of directors will not be able to make an independent determination of the fair market value of our initial business combination, it may be unable to do so if it is less familiar or experienced with the business of a particular target or if there is a significant amount of uncertainty as to the value of the target's assets or prospects.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be taken into account for purposes of the 80% of net assets test described above. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses.

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, the proceeds of the sale of our shares in

connection with our initial business combination (pursuant to forward purchase agreements or backstop agreements we may enter into following the consummation of this offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemptions of our Class A common stock, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We have not selected any specific business combination target and we have not, nor has anyone on our behalf, engaged in any substantive discussions, directly or indirectly, with any business combination target with respect to an initial business combination with us. Accordingly, there is no current basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete our initial business combination. Although our management will assess the risks inherent in a particular target business with which we may combine, we cannot assure you that this assessment will result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely affect a target business.

We may need to obtain additional financing to complete our initial business combination, either because the transaction requires more cash than is available from the proceeds held in our trust account or because we become obligated to redeem a significant number of our public shares upon completion of the business combination, in which case we may issue additional securities or incur debt in connection with such business combination. There are no prohibitions on our ability to issue securities or incur debt in connection with our initial business combination. We are not currently a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities, the incurrence of debt or otherwise.

Prior to the date of this prospectus, we have filed a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Securities Exchange Act of 1934, as amended, or the Exchange Act. As a result, we are subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

Sourcing of Potential Initial Business Combination Targets

We believe our management team's significant operating and transaction experience and relationships will provide us with a substantial number of potential initial business combination targets. Over the course of their careers, the members of our management team and our directors and advisors have developed a broad network of contacts and corporate relationships around the world, which includes private equity firms, venture capitalists and entrepreneurs. This network has grown through the activities of our management team sourcing, acquiring and financing businesses, the reputation of our management team for integrity and fair dealing with sellers, financing sources and target management teams and the experience of our management team in executing transactions under varying economic and financial market conditions. In addition, members of our management team have developed contacts derived directly from serving on the boards of directors of several public and private companies.

This network has provided our management team with a flow of referrals, which in the past has resulted in numerous transactions which were proprietary or where a limited group of investors were invited to participate in

the sale process. We believe that this network will provide us with multiple investment opportunities. In addition, we anticipate that target business combination candidates will be brought to our attention by various unaffiliated sources, including participants in our targeted markets and their advisors, private equity funds and large business enterprises seeking to divest non-core assets or divisions.

While we do not presently anticipate engaging the services of professional firms or other individuals that specialize in business acquisitions on any formal basis, we may engage these firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction. We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of a finder's fee is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account. In no event, however, will our sponsor or any of our existing officers or directors, or any entity with which they are affiliated, be paid any finder's fee, consulting fee or other compensation by the company prior to, or for any services they render in order to effectuate, the completion of our initial business combination (regardless of the type of transaction that it is). In addition, commencing on the date of this prospectus, we will pay our sponsor \$10,000 per month for office space, secretarial and administrative services provided to or incurred by members of our management team. We will also set aside up to, \$15,000 per month for services rendered to us by members of our management team, subject to approval by our board of directors, commencing on the date that our securities are first listed on the NYSE through the earlier of consummation of our initial business combination and our liquidation. Any such payments prior to our initial business combination will be made from funds held outside the trust account. Other than the foregoing, there will be no finder's fees, reimbursement, consulting fee, monies in respect of any payment of a loan or other compensation paid by us to our sponsor, officers or directors, or any affiliate of our sponsor or officers prior to, or in connection with any services rendered in order to effectuate, the consummation of our initial business combination (regardless of the type of transaction that it is).

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, executive officers or directors, or completing the business combination through a joint venture or other form of shared ownership with our sponsor, executive officers or directors. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm which is a member of FINRA or a valuation or appraisal firm stating that such an initial business combination is fair to our company from a financial point of view.

Members of our management team and our independent directors will directly or indirectly own founder shares and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

As described in "Management — Conflicts of Interest," each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to another entity pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such other entity. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of the company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

In addition, our sponsor and our officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. In particular, Mr. Gary serves as Chief Financial Officer and Director of Fusion I, a special purpose acquisition company that completed its initial public offering in June 2020. Fusion I, like us, may pursue initial business combination targets in any businesses or industries and has until December 30, 2021, to do so (absent an extension in accordance with their charters). Fusion II raised \$500 million and as a result are focused on companies with an enterprise value of \$1.5 billion to \$5 billion which is larger than the target size for Insight. On February 11, 2021, Fusion I entered into an agreement and plan of merger with MoneyLion, pursuant to which, among other things, MoneyLion agreed to be acquired by Fusion I. Mr. Gary also serves as Chief Financial Officer and Director of Fusion II, a special purpose acquisition company that completed its initial public offering in March 2021. Fusion II, like us, may pursue initial business combination targets in any businesses or industries and has until March 2, 2023, to do so (absent an extension in accordance with their charters). Any such companies, including Fusion I and Fusion II, may present additional conflicts of interest in pursuing an acquisition target. However, we do not believe that any such potential conflicts would materially affect our ability to identify and pursue business combination opportunities or to complete our initial business combination.

Financial Position

With funds available for a business combination initially in the amount of \$229,200,000 (assuming no redemptions), after payment of \$12,000,000 of deferred underwriting fees (or \$262,860,000 (assuming no redemptions) after payment of \$14,520,000 of deferred underwriting fees if the underwriters' over-allotment option is exercised in full), we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to complete our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third party financing and there can be no assurance it will be available to us.

Lack of Business Diversification

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. By completing our initial business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination, and
- cause us to depend on the marketing and sale of a single product or limited number of products or services.

Limited Ability to Evaluate the Target's Management Team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business's management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. The

determination as to whether any of the members of our management team will remain with the combined company will be made at the time of our initial business combination. While it is possible that one or more of our directors will remain associated in some capacity with us following our initial business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our initial business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following a business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders May Not Have the Ability to Approve Our Initial Business Combination

We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC subject to the provisions of our amended and restated certificate of incorporation. However, we will seek stockholder approval if it is required by law or applicable stock exchange rule, or we may decide to seek stockholder approval for business or other legal reasons.

Presented in the table below is a graphic explanation of the types of initial business combinations we may consider and whether stockholder approval is currently required under Delaware law for each such transaction.

<u>TYPE OF TRANSACTION</u>	<u>WHETHER STOCKHOLDER APPROVAL IS REQUIRED</u>
Purchase of assets	No
Purchase of stock of target not involving a merger with the company.	No
Merger of target into a subsidiary of the company.	No
Merger of the company with a target	Yes

Under the NYSE’s listing rules, stockholder approval would be required for our initial business combination if, for example:

- We issue (other than in a public offering for cash) shares of common stock that will either (a) be equal to or in excess of 20% of the number of our shares of common stock then outstanding or (b) have voting power equal to or in excess of 20% of the voting power then outstanding;
- Any of our directors, officers or substantial stockholders (as defined by the NYSE rules) has a 5% or greater interest, directly or indirectly, in the target business or assets to be acquired and if the number of shares of common stock to be issued, or if the number of shares of common stock in which the securities may be convertible or exercisable, exceeds either (a) 1% of the number of shares of common stock or 1% of the voting power outstanding before the issuance in the case of any of our directors and officers and (b) 5% of the number of shares of common stock or 5% of the voting power outstanding before the issuance in the case of any substantial securityholder; or
- The issuance or potential issuance of common stock will result in our undergoing a change of control.

Permitted Purchases of Our Securities

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, initial

stockholders, directors, executive officers, advisors or their affiliates may purchase shares or public warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares our initial stockholders, directors, officers, advisors or their affiliates may purchase in such transactions, subject to compliance with applicable law and the NYSE rules. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares or public warrants in such transactions. If they engage in such transactions, they will be restricted from making any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act.

In the event that our sponsor, initial stockholders, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

The purpose of any such purchases of shares could be to (i) vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or (ii) to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public “float” of our Class A common stock or public warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, initial stockholders, officers, directors and/or their affiliates anticipate that they may identify the stockholders with whom our initial stockholders, officers, directors or their affiliates may pursue privately negotiated purchases by either the stockholders contacting us directly or by our receipt of redemption requests submitted by stockholders (in the case of Class A common stock) following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsor, officers, directors, advisors or their affiliates enter into a private purchase, they would identify and contact only potential selling stockholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against our initial business combination, whether or not such stockholder has already submitted a proxy with respect to our initial business combination but only if such shares have not already been voted at the stockholder meeting related to our initial business combination. Our sponsor, executive officers, directors, advisors or any of their affiliates will select which stockholders to purchase shares from based on a negotiated price and number of shares and any other factors that they may deem relevant, and will only purchase shares if such purchases comply with Regulation M under the Exchange Act and the other federal securities laws. Our sponsor, officers, directors and/or their affiliates will be restricted from making purchases of shares if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act. We expect any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchases are subject to such reporting requirements.

Redemption Rights for Public Stockholders upon Completion of Our Initial Business Combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of the initial business combination, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations and on the conditions described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our initial stockholders, sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and public shares they may hold in connection with the completion of our initial business combination. The anchor investors will not be entitled to redemption rights with respect to any founder shares held by them in connection with the completion of our business combination.

Limitations on Redemptions

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. In addition, our proposed initial business combination may impose a minimum cash requirement for: (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares in connection with such initial business combination, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof. We may, however, raise funds through the issuance of equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop arrangements we may enter into following consummation of this offering, in order to, among other reasons, satisfy such net tangible assets or minimum cash requirements.

Manner of Conducting Redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the initial business combination or (ii) without a stockholder vote by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed initial business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under applicable law or stock exchange listing requirements. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. So long as we obtain and maintain a listing for our securities on the NYSE, we will be required to comply with the NYSE's stockholder approval rules.

The requirement that we provide our public stockholders with the opportunity to redeem their public shares by one of the two methods listed above will be contained in provisions of our amended and restated certificate of incorporation and will apply whether or not we maintain our registration under the Exchange Act or our listing on the NYSE. Such provisions may be amended if approved by holders of 65% of our common stock entitled to vote thereon. If we amend such provisions of our amended and restated certificate of incorporation, we will provide our public stockholders with the opportunity to redeem their public shares in connection with a stockholder meeting.

If we provide our public stockholders with the opportunity to redeem their public shares in connection with a stockholder meeting, we will:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the Company representing a majority of the voting power of all outstanding shares of capital stock of the Company entitled to vote at such meeting. Our initial stockholders will count towards this quorum and, pursuant to the letter agreement, our sponsor, officers and directors have agreed to vote any founder shares they hold and any public shares purchased during or after this offering (including in open market and privately-negotiated transactions), and the anchor investors have agreed to vote any founder shares held by them, in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to our initial stockholders' founder shares, we would need only 9,000,001, or 37.5%, of the 24,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised, or 1,500,000, or 6.25%, of the 24,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming only the minimum number of shares are voted and the over allotment option is not exercised). These quorum and voting thresholds, and the voting agreements of our initial stockholders and the anchor investors, may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction or whether they were a stockholder on the record date for the stockholder meeting held to approve the proposed transaction.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination, which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

Upon the public announcement of our initial business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

We intend to require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to, at the holder’s option, either deliver their stock certificates to our transfer agent or deliver their shares to our transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) system, prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a stockholder vote, we intend to require a public stockholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the vote in which the name of the beneficial owner of such shares is included. The proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. We believe that this will allow our transfer agent to efficiently process any redemptions without the need for further communication or action from the redeeming public stockholders, which could delay redemptions and result in additional administrative cost. If the proposed initial business combination is not approved and we continue to search for a target company, we will promptly return any certificates or shares delivered by public stockholders who elected to redeem their shares.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. In addition, our proposed initial business combination may impose a minimum cash requirement for: (i) cash consideration to be paid to the target or its owners, (ii) cash for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed initial business combination exceed the aggregate amount of cash available to us, we will not complete the initial business combination or redeem any shares in connection with such initial business combination, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof. We may, however, raise funds through the issuance of equity-linked securities or through loans, advances or other indebtedness in connection with our initial business combination, including pursuant to forward purchase agreements or backstop arrangements we may enter into following consummation of this offering, in order to, among other reasons, satisfy such net tangible assets or minimum cash requirements.

Limitation on Redemption Upon Completion of Our Initial Business Combination If We Seek Stockholder Approval If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to Excess Shares, without our prior consent. We believe this restriction will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights if such holder’s shares are not purchased by us, our sponsor or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders’ ability to redeem no more than 15% of the shares sold in this offering without our prior consent, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash.

However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

Delivering Stock Certificates in Connection with the Exercise of Redemption Rights

As described above, we intend to require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to, at the holder’s option, either deliver their stock certificates to our transfer agent or deliver their shares to our transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) system, prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a stockholder vote, we intend to require a public stockholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the vote in which the name of the beneficial owner of such shares is included. The proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. Accordingly, a public stockholder would have up to two business days prior to the vote on the initial business combination if we distribute proxy materials, or from the time we send out our tender offer materials until the close of the tender offer period, as applicable, to submit or tender its shares if it wishes to seek to exercise its redemption rights. In the event that a stockholder fails to comply with these or any other procedures disclosed in the proxy or tender offer materials, as applicable, its shares may not be redeemed. Given the relatively short exercise period, it is advisable for stockholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced process and the act of certificating the shares or delivering them through the DWAC system. The transfer agent will typically charge the broker submitting or tendering shares a fee of approximately \$80.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to submit or tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the proxy materials or tender offer documents, as applicable. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our initial business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed initial business combination is not completed, we may continue to try to complete an initial business combination with a different target until 18 months from the closing of this offering.

Redemption of Public Shares and Liquidation if No Initial Business Combination

Our amended and restated certificate of incorporation provides that we will have only 18 months from the closing of this offering to complete our initial business combination. If we are unable to complete our initial business combination within such 18-month period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes

payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the 18-month time period.

Our initial stockholders, sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to any founder shares they hold if we fail to complete our initial business combination within 18 months from the closing of this offering or any extended period of time that we may have to consummate an initial business combination as a result of an amendment to our amended and restated certificate of incorporation. However, if our initial stockholders, sponsor or management team or the anchor investors acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 18-month time period.

Our initial stockholders, sponsor, officers and directors have agreed, pursuant to a letter agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their public shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. If this optional redemption right is exercised with respect to an excessive number of public shares such that we cannot satisfy the net tangible asset requirement, we would not proceed with the amendment or the related redemption of our public shares at such time.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the approximately \$2,000,000 (\$1,820,000 if the underwriters' over-allotment option is exercised in full) of proceeds held outside the trust account, although we cannot assure you that there will be sufficient funds for such purpose. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the trust account not required to pay taxes, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of this offering and the sale of the private placement warrants, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account and any tax payments or expenses for the dissolution of the trust, the per-share redemption amount received by stockholders upon our dissolution would be approximately \$10.05. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public stockholders. We cannot assure you that the actual per-share redemption amount received by stockholders will not be substantially less than \$10.05. Under Section 281(b) of the DGCL, our plan of dissolution must provide for all claims against us to be paid in full or make provision for payments to be made in full, as applicable, if there are sufficient assets. These claims must be paid or provided for before we make any distribution of our remaining assets to our stockholders. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers (other than our independent registered public accounting firm), prospective target businesses and other entities with which we do business execute agreements

with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will consider whether competitive alternatives are reasonably available to us and will only enter into an agreement with such third party if management believes that such third party's engagement would be in the best interests of the company under the circumstances. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. The underwriters of this offering and our independent registered public accounting firm will not execute agreements with us waiving such claims to the monies held in the trust account. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. In order to protect the amounts held in the trust account, our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or other similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.05 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.05 per public share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsor to reserve for such indemnification obligations, nor have we independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and we believe that our sponsor's only assets are securities of our company. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.05 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.05 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account if less than \$10.05 per share due to reductions in the value of the trust assets, in each case less taxes payable, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.05 per share.

We will seek to reduce the possibility that our sponsor will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers (other than our independent registered public accounting firm), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of this offering against

certain liabilities, including liabilities under the Securities Act. We will have access to up to approximately \$1,000,000 from the proceeds of this offering with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, stockholders who received funds from our trust account could be liable for claims made by creditors. In the event that our offering expenses exceed our estimate of \$700,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$700,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 18 months from the closing of this offering may be considered a liquidating distribution under Delaware law. If the corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 18 months from the closing of this offering, is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful (potentially due to the imposition of legal proceedings that a party may bring or due to other circumstances that are currently unknown), then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution. If we are unable to complete our initial business combination within 18 months from the closing of this offering, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any) and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Accordingly, it is our intention to redeem our public shares as soon as reasonably possible following our 18th month and, therefore, we do not intend to comply with those procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent 10 years. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. As described above, pursuant to the obligation contained in our underwriting agreement, we will seek to have all vendors, service providers (other

than our independent registered public accounting firm), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account. As a result of this obligation, the claims that could be made against us are significantly limited and the likelihood that any claim that would result in any liability extending to the trust account is remote. Further, our sponsor may be liable only to the extent necessary to ensure that the amounts in the trust account are not reduced below (i) \$10.05 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest withdrawn to pay taxes and will not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims.

If we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public stockholders. Additionally, if we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover some or all amounts received by our stockholders. Furthermore, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public stockholders will be entitled to receive funds from the trust account only (i) in the event of the redemption of our public shares if we do not complete our initial business combination within 18 months from the closing of this offering, (ii) in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders’ rights or pre-initial business combination activity or (iii) if they redeem their respective shares for cash upon the completion of our initial business combination. In no other circumstances will a stockholder have any right or interest of any kind to or in the trust account. In the event we seek stockholder approval in connection with our initial business combination, a stockholder’s voting in connection with the business combination alone will not result in a stockholder’s redeeming its shares to us for an applicable pro rata share of the trust account. Such stockholder must have also exercised its redemption rights described above. These provisions of our amended and restated certificate of incorporation, like all provisions of our amended and restated certificate of incorporation, may be amended with a stockholder vote.

Comparison of Redemption or Purchase Prices in Connection with Our Initial Business Combination and if We Fail to Complete Our Initial Business Combination.

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we are unable to complete our initial business combination within 18 months from the closing of this offering.

	<u>Redemptions in Connection with our Initial Business Combination</u>	<u>Other Permitted Purchases of Public Shares by our Affiliates</u>	<u>Redemptions if we fail to Complete an Initial Business Combination</u>
Calculation of redemption price	Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a stockholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a stockholder vote. In either case, our public stockholders may redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of the initial business combination (which is initially anticipated to be \$10.05 per share), including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitation that no redemptions will take place if all of the redemptions would cause our net tangible assets to be less than \$5,000,001.	If we seek stockholder approval of our initial business combination, our initial stockholders, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following completion of our initial business combination. There is no limit to the prices that our initial stockholders, directors, officers, advisors or their affiliates may pay in these transactions. If they engage in such transactions, they will be restricted from making any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers	If we are unable to complete our initial business combination within 18 months from the closing of this offering, we will redeem all public shares at a per-share price, payable in cash, equal to the aggregate amount, then on deposit in the trust account (which is initially anticipated to be \$10.05 per share), including interest earned on the funds held in the trust account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares.

**Redemptions in
Connection with our Initial
Business Combination**

**Other Permitted Purchases
of Public Shares by our
Affiliates**

**Redemptions if we fail to
Complete an Initial
Business Combination**

Impact to remaining stockholders

The redemptions in connection with our initial business combination will reduce the book value per share for our remaining stockholders, who will bear the burden of the deferred underwriting commissions and interest withdrawn in order to pay our taxes (to the extent not paid from amounts accrued as interest on the funds held in the trust account).

determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

If the permitted purchases described above are made, there would be no impact to our remaining stockholders because the purchase price would not be paid by us.

The redemption of our public shares if we fail to complete our initial business combination will reduce the book value per share for the shares held by our initial stockholders, who will be our only remaining stockholders after such redemptions.

Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	Terms of Our Offering	Terms Under a Rule 419 Offering
Escrow of offering proceeds	\$241,200,000 of the net proceeds of this offering and the sale of the private placement warrants will be deposited into a trust account located in the United States with Continental Stock Transfer & Trust Company acting as trustee.	Approximately \$211,680,000 of the offering proceeds, representing the gross proceeds of this offering, would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
Investment of net proceeds	\$241,200,000 of the net proceeds of this offering and the sale of the private placement warrants held in trust will be invested only in U.S. government treasury obligations with a maturity of 185 days or less or in money market	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to

Terms of Our Offering

funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.

Terms Under a Rule 419 Offering

principal or interest by, the United States.

Receipt of interest on escrowed funds

Interest on proceeds from the trust account to be paid to stockholders is reduced by (i) any taxes paid or payable and (ii) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our dissolution and liquidation.

Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.

Limitation on fair value or net assets of target business

We must complete one or more business combinations having an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination.

The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.

Trading of securities issued

The units are expected to begin trading on or promptly after the date of this prospectus. The Class A common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless Cantor informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We will file the Current Report on Form 8-K promptly after the closing of this offering, which closing is anticipated to take place three business days from the date of this prospectus. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second

No trading of the units or the underlying Class A common stock and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.

Terms of Our Offering

Terms Under a Rule 419 Offering

or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the over-allotment option.

Exercise of the warrants

The warrants cannot be exercised until 30 days after the completion of our initial business combination.

The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.

Election to remain an investor

We will provide our public stockholders with the opportunity to redeem their public shares for cash at a per share price equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, upon the completion of our initial business combination, subject to the limitations described herein. We may not be required by law to hold a stockholder vote. If we are not required by law and do not otherwise decide to hold a stockholder vote, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, we hold a stockholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business

A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in writing, within a period of no less than 20 business days and no more than 45 business days from the effective date of a post-effective amendment to the company's registration statement, to decide if he, she or it elects to remain a stockholder of the company or require the return of his, her or its investment. If the company has not received the notification by the end of the 45th business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the stockholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.

Terms of Our Offering

Terms Under a Rule 419 Offering

combination only if a majority of the shares of common stock voted are voted in favor of the business combination. Additionally, each public stockholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction.

Business combination deadline

If we are unable to complete an initial business combination within 18 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Delaware law to provide for claims of creditors and in all cases subject to the requirements of other applicable law.

If an acquisition has not been completed within 18 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.

Release of funds

Except for the withdrawal of interest to pay our taxes, none of the funds held in trust will be released from the trust account until the earliest of (i) the completion of our initial business combination, (ii) the redemption of our public shares if we are unable to complete our initial business

The proceeds held in the escrow account are not released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.

combination within 18 months from the closing of this offering, subject to applicable law, and (iii) the redemption of our public shares properly submitted in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders' rights or pre-initial business combination activity.

Delivering stock certificates in connection with the exercise of redemption rights

We intend to require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to, at the holder's option, either deliver their stock certificates to our transfer agent or deliver their shares to our transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) system, prior to the date set forth in the proxy materials or tender offer documents, as applicable. In the case of proxy materials, this date may be up to two business days prior to the vote on the proposal to approve the initial business combination. In addition, if we conduct redemptions in connection with a stockholder vote, we intend to require a public stockholder seeking redemption of its public shares to also submit a written request for redemption to our transfer agent two business days prior to the vote in which the name of the beneficial owner of such shares is included. The proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will

Many blank check companies provide that a stockholder can vote against a proposed business combination and check a box on the proxy card indicating that such stockholder is seeking to exercise its redemption rights. After the business combination is approved, the company would contact such stockholder to arrange for delivery of its share certificates to verify ownership.

Terms of Our Offering

Terms Under a Rule 419 Offering

indicate whether we are requiring public stockholders to satisfy such delivery requirements. Accordingly, a public stockholder would have up to two business days prior to the vote on the initial business combination if we distribute proxy materials, or from the time we send out our tender offer materials until the close of the tender offer period, as applicable, to submit or tender its shares if it wishes to seek to exercise its redemption rights.

Limitation on redemption rights of stockholders holding more than 15% of the shares sold in this offering if we hold a stockholder vote

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to Excess Shares, without our prior consent. However, we would not restrict our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

Many blank check companies provide no restrictions on the ability of stockholders to redeem shares based on the number of shares held by such stockholders in connection with an initial business combination.

Competition

In identifying, evaluating and selecting a target business for our initial business combination, we may encounter competition from other entities having a business objective similar to ours, including other special purpose acquisition companies, private equity groups and leveraged buyout funds, public companies and operating businesses seeking strategic acquisitions. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Facilities

We currently utilize office space at 333 East 91st Street, New York, New York 10128 from our sponsor and the members of our management team. We consider our current office space adequate for our current operations.

Employees

We currently have two executive officers: Michael Singer and Jeffrey Gary. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the business combination process we are in. We do not intend to have any full time employees prior to the completion of our initial business combination.

Periodic Reporting and Financial Information

We will register our units, Class A common stock and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited and reported on by our independent registered public accountants.

We will provide stockholders with audited financial statements of the prospective target business as part of the proxy solicitation materials or tender offer documents sent to stockholders to assist them in assessing the target business. In all likelihood, these financial statements will need to be prepared in accordance with, or reconciled to, GAAP, or IFRS, depending on the circumstances, and the historical financial statements may be required to be audited in accordance with the standards of the PCAOB. These financial statement requirements may limit the pool of potential target businesses we may conduct an initial business combination with because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame. We cannot assure you that any particular target business identified by us as a potential business combination candidate will have financial statements prepared in accordance with the requirements outlined above, or that the potential target business will be able to prepare its financial statements in accordance with the requirements outlined above. To the extent that these requirements cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential business combination candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2022 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to have our internal control procedures audited. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

Prior to the date of this prospectus, we have filed a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Exchange Act. As a result, we are subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements

that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our shares of Class A common stock that are held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such.

MANAGEMENT

Officers and Directors

Our officers and directors are as follows:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Michael Singer	55	Executive Chairman
Jeffrey Gary	58	Chief Executive Officer, Chief Financial Officer and Director
David Brosgol	53	Director
Victor Pascucci, III	50	Director
William Ullman	57	Director

Michael Singer has served as our Executive Chairman and as a director since April 2021. He is the Managing Partner of Alternative Insight, LLC. In 2017, he formed Alternative Insight LLC to serve as management company for his investment management activities, directorships and consultancy. He was Executive Vice Chairman of the Board of Directors of National Holdings Corporation (Nasdaq: NHLD), which was sold to B. Riley Financial in February 2021. From 2012 to 2017, Mr. Singer was Chief Executive Officer and President of Ramius (Cowen Investment Management). Prior to that, he was Head of Alternative Investments at Third Avenue Management. From 2004 to 2009, he was co-President of Ivy Asset Management, an institutional fund of hedge funds business. Mr. Singer began his career at Weiss, Peck & Greer, where he spent nine years and served as Senior Managing Director and Executive Committee Member. Mr. Singer received his Juris Doctorate from the Emory University School of Law and Bachelor of Science degree in accounting with honors from Penn State University. He is an attorney and CPA. We believe Mr. Singer's deep asset management industry background, coupled with broad operational and transactional experience, make him well qualified to serve as Executive Chairman of our board of directors.

Jeffrey Gary has served as our Chief Executive Officer, Chief Financial Officer and as a director since April 2021. Mr. Gary has a 30-year track record in the investment and financial services industry, including significant merger and acquisition ("M&A") experience. He is an experienced board member and investor, having worked on numerous transactions with SPACs and public and private equity companies and has directly led audit, fiduciary, and corporate governance committees of these companies. He was on the on the boards of directors of National Holdings Corporation (Nasdaq: NHLD) (February 2019 to February 2021), where he also served as the chair of the audit committee until the successful sale of National to B. Riley Financial in February 2021. He currently serves on the Board of Directors for the Arca US Treasury Mutual Fund and is the Audit Committee Chair (since December 2019). Mr. Gary also sits on the advisory boards for Monroe Capital (since January 2020) and two FinTech companies, DealBox (since May 2019) and Total Network Service/Digital Names (since May 2019). From October 2018 to March 2020, Mr. Gary served on the board of directors of the Axonic Alternative Income Mutual Fund. Previously, Mr. Gary was a senior portfolio manager and led investment teams at Avenue Capital Group (from January 2012 to July 2018), Third Avenue (from May 2009 to December 2010), BlackRock, Inc. (NYSE: BLK) ("BlackRock") (from September 2003 to December 2008), AIG/American General (NYSE: AIG) (from May 1998 to September 2003), and Koch Industries (from September 1996 to April 1998) where he invested across all asset classes with a focus on the high-yield, bank loan and distressed markets. During this time, he operated in a variety of roles, which included presenting each quarter on regulatory, compliance, shareholder, the Sarbanes-Oxley Act of 2002, and other U.S. Securities and Exchange Commission ("SEC") matters to the Board. His role also included making investments and negotiating capital structures for numerous corporate buyout and acquisition transactions. He also successfully launched and managed several new investment businesses between 1996 and 2018, and was an angel investor/advisor for a start-up healthcare company. For a number of years, Mr. Gary was the portfolio manager for numerous NYSE-listed funds. Mr. Gary also sat as an investment committee member at BlackRockKelso Capital BDC (Nasdaq: BKCC) ("BKCC") from February 2005 to December 2008, where he was involved with the review and approval of all private equity and credit investments, and was a team member in the launch and initial public offering of BKCC.

Additionally, Mr. Gary was employed at Avenue Capital from January 2012 to July 2018. He started his career at PricewaterhouseCoopers as a senior auditor from September 1984 to June 1987 and later as a senior analyst at Citigroup (NYSE: C) from July 1987 to July 1988. From August 1988 to December 2002, Mr. Gary was an investment banker at Mesirow Financial. From January 1993 to August 1996, he was a senior distressed analyst at Cargill, Inc. Mr. Gary has served as a Board Director and Chief Financial Officer of Fusion I since June 2020. Mr. Gary has served on the Board of Directors and as the Chief Financial Officer of Fusion Acquisition II Corp. since February 2021. Mr. Gary earned a Bachelor of Science in Accounting from Penn State University in 1984 and a Master of Business Administration in Finance and International Business from Northwestern University (Kellogg) in 1991. Mr. Gary is a Certified Public Accountant. We believe Mr. Gary's significant experience in the financial services industry and with M&A and SPAC transactions and service on numerous public company and private company boards of directors make him well qualified serve on our board of directors.

David Brosgol, one of our directors, is General Counsel of Voyager Digital, a crypto-asset trading platform for retail and institutional investors. Prior to joining Voyager Digital in February 2021, Mr. Brosgol worked with Anchorage, a crypto-native custodian and digital asset platform as a Manager and Advisor, from December 2019 to November 2020. From October 2017 to April 2019, he was a Founder, General Counsel and Chief Compliance Officer at Digital Asset Custody Company ("DACC"). Prior to its acquisition by Bakkt, DACC was a pioneer in the digital asset space providing institutional custody of digital assets. From June 2016 to October 2017, Mr. Brosgol was General Counsel and Managing Director at Maverick Capital, a multi-billion-dollar hedge fund manager. Mr. Brosgol earned a B.A. in Economics from Trinity College in 1990, an M.A. in Philosophy from the University of Essex in 1992 and a J.D. from the University of Virginia in 1995. We believe Mr. Brosgol's substantial experience in securities, digital assets and blockchain technology, investment management, finance and corporate governance make him well qualified to serve on our board of directors.

Victor Pascucci, III, one of our directors, has served as Managing Partner at Energy Capital Ventures, an early-stage venture capital fund focused on the energy sector, and an Advisory Partner at IA Capital, an early-stage venture capital fund focused on the insurance and fintech sector, each since January 2020. From January 2017 to January 2020, Mr. Pascucci was Managing Partner at Lightbank, an early stage venture capital firm where he led investments in Clearcover, Extend and Billtrim. From August 2016 to January 2017, he was Venture Partner and Investment Director at Munich Re | HSB Ventures, a Global 100 diversified insurance company where he led investments in insurtech. From September 2015 to August 2016, he was a Consultant and Advisor at Attraction Ventures LLC, a consulting practice to corporate venture capital programs and venture capital firms. From 2011 to September 2015, Mr. Pascucci was Head of Corporate Development of USAA, an integrated financial services company with a \$330M fintech and insurtech fund. Investments while at USAA included Coinbase, MX, ID.me, Prosper Marketplace, Cartera Commerce and TRUECar. Also at USAA, Mr. Pascucci held leadership positions in the General Counsel division and Enterprise Strategy & Transformation. In addition, since January 2019, he has served as an independent consultant, board member and advisor to entrepreneurs and venture backed companies, including Axio Global Inc., EnergyCX, Edmit, ID.me Inc, Leaplife, Clearcover and Paceline. Mr. Pascucci earned a B.A. in Communications from Bowling Green State University in 1992 and a J.D. from the University of Toledo College of Law. We believe Mr. Pascucci's substantial experience in venture capital, Fintech, insurtech, leading and structuring venture capital, joint venture and merger/acquisition transactions, corporate leadership and strategy and board advisory make him well qualified to serve on our board of directors.

William Ullman, one of our directors, is the Chief Executive Officer of Water Street Advisors LLC, a registered investment advisor. He is also the Founder and Chief Executive Officer of The Daily FinQ, a mobile application designed to help Americans become smarter about money and finance, since 2019. Mr. Ullman has been a board member of Van Eck Associates Corp., a New York based investment firm, since 2010. He also currently serves as a special advisor to FinTech Collective, a venture capital firm, a member of the board of directors of the Capital Returns Fund, since 2010, and a senior advisor to Berkshire Global, since 2020. From 2016 to 2018, Mr. Ullman served as Chief Commercial Officer of Orchard Platform and Chief Executive Officer of its broker-dealer subsidiary (Orchard Platform Markets LLC) prior to its sale to Kabbage in 2018. From 2006 to 2016, he was the founder of Right Wall Capital Management LLC, a firm focused on investing in the financial services

sector, including financial technology companies. From 2001 to 2006, Mr. Ullman was the Senior Managing Director, Global Clearing Services at Bear Stearns & Co., Inc. Mr. Ullman earned an A.B. in History from Princeton University in 1985 and an M.B.A. from the Anderson School at UCLA in 1989. We believe Mr. Ullman's substantial experience as an investment banker covering financial institutions, an operating executive, an investment manager, an advisor to financial technology start-ups and a board member make him well qualified to serve on our board of directors.

Number and Terms of Office of Officers and Directors

Our board of directors consists of five members is divided into three classes with only one class of directors being elected in each year, and with each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. In accordance with the NYSE corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on the NYSE. The term of office of the first class of directors, consisting of Mr. Brosgol, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Mr. Pasucci and Mr. Ullman, will expire at the second annual meeting of stockholders. The term of office of the third class of directors, consisting of Messrs. Singer and Gary, will expire at the third annual meeting of stockholders.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint officers as it deems appropriate pursuant to our amended and restated certificate of incorporation.

Director Independence

The rules of the NYSE require that a majority of our board of directors be independent within one year of our initial public offering. Our board of directors has determined that each of David Brosgol, Victor Pascucci, III and William Ullman are "independent directors" as defined in the NYSE rules and applicable SEC rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

Executive Officer and Director Compensation

None of our directors have received any cash compensation for services rendered to us. Commencing on the date that our securities are first listed on the NYSE through the earlier of consummation of our initial business combination and our liquidation, we will pay our sponsor \$10,000 per month for office space, secretarial and administrative services provided to or incurred by members of our management team. We will also set aside up to \$15,000 per month for services rendered to us by members of our management team, subject to approval by our board of directors, commencing on the date that our securities are first listed on through the earlier of consummation of our initial business combination and our liquidation. In addition, our sponsor, executive officers and directors, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations.

Our audit committee will review on a quarterly basis all payments that were made to our sponsor, executive officers or directors, or our or their affiliates. Any such payments prior to an initial business combination will be made from funds held outside the trust account. Other than quarterly audit committee review of such reimbursements, we do not expect to have any additional controls in place governing our reimbursement payments to our directors and executive officers for their out-of-pocket expenses incurred in connection with our activities on our behalf in connection with identifying and consummating an initial business combination. Other than these payments and reimbursements, no compensation of any kind, including finder's and consulting fees, will be paid by the company to our sponsor, executive officers and directors, or any of their respective affiliates, prior to completion of our initial business combination.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting or management fees from the combined company. All of these fees will be fully disclosed to stockholders, to the extent then known, in the proxy solicitation materials or tender offer materials furnished to our stockholders in connection with a proposed business combination. We have not established any limit on the amount of such fees that may be paid by the combined company to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed business combination, because the directors of the post-combination business will be responsible for determining executive officer and director compensation. Any compensation to be paid to our executive officers will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our executive officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management's motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our executive officers and directors that provide for benefits upon termination of employment.

Committees of the Board of Directors

Upon the effective date of the registration statement of which this prospectus forms a part, our board of directors will have three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee. Subject to phase-in rules, the rules of the NYSE and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors, and the rules of the NYSE require that the each of the compensation committee and nominating and corporate governance committee of a listed company be comprised solely of independent directors. The charter of each committee will be available on our website.

Audit Committee

We have established an audit committee of the board of directors. The members of our audit committee are David Brosgol, Victor Pascucci and William Ullman. Mr. Ullman serves as chairman of the audit committee.

Each member of the audit committee is financially literate and our board of directors has determined that Mr. Ullman qualifies as an "audit committee financial expert" as defined in applicable SEC rules.

We have adopted an audit committee charter, which details the principal functions of the audit committee, including:

- assisting board oversight of (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) our independent registered public accounting firm's qualifications and independence, and (4) the performance of our internal audit function and independent registered public accounting firm; the appointment, compensation, retention, replacement, and oversight of the work of the independent auditors and any other independent registered public accounting firm engaged by us;
- pre-approving all audit and non-audit services to be provided by the independent auditors or any other registered public accounting firm engaged by us, and establishing pre-approval policies and procedures; reviewing and discussing with the independent registered public accounting firm all relationships the auditors have with us in order to evaluate their continued independence;

- setting clear policies for audit partner rotation in compliance with applicable laws and regulations; obtaining and reviewing a report, at least annually, from the independent registered public accounting firm describing (1) the independent registered public accounting firm's internal quality-control procedures and (2) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues;
- meeting to review and discuss our annual audited financial statements and quarterly financial statements with management and the independent auditor, including reviewing our specific disclosures under "Management's Discussion and Analysis of Financial Condition and Results of Operations"; reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

We have established a compensation committee of the board of directors. The members of our compensation committee are David Brosgol, Victor Pascucci and William Ullman. Mr. Pascucci serves as chairman of the compensation committee.

We have adopted a compensation committee charter, which details the principal functions of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation evaluating our Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation;
- reviewing and making recommendations to our board of directors with respect to the compensation, and any incentive compensation and equity based plans that are subject to board approval of all of our other officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our officers and employees;
- producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

The charter also provides that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other advisor and will be directly responsible for the appointment, compensation and oversight of the work of any such advisor. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other advisor, the compensation committee will consider the independence of each such advisor, including the factors required by the NYSE and the SEC.

Nominating and Corporate Governance Committee

We have established a nominating and corporate governance committee of the board of directors. The members of our nominating and corporate governance committee are David Brosgol, Victor Pascucci and William Ullman. Mr. Brosgol serves as chairman of the nominating and corporate governance committee.

We have adopted a nominating and corporate governance committee charter, which details the purpose and responsibilities of the nominating and corporate governance committee, including:

- screening and reviewing individuals qualified to serve as directors, consistent with criteria approved by the board, and recommending to the board of directors candidates for nomination for election at the annual meeting of stockholders or to fill vacancies on the board of directors;
- developing and recommending to the board of directors and overseeing implementation of our corporate governance guidelines;
- coordinating and overseeing the annual self-evaluation of the board of directors, its committees, individual directors and management in the governance of the company; and
- reviewing on a regular basis our overall corporate governance and recommending improvements as and when necessary.

The charter provides that the nominating and corporate governance committee may, in its sole discretion, retain or obtain the advice of, and terminate, any search firm to be used to identify director candidates, and will be directly responsible for approving the search firm's fees and other retention terms.

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, the board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our stockholders. Prior to our initial business combination, holders of our public shares will not have the right to recommend director candidates for nomination to our board of directors.

Compensation Committee Interlocks and Insider Participation

None of our executive officers currently serves, and in the past year has not served, as a member of the compensation committee of any entity that has one or more executive officers serving on our board of directors.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics applicable to our directors, officers and employees. We have filed a copy of our form of the Code of Business Conduct and Ethics and our audit committee and compensation committee charters as exhibits to the registration statement of which this prospectus is a part. You will be able to review this document by accessing our public filings at the SEC's web site at www.sec.gov. In addition, a copy of the Code of Business Conduct and Ethics and the charters of the committees will be provided without charge upon request from us. See the section of this prospectus entitled "Where You Can Find Additional Information." If we make any amendments to our Code of Business Conduct and Ethics other than technical, administrative or other non-substantive amendments, or grant any waiver, including any implicit waiver, from a provision of the Code of Business Conduct and Ethics applicable to our principal executive officer, principal financial officer principal accounting officer or controller or persons performing similar functions requiring disclosure under applicable SEC or the NYSE rules, we will disclose the nature of such amendment or waiver on our website. The information included on our website is not incorporated by reference into this Form S-1 or in any other report or document we file with the SEC, and any references to our website are intended to be inactive textual references only.

Conflicts of Interest

In general, officers and directors of a corporation incorporated under the laws of the State of Delaware are required to present business opportunities to a corporation if:

- the corporation could financially undertake the opportunity;
- the opportunity is within the corporation's line of business; and
- it would not be fair to our company and its stockholders for the opportunity not to be brought to the attention of the corporation.

In addition, our sponsor and our officers and directors may sponsor or form other special purpose acquisition companies similar to ours or may pursue other business or investment ventures during the period in which we are seeking an initial business combination. In particular, Mr. Gary serves as Chief Financial Officer and Director of Fusion I, a special purpose acquisition company that completed its initial public offering in June 2020. Fusion I, like us, may pursue initial business combination targets in any businesses or industries and has until December 30, 2021, to do so (absent an extension in accordance with their charters). On February 11, 2021, Fusion I entered into an agreement and plan of merger with MoneyLion, pursuant to which, among other things, MoneyLion agreed to be acquired by Fusion I. Mr. Gary also serves as Chief Financial Officer and Director of Fusion II, a special purpose acquisition company that completed its initial public offering in March 2021. Fusion II, like us, may pursue initial business combination targets in any businesses or industries and has until March 2, 2023, to do so (absent an extension in accordance with their charters). Any such companies, including Fusion I and Fusion II, may present additional conflicts of interest in pursuing an acquisition target. However, we do not believe that any such potential conflicts would materially affect our ability to identify and pursue business combination opportunities or to complete our initial business combination.

Below is a table summarizing the entities to which our executive officers and directors currently have fiduciary duties or contractual obligations:

<u>Individual</u>	<u>Entity</u>	<u>Entity's Business</u>	<u>Affiliation</u>
Michael Singer	• Alternative Insight, LLC	• Investment Management	• Managing Partner
Jeffrey Gary	• Arca US Treasury Mutual Fund	• Asset Management	• Director
	• Fusion Acquisition Corp.	• Special Purpose Acquisition Corp.	• Chief Financial Officer and Director
	• Fusion Acquisition Corp. II	• Special Purpose Acquisition Corp.	• Chief Financial Officer and Director
David Brosgol	• Voyager Digital Ltd	• Crypto-asset Trading Platform	• General Counsel
Victor Pascucci, III	• Energy Capital Ventures	• Venture Capital	• Managing Partner
	• IA Capital	• Venture Capital	• Advisory Partner
	• Axio Global Inc.	• Cyber Risk Management	• CEO Advisor
	• EnergyCX	• Advisory Firm	• Board Member and Management Advisor
	• Edmit	• Financial Advisor	• CEO Advisor
	• ID.me Inc	• Identity Credential Manager	• Board Member
	• LeapLife	• Life Insurance	• CEO Advisor
	• Clearcover	• Automobile Insurance	• Independent Consultant
	• Paceline	• Wellness and Financial Solutions	• CEO Advisor
William Ullman	• Water Street Advisors	• Investor Advisor	• Chief Executive Officer
	• The Daily FinQ	• Mobile Finance Application	• Founder and Chief Executive Officer
	• Van Eck Associates Corp.	• Investment Management	• Board Member
	• FinTech Collective	• Venture Capital	• Special Advisor
	• Capital Returns Fund	• Investment Fund	• Board Member
	• Berkshire Global	• Financial Services	• Senior Advisor
	• Jewel LLC	• Digital Assets Banking	• Advisory Board Member
	• Total Network Services	• Fintech	• Advisor
	• DealBox	• Fintech	• Advisor
	• Tokenplace	• Fintech	• Advisor

Potential investors should also be aware of the following other potential conflicts of interest:

- Our executive officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time

employees prior to the completion of our initial business combination. Each of our executive officers is engaged in several other business endeavors for which he may be entitled to substantial compensation, and our executive officers are not obligated to contribute any specific number of hours per week to our affairs.

- Our initial stockholders purchased founder shares prior to the date of this prospectus and will purchase private placement warrants in a transaction that will close simultaneously with the closing of this offering. Our initial stockholders have entered into agreements with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares they hold in connection with the completion of our initial business combination. The other members of our management team have entered into agreements similar to the one entered into by our initial stockholders with respect to any public shares acquired by them in or after this offering. Additionally, our initial stockholders have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within the prescribed time frame or any extended period of time that we may have to consummate an initial business combination as a result of an amendment to our amended and restated certificate of incorporation. If we do not complete our initial business combination within the prescribed time frame, the private placement warrants will expire worthless. Furthermore, our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (i) one year after the completion of our initial business combination and (ii) the date following the completion of our initial business combination on which we complete a liquidation, merger, capital stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their common stock for cash, securities or other property. Notwithstanding the foregoing, if the closing price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the founder shares will be released from the lockup. Subject to certain limited exceptions, the private placement warrants will not be transferable until 30 days following the completion of our initial business combination. Because each of our executive officers and directors will own common stock or warrants directly or indirectly, they may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.
- Our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our sponsor, officers or directors or completing the business combination through a joint venture or other form of shared ownership with our sponsor, officers or directors. In the event we seek to complete our initial business combination with an business combination target that is affiliated with our sponsor, executive officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking which is a member of FINRA or a valuation or appraisal firm, that such initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context. Furthermore, in no event will our sponsor or any of our existing officers or directors, or any of their respective affiliates, be paid by the company any finder's fee, consulting fee or other compensation prior to, or for any services they render in order to effectuate, the completion of our initial business combination. Further, commencing on the date our securities are first listed on the NYSE, we will also pay our sponsor \$10,000 per month for office space, secretarial and administrative services provided to or incurred by members of our management team.

We cannot assure you that any of the above mentioned conflicts will be resolved in our favor.

In the event that we submit our initial business combination to our public stockholders for a vote, our initial stockholders have agreed to vote their founder shares, and they and the other members of our management team

have agreed to vote any founder shares they hold and any shares purchased during or after the offering in favor of our initial business combination.

Limitation on Liability and Indemnification of Officers and Directors

Our amended and restated certificate of incorporation will provide that our officers and directors will be indemnified by us to the fullest extent authorized by Delaware law, as it now exists or may in the future be amended. In addition, our amended and restated certificate of incorporation will provide that our directors will not be personally liable for monetary damages to us or our stockholders for breaches of their fiduciary duty as directors, unless they violated their duty of loyalty to us or our stockholders, acted in bad faith, knowingly or intentionally violated the law, authorized unlawful payments of dividends, unlawful stock purchases or unlawful redemptions, or derived an improper personal benefit from their actions as directors.

We will enter into agreements with our officers and directors to provide contractual indemnification in addition to the indemnification provided for in our amended and restated certificate of incorporation. Our bylaws also will permit us to secure insurance on behalf of any officer, director or employee for any liability arising out of his or her actions, regardless of whether Delaware law would permit such indemnification. We will purchase a policy of directors' and officers' liability insurance that insures our officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our officers and directors. Except with respect to any public shares they may acquire in this offering or thereafter (in the event we do not consummate an initial business combination), our officers and directors have agreed to waive (and any other persons who may become an officer or director prior to the initial business combination will also be required to waive) any right, title, interest or claim of any kind in or to any monies in the trust account, and not to seek recourse against the trust account for any reason whatsoever, including with respect to such indemnification.

These provisions may discourage stockholders from bringing a lawsuit against our directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against officers and directors pursuant to these indemnification provisions.

We believe that these provisions, the directors' and officers' liability insurance and the indemnity agreements are necessary to attract and retain talented and experienced officers and directors.

PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our common stock as of the date of this prospectus, and as adjusted to reflect the sale of our Class A common stock included in the units offered by this prospectus, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;
- each of our executive officers and directors; and
- all our executive officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all of our common stock beneficially owned by them. The following table does not reflect record or beneficial ownership of the private placement warrants as these warrants are not exercisable within 60 days of the date of this prospectus.

On May 5, 2021 our sponsor paid \$25,000 to cover certain of our offering costs in exchange for 6,181,250 founder shares, or approximately \$0.004 per share. On July 29, 2021, we effected a 1:1.1162791 stock split of our Class B common stock, resulting in our sponsor holding an aggregate of 6,900,000 founder shares. Prior to the initial investment in the company of \$25,000 by the sponsor, the Company had no assets, tangible or intangible. The purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the number of founder shares issued. The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 27,600,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Up to 900,000 of the founder shares will be forfeited depending on the extent to which the underwriters' over-allotment is exercised. The post-offering percentages in the following table assume that the underwriters do not exercise their over-allotment option, that our initial stockholders have forfeited 900,000 founder shares, and that there are 30,000,000 shares of common stock issued and outstanding after this offering.

<u>Name and Address of Beneficial Owner⁽¹⁾</u>	<u>Number of Shares Beneficially Owned⁽²⁾⁽⁴⁾</u>	<u>Approximate Percentage of Outstanding Common Stock</u>	
		<u>Before Offering</u>	<u>After Offering</u>
Insight Acquisition Sponsor LLC (our sponsor) ⁽³⁾⁽⁴⁾	6,900,000	100.0%	20.0%
Michael Singer ⁽³⁾⁽⁴⁾	6,900,000	100.0%	20.0%
Jeffrey Gary ⁽³⁾⁽⁴⁾	6,900,000	100.0%	20.0%
David Brosgol ⁽³⁾	—	—	—
Victor Pascucci, III ⁽³⁾	—	—	—
William Ullman ⁽³⁾	—	—	—
All executive officers and directors as a group (5 individuals)	6,900,000	100.0%	20.0%

* Less than one percent.

- (1) Unless otherwise noted, the business address of each of the following is 333 East 91st Street, New York, New York 10128.
- (2) Interests shown consist solely of founder shares, classified as Class B common stock. Such shares will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of our initial business combination on a one-for-one basis, subject to adjustment, as described in the section entitled "Description of Securities."
- (3) Insight Acquisition Sponsor LLC is the record holder of the shares reported herein. Each of our officers and directors are among the members of Insight Acquisition Sponsor LLC. Michael Singer and Jeffrey Gary are the managing members of Insight Acquisition Sponsor LLC. Each of Mr. Singer and Mr. Gary has voting

and investment discretion with respect to the common stock held of record by Insight Acquisition Sponsor LLC. Each of our officers and directors other than Mr. Singer and Mr. Gary disclaims any beneficial ownership of any shares held by Insight Acquisition Sponsor LLC.

- (4) Includes up to 900,000 founder shares that will be forfeited depending on the extent to which the underwriters' over-allotment option is exercised.

Immediately after this offering, our initial stockholders will beneficially own 20.0% of the then issued and outstanding common stock (assuming they do not purchase any units in this offering). Because of this ownership block, our initial stockholders may be able to effectively influence the outcome of all other matters requiring approval by our stockholders, including amendments to our amended and restated certificate of incorporation and approval of significant corporate transactions including our initial business combination.

Our sponsor and the underwriters have committed, pursuant to written agreements, to purchase an aggregate of 8,700,000 private placement warrants, at a price of \$1.00 per warrant, or \$8,700,000 in the aggregate, in a private placement that will occur simultaneously with the closing of this offering. Of those 8,700,000 private placement warrants, our sponsor has agreed to purchase 7,500,000 private placement warrants and Cantor and Odeon have agreed to purchase 1,200,000 private placement warrants in the aggregate. Each private placement warrant entitles the holder to purchase one share of Class A common stock at \$11.50 per share. A portion of the purchase price of the private placement warrants will be added to the proceeds from this offering to be held in the trust account such that at the time of closing of this offering \$241,200,000 (or \$277,380,000 if the underwriters exercise their over-allotment option in full) will be held in the trust account. If we do not complete our initial business combination within 18 months from the closing of this offering, the private placement warrants will expire worthless. The private placement warrants are subject to the transfer restrictions described below. The private placement warrants will not be redeemable by us so long as they are held by the initial purchasers or their permitted transferees. The initial purchasers, or their permitted transferees, have the option to exercise the private placement warrants on a cashless basis. If the private placement warrants are held by holders other than initial purchasers or their permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering. Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering.

Insight Acquisition Sponsor LLC, our sponsor, and our executive officers and directors are deemed to be our "promoters" as such term is defined under the federal securities laws.

Expression of Interest

Up to 13 anchor investors have each expressed to us an interest in purchasing up to 2,376,000 units in this offering at the offering price of \$10.00 per unit, and such allocations will be determined by the underwriters.

Pursuant to such units, the anchor investors have not been granted any stockholder or other rights in addition to those afforded to our other public stockholders. Further, the anchor investors are not required to (i) hold any units, shares of Class A common stock or warrants they may purchase in this offering or thereafter for any amount of time, (ii) vote any shares of Class A common stock they may own at the applicable time in favor of our initial business combination or (iii) refrain from exercising their right to redeem their public shares at the time of our initial business combination. The anchor investors will have the same rights to the funds held in the trust account with respect to the shares of Class A common stock underlying the units they may purchase in this offering as the rights afforded to our other public stockholders.

There can be no assurance that the anchor investors will acquire any units in this offering, or as to the amount of such units the anchor investors will retain, if any, prior to or upon the consummation of our initial business combination. There is also no guarantee that all 13 anchor investors will participate in the offering. In the event that the anchor investors purchase all of the units that they have expressed an interest in purchasing in this

offering, hold all such units until prior to consummation of our initial business combination and vote their public shares in favor of our initial business combination, in addition to the founder shares, no affirmative votes from other public stockholders would be required to approve our initial business combination. The anchor investors are not required to vote any of their public shares in favor of our initial business combination or for or against any other matter presented for a stockholder vote.

Each anchor investor has entered into separate investment agreements with us and our sponsor pursuant to which each anchor investor agreed to purchase 75,000 or 150,000 founder shares, as the case may be, or an aggregate of 2,376,000 founder shares, from our sponsor at the closing of this offering, subject to such anchor investor's acquisition of 100% of the units allocated to it by the underwriters in this offering. Pursuant to the investment agreements, the anchor investors have agreed to (a) vote any founder shares held by them in favor of our initial business combination and (b) subject any founder shares held by them to the same lock-up restrictions as the founder shares held by our sponsor and independent directors.

Transfers of Founder Shares and Private Placement Warrants

The founder shares, private placement warrants and any shares of Class A common stock issued upon conversion or exercise thereof are each subject to transfer restrictions (other than the founder shares that may be transferred to the anchor investors, which are subject to transfer restrictions pursuant to an investment agreement) pursuant to lock-up provisions in the agreements entered into by our initial stockholders and management team. Those lock-up provisions provide that such securities are not transferable or salable (i) in the case of the founder shares, until the earlier of (A) one year after the completion of our initial business combination or earlier if, subsequent to our initial business combination, the closing price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination and (B) the date following the completion of our initial business combination on which we complete a liquidation, merger, capital stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property and (ii) in the case of the private placement warrants and the respective shares of Class A common stock underlying such warrants, until 30 days after the completion of our initial business combination except in each case (a) to our officers or directors or those of the underwriters, any affiliate or family member of any of our officers or directors or those of the underwriters, any affiliate of our sponsor, or an underwriter, or to any member of the sponsor, or an underwriter, or any of their respective affiliates, (b) in the case of an individual, as a gift to such person's immediate family or to a trust, the beneficiary of which is a member of such person's immediate family, an affiliate of such person or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of such person; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with any forward purchase agreement or similar arrangement or in connection with the consummation of a business combination at prices no greater than the price at which the shares or warrants were originally purchased; (f) by virtue of the laws of the State of Delaware or our Sponsor's limited liability company agreement upon dissolution of our Sponsor or the respective organizational documents of each of the underwriters, (g) in the event of our liquidation prior to our consummation of our initial business combination; or (h) in the event that, subsequent to our consummation of an initial business combination, we complete a liquidation, merger, capital stock exchange or other similar transaction which results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property; provided, however, that in the case of clauses (a) through (f) these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions and the other restrictions contained in the letter agreement.

Registration Rights

The holders of the (i) founder shares, which were issued in a private placement prior to the closing of this offering, (ii) private placement warrants, which will be issued in a private placement simultaneously with the

closing of this offering and the shares of Class A common stock underlying such private placement warrants and (iii) private placement warrants that may be issued upon conversion of working capital loans will have registration rights to require us to register a sale of any of our securities held by them pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering. Pursuant to the registration rights agreement and assuming the underwriters exercise their over-allotment option in full and \$1,500,000 of working capital loans are converted into private placement warrants, we will be obligated to register up to 16,200,000 shares of Class A common stock and 10,200,000 warrants. The number of shares of Class A common stock includes (i) 6,000,000 shares of Class A common stock to be issued upon conversion of the founder shares, (ii) 8,700,000 shares of Class A common stock underlying the private placement warrants and (iii) 1,500,000 shares of Class A common stock underlying the private placement warrants issued upon conversion of working capital loans. The number of warrants includes 8,700,000 private placement warrants and 1,500,000 private placement warrants issued upon conversion of working capital loans. The holders of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements. Notwithstanding the foregoing, the underwriters may not exercise their demand and “piggyback” registration rights after five and seven years after the effective date of the registration statement of which this prospectus forms a part and may not exercise their demand rights on more than one occasion.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

On May 5, 2021, our sponsor paid \$25,000 to cover certain of our offering costs in exchange for 6,181,250 founder shares, or approximately \$0.004 per share. On July 29, 2021, we effected a 1:1.1162791 stock split of our Class B common stock, resulting in our sponsor holding an aggregate of 6,900,000 founder shares. The number of founder shares outstanding was determined based on the expectation that the total size of this offering would be a maximum of 27,600,000 units if the underwriters' over-allotment option is exercised in full, and therefore that such founder shares would represent 20% of the outstanding shares after this offering. Up to 900,000 of the founder shares will be forfeited depending on the extent to which the underwriters' over-allotment is exercised.

Our sponsor and the underwriters have committed, pursuant to a written agreement, to purchase an aggregate of 8,700,000 private placement warrants, at a price of \$1.00 per warrant, or \$8,700,000 in the aggregate, in a private placement that will close simultaneously with the closing of this offering. Of those 8,700,000 private placement warrants, our sponsor has agreed to purchase 7,500,000 private placement warrants and Cantor and Odeon have agreed to purchase 1,200,000 private placement warrants in the aggregate. Each private placement warrant entitles the holder to purchase one share of Class A common stock at \$11.50 per share. The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold until 30 days after the completion of our initial business combination.

We currently utilize office space at 333 East 91st Street, New York, New York 10128 from our sponsor. Subsequent to the closing of this offering, we will pay our sponsor \$10,000 per month for office space, secretarial and administrative services provided to members of our management team. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Except as otherwise disclosed in this prospectus, no compensation of any kind, including finder's and consulting fees, will be paid by the company to our sponsor, executive officers and directors, or any of their respective affiliates, for services rendered prior to or in connection with the completion of an initial business combination. However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or their affiliates.

Prior to the closing of this offering, our sponsor may loan us funds to be used for a portion of the expenses of this offering. These loans would be non-interest bearing, unsecured and are due at the earlier of December 31, 2021 or the closing of this offering.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required on a non-interest basis. If we complete an initial business combination, we would repay such loaned amounts. In the event that the initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants. Except as set forth above, the terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our initial business combination, we do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

Any of the foregoing payments to our sponsor, repayments of loans from our sponsor or repayments of working capital loans prior to our initial business combination will be made using funds held outside the trust account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully

disclosed to our stockholders, to the extent then known, in the proxy solicitation or tender offer materials, as applicable, furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a stockholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We have entered into a registration rights agreement with respect to the founder shares and private placement warrants, which is described under the heading “Principal Stockholders — Registration Rights.”

Policy for Approval of Related Party Transactions

The audit committee of our board of directors will adopt a policy setting forth the policies and procedures for its review and approval or ratification of “related party transactions.” A “related party transaction” is any consummated or proposed transaction or series of transactions: (i) in which the company was or is to be a participant; (ii) the amount of which exceeds (or is reasonably expected to exceed) the lesser of \$120,000 or 1% of the average of the company’s total assets at year end for the prior two completed fiscal years in the aggregate over the duration of the transaction (without regard to profit or loss); and (iii) in which a “related party” had, has or will have a direct or indirect material interest. “Related parties” under this policy will include: (i) our directors or executive officers; (ii) any record or beneficial owner of more than 5% of any class of our voting securities; (iii) any immediate family member of any of the foregoing if the foregoing person is a natural person; and (iv) any other person who maybe a “related person” pursuant to Item 404 of Regulation S-K under the Exchange Act. Pursuant to the policy, the audit committee will consider (i) the relevant facts and circumstances of each related party transaction, including if the transaction is on terms comparable to those that could be obtained in arm’s-length dealings with an unrelated third party, (ii) the extent of the related party’s interest in the transaction, (iii) whether the transaction contravenes our code of ethics or other policies, (iv) whether the audit committee believes the relationship underlying the transaction to be in the best interests of the company and its stockholders and (v) the effect that the transaction may have on a director’s status as an independent member of the board and on his or her eligibility to serve on the board’s committees. Management will present to the audit committee each proposed related party transaction, including all relevant facts and circumstances relating thereto. Under the policy, we may consummate related party transactions only if our audit committee approves or ratifies the transaction in accordance with the guidelines set forth in the policy. The policy will not permit any director or executive officer to participate in the discussion of, or decision concerning, a related person transaction in which he or she is the related party.

DESCRIPTION OF SECURITIES

We are a Delaware corporation and our affairs are governed by our amended and restated certificate of incorporation and the DGCL. Pursuant to our amended and restated certificate of incorporation which will be adopted prior to the consummation of this offering, we will be authorized to issue 220,000,000 shares of common stock, \$0.0001 par value each, including 200,000,000 shares of Class A common stock and 20,000,000 shares of Class B common stock, as well as 1,000,000 shares of preferred stock, \$0.0001 par value each. The following description summarizes certain terms of our capital stock as set out more particularly in our amended and restated certificate of incorporation. Because it is only a summary, it may not contain all the information that is important to you.

Units

Each unit has an offering price of \$10.00 and consists of one share of Class A common stock and one-half of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of the shares of Company's Class A common stock. This means only a whole warrant may be exercised at any given time by a warrant holder. For example, if a warrant holder holds one-half of one warrant to purchase a share of Class A common stock, such warrant will not be exercisable. If a warrant holder holds two halves, such whole warrant will be exercisable for one share of Class A common stock at a price of \$11.50 per share. The Class A common stock and warrants comprising the units are expected to begin separate trading on the 52nd day following the date of this prospectus unless Cantor informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into Class A common stock and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant.

In no event will the Class A common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds at closing of this offering. We will file a Current Report on Form 8-K which includes this audited balance sheet promptly after the completion of this offering, which closing is anticipated to take place three business days after the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

Common Stock

Prior to the date of this prospectus, there were 6,900,000 shares of Class B common stock outstanding, all of which were held of record by our initial stockholders, so that our initial stockholders will own 20% of our issued and outstanding shares after this offering (assuming our initial stockholders do not purchase any units in this offering). Up to 900,000 of the founder shares will be forfeited by our initial stockholders depending on the extent to which the underwriters' over-allotment is exercised. Upon the closing of this offering, 30,000,000 of our shares of common stock will be outstanding (assuming no exercise of the underwriters' over-allotment option and the corresponding forfeiture of 900,000 founder shares by our initial stockholders) including:

- 24,000,000 shares of Class A common stock underlying units issued as part of this offering; and
- 6,000,000 shares of Class B common stock held by our initial stockholders.

Stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Holders of Class A common stock and holders of Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders except as required by law. Unless specified in our amended and restated certificate of incorporation, or as required by applicable provisions of the DGCL or applicable stock exchange rules, the affirmative vote of a majority of our shares of common stock that are voted is required to approve any such matter voted on by our stockholders. Our board of directors is divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares voted for the election of directors can elect all of the directors. Our stockholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor.

Because our amended and restated certificate of incorporation authorizes the issuance of up to 200,000,000 shares of Class A common stock, if we were to enter into a business combination, we may (depending on the terms of such a business combination) be required to increase the number of shares of Class A common stock which we are authorized to issue at the same time as our stockholders vote on the business combination to the extent we seek stockholder approval in connection with our initial business combination. Our board of directors is divided into three classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term.

In accordance with the NYSE corporate governance requirements, we are not required to hold an annual meeting until no later than one year after our first fiscal year end following our listing on the NYSE. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws, unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account calculated as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our initial stockholders, sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and public shares they hold in connection with the completion of our initial business combination. The anchor investors will not be entitled to redemption rights with respect to any founder shares held by them in connection with the completion of our business combination. Unlike many special purpose acquisition companies that hold stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by law, if a stockholder vote is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated certificate of incorporation requires these tender offer documents to contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, we will, like many special purpose acquisition companies, offer to redeem shares in conjunction

with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the shares of common stock voted are voted in favor of our initial business combination. However, the participation of our sponsor, officers, directors, advisors or their affiliates in privately-negotiated transactions (as described in this prospectus), if any, could result in the approval of our initial business combination even if a majority of our public stockholders vote, or indicate their intention to vote, against such initial business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to Excess Shares, without our prior consent. However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our stockholders’ inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such stockholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such stockholders will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And, as a result, such stockholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their shares in open market transactions, potentially at a loss.

If we seek stockholder approval in connection with our initial business combination, our initial stockholders, sponsor, officers and directors have agreed to vote any founder shares they hold and any public shares purchased during or after this offering, and the anchor investors have agreed to vote any founder shares held by them, in favor of our initial business combination. As a result, in addition to our initial stockholders’ founder shares, we would need 9,000,001, or 37.5%, of the 24,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming all outstanding shares are voted and the over-allotment option is not exercised, or 1,500,000, or 6.25%, of the 24,000,000 public shares sold in this offering to be voted in favor of an initial business combination in order to have our initial business combination approved (assuming only the minimum number of shares are voted and the over allotment option is not exercised). Additionally, each public stockholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction.

Pursuant to our amended and restated certificate of incorporation, if we are unable to complete our initial business combination within 18 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Our initial stockholders have entered into agreements with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 18 months from the closing of this offering or any extended period of time that we may have to consummate an initial business combination as a result of an amendment to our amended and restated certificate of incorporation. However, if our initial stockholders, management team or anchor investors acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the company after a business combination, our stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of shares, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that we will provide our public stockholders with the opportunity to redeem their public shares for cash at a per share price equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, upon the completion of our initial business combination, subject to the limitations described herein.

Founder Shares

The founder shares are designated as Class B common stock and, except as described below, are identical to the shares of Class A common stock included in the units being sold in this offering, and holders of founder shares have the same stockholder rights as public stockholders, except that (i) the founder shares are subject to certain transfer restrictions, as described in more detail below, (ii) our initial stockholders, sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to any founder shares and public shares they hold in connection with the completion of our initial business combination, (B) to waive their redemption rights with respect to any founder shares and public shares they hold in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 18 months from the closing of this offering or with respect to any other material provisions relating to stockholders' rights or pre-initial business combination activity and (C) to waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold if we fail to complete our initial business combination within 18 months from the closing of this offering or any extended period of time that we may have to consummate an initial business combination as a result of an amendment to our amended and restated certificate of incorporation, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within such time period, (iii) the anchor investors will not be entitled to (A) redemption rights with respect to any founder shares held by them in connection with the completion of our business combination, (B) redemption rights with respect to any founder shares held by them in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation that would affect the substance or timing of our obligation to redeem 100% of our public shares if we have not consummated an initial business combination within 18 months from the closing of this offering or (C) rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our business combination within 18 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our business combination within such time period, and (iv) the founder shares are automatically convertible into Class A common stock concurrently with or immediately following the consummation of our initial business combination on a one-for-one basis, subject to adjustment as described herein and in our amended and restated certificate of incorporation. If we submit our initial business combination to our public stockholders for a vote, our initial stockholders have agreed to vote their founder shares and any public shares purchased during or after this offering in favor of our initial business combination.

The founder shares will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of our initial business combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock or equity-linked securities are issued or deemed issued in connection with our initial business combination, the number of shares of Class A common stock issuable upon conversion of all founder shares will equal, in the aggregate, on an as-converted basis, 20% of the total number of shares of Class A common stock outstanding after such conversion (after giving effect to any redemptions of shares of Class A common stock by public stockholders), including the total number of shares of Class A common stock issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial business combination, excluding any shares of Class A common stock or equity-linked securities or rights exercisable for or convertible into

shares of Class A common stock issued, or to be issued, to any seller in the initial business combination and any private placement warrants issued to our sponsor, officers or directors upon conversion of working capital loans, provided that such conversion of founder shares will never occur on a less than one-for-one basis.

With certain limited exceptions, the founder shares are not transferable, assignable or salable (except to our officers and directors and other persons or entities affiliated with our sponsor, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of our initial business combination or earlier if, subsequent to our initial business combination, the closing price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, and (B) the date following the completion of our initial business combination on which we complete a liquidation, merger, capital stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their Class A common stock for cash, securities or other property. Up to 900,000 founder shares will be forfeited by our initial stockholders depending on the exercise of the over-allotment option.

Preferred Stock

Our amended and restated certificate of incorporation authorizes 1,000,000 shares of preferred stock and provides that shares of preferred stock may be issued from time to time in one or more series. Our board of directors will be authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our board of directors will be able to, without stockholder approval, issue shares of preferred stock with voting and other rights that could adversely affect the voting power and other rights of the holders of the common stock and could have anti-takeover effects. The ability of our board of directors to issue shares of preferred stock without stockholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no preferred shares outstanding at the date hereof. Although we do not currently intend to issue any shares of preferred stock, we cannot assure you that we will not do so in the future. No shares of preferred stock are being issued or registered in this offering.

Warrants

Public Stockholders' Warrants

Each whole warrant entitles the registered holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing 30 days following the completion of our initial business combination provided that we have an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the warrants and a current prospectus relating to them is available (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement) and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares of Class A common stock. This means only a whole warrant may be exercised at a given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We will not be obligated to deliver any Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration. No warrant will be exercisable and we will not be obligated to issue a share of Class A common stock upon exercise of a warrant unless the share of Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will we be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the share of Class A common stock underlying such unit.

We have agreed that as soon as practicable, but in no event later than fifteen (15) business days after the closing of our initial business combination, we will use our best efforts to file with the SEC a post-effective amendment to the registration statement of which this prospectus forms a part or a new registration statement covering the registration under the Securities Act of the shares of Class A common stock issuable upon exercise of the warrants and thereafter will use our best efforts to cause the same to become effective within 60 business days following our initial business combination and to maintain a current prospectus relating to the shares of Class A common stock issuable upon exercise of the warrants until the expiration of the warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants is not effective by the sixtieth (60th) business day after the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if our Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, and in the event we do not so elect, we will use our best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Redemption of warrants

Once the warrants become exercisable, we may call the warrants for redemption for cash:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days’ prior written notice of redemption (the “30-day redemption period”) to each warrant holder; and
- if, and only if, the closing price of the common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities for capital raising purposes in connection with the closing of our initial business combination as described elsewhere in this prospectus) for any 20 trading days within a 30-trading day period ending three business days before we send to the notice of redemption to the warrant holders.

If and when the warrants become redeemable by us for cash, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We have established the last of the redemption criterion discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise his, her or its warrant prior to the scheduled redemption date. However, the price of the Class A common stock may fall below the \$18.00 redemption trigger price (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like and for certain issuances of Class A common stock and equity-linked securities for capital raising purposes in connection with the closing of our initial business combination as described elsewhere in this prospectus) as well as the \$11.50 warrant exercise price after the redemption notice is issued.

If we call the warrants for redemption, our management will have the option to require any holder that wishes to exercise his, her or its warrant to do so on a “cashless basis.” In determining whether to require all holders to

exercise their warrants on a “cashless basis,” our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of our warrants. If our management takes advantage of this option, all holders of warrants would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of Class A common stock underlying the warrants, multiplied by the excess of the “fair market value” of our Class A common stock (defined below) over the exercise price of the warrants by (y) the fair market value. The “fair market value” will mean the average closing price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. If our management takes advantage of this option, the notice of redemption will contain the information necessary to calculate the number of shares of Class A common stock to be received upon exercise of the warrants, including the “fair market value” in such case. Requiring a cashless exercise in this manner will reduce the number of shares to be issued and thereby lessen the dilutive effect of a warrant redemption. We believe this feature is an attractive option to us if we do not need the cash from the exercise of the warrants after our initial business combination. If we call our warrants for redemption and our management does not take advantage of this option, the holders of the private placement warrants and their permitted transferees would still be entitled to exercise their private placement warrants for cash or on a cashless basis using the same formula described above that other warrant holders would have been required to use had all warrant holders been required to exercise their warrants on a cashless basis, as described in more detail below.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person’s affiliates), to the warrant agent’s actual knowledge, would beneficially own in excess of 4.9% or 9.8% (as specified by the holder) of the Class A common stock outstanding immediately after giving effect to such exercise.

If the number of outstanding shares of Class A common stock is increased by a share capitalization payable in shares of Class A common stock, or by a split-up of common stock or other similar event, then, on the effective date of such share capitalization, split-up or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding shares of common stock. A rights offering to holders of common stock entitling holders to purchase Class A common stock at a price less than the fair market value will be deemed a share capitalization of a number of shares of Class A common stock equal to the product of (i) the number of shares of Class A common stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A common stock) multiplied by (ii) one (1) minus the quotient of (x) the price per share of Class A common stock paid in such rights offering and divided by (y) the fair market value. For these purposes (i) if the rights offering is for securities convertible into or exercisable for shares of Class A common stock, in determining the price payable for Class A common stock, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) fair market value means the volume weighted average price of shares of Class A common stock as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the Class A common stock trades on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to the holders of Class A common stock on account of such Class A common stock (or other securities into which the warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends, (c) to satisfy the redemption rights of the holders of Class A common stock in connection with a proposed initial business combination, or (d) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each share of Class A common stock in respect of such event.

If the number of outstanding shares of Class A common stock is decreased by a consolidation, combination, reverse share split or reclassification of Class A common stock or other similar event, then, on the effective date of such consolidation, combination, reverse share split, reclassification or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding share of Class A common stock.

Whenever the number of shares of Class A common stock purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of shares of Class A common stock purchasable upon the exercise of the warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of shares of Class A common stock so purchasable immediately thereafter.

In addition, if (x) we issue additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our initial stockholders or their affiliates, without taking into account any founder shares held by our initial stockholders or such affiliates, as applicable, prior to such issuance), (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and (z) the volume weighted average trading price of our Class A common stock during the 20 trading day period starting on the trading day prior to the day on which we consummate our initial business combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described under “— Redemption of warrants” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

In case of any reclassification or reorganization of the outstanding Class A common stock (other than those described above or that solely affects the par value of such Class A common stock), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding Class A common stock), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the Class A common stock immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of Class A common stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. If less than 70% of the consideration receivable by the holders of Class A common stock in such a transaction is payable in the form of Class A common stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within thirty days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the Black-Scholes Warrant Value (as defined in the warrant agreement) of the warrant. The purpose of such exercise price reduction is to provide additional value to holders of the warrants when an extraordinary transaction occurs during the exercise period of the warrants pursuant to which the holders of the warrants otherwise do not receive the full potential value of the warrants.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be

amended without the consent of any holder to cure any ambiguity or correct any defective provision, and that all other modifications or amendments will require the vote or written consent of the holders of at least 50% of the then outstanding public warrants, and, solely with respect to any amendment to the terms of the private placement warrants, a majority of the then outstanding private placement warrants. You should review a copy of the warrant agreement, which will be filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of common stock and any voting rights until they exercise their warrants and receive Class A common stock. After the issuance of Class A common stock upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by stockholders.

No fractional shares will be issued upon exercise of the warrants. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of shares of Class A common stock to be issued to the warrant holder.

We have agreed that, subject to applicable law, any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and we irrevocably submit to such jurisdiction, which jurisdiction will be the exclusive forum for any such action, proceeding or claim. See “Risk Factors — Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company.” This provision applies to claims under the Securities Act but does not apply to claims under the Exchange Act or any claim for which the federal district courts of the United States of America are the sole and exclusive forum.

Private Placement Warrants

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except, among other limited exceptions as described under “Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants,” to our officers and directors and other persons or entities affiliated with the initial purchasers of the private placement warrants) and they will not be redeemable by us so long as they are held by the initial stockholders or their permitted transferees. The initial purchasers, or their permitted transferees, have the option to exercise the private placement warrants on a cashless basis. Except as described in this section, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering. If the private placement warrants are held by holders other than the initial purchasers or their permitted transferees, the private placement warrants will be redeemable by us for cash and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

If holders of the private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering his, her or its warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the excess of the “fair market value” of our Class A common stock (defined below) over the exercise price of the warrants by (y) the fair market value. The “fair market value” will mean the average closing price of the Class A common stock for the 10 trading days ending on the third trading day prior

to the date on which the notice of warrant exercise is sent to the warrant agent. The reason that we have agreed that these warrants will be exercisable on a cashless basis so long as they are held by the initial purchasers or their permitted transferees is because it is not known at this time whether they will be affiliated with us following a business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could exercise their warrants and sell the shares of Class A common stock received upon such exercise freely in the open market in order to recoup the cost of such exercise, the insiders could be significantly restricted from selling such securities. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

In order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. Up to \$1,500,000 of such loans may be convertible into warrants of the post business combination entity at a price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants.

Our initial stockholders and the underwriters have agreed not to transfer, assign or sell any of the private placement warrants (including the Class A common stock issuable upon exercise of any of these warrants) until the date that is 30 days after the date we complete our initial business combination, except that, among other limited exceptions as described under “Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants,” transfers can be made to our officers and directors and other persons or entities affiliated with the sponsor or the underwriters.

In addition, for as long as the private placement warrants are held by Cantor or Odeon or their respective designees or affiliates, they will be subject to the lock-up and registration rights limitations imposed by FINRA Rule 5110 and may not be exercised after five years from the commencement of sales of this offering.

Dividends

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of a business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of a business combination. The payment of any cash dividends subsequent to a business combination will be within the discretion of our board of directors at such time.

Our Transfer Agent and Warrant Agent

The transfer agent for our common stock and warrant agent for our warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its stockholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence or intentional misconduct of the indemnified person or entity. Continental Stock Transfer & Trust Company has agreed that it has no right of set-off or any right, title, interest or claim of any kind to, or to any monies in, the trust account, and has irrevocably waived any right, title, interest or claim of any kind to, or to any monies in, the trust account that it may have now or in the future. Accordingly, any indemnification provided will only be able to be satisfied, or a claim will only be able to be pursued, solely against us and our assets outside the trust account and not against the any monies in the trust account or interest earned thereon.

Amended and Restated Certificate of Incorporation

Our amended and restated certificate of incorporation will contain certain requirements and restrictions relating to this offering that will apply to us until the completion of our initial business combination. These provisions cannot be amended without the approval of the holders of 65% of our common stock. Our initial stockholders, who will collectively beneficially own 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), may participate in any vote to amend our amended and restated certificate of incorporation and will have the discretion to vote in any manner they choose. Specifically, our amended and restated certificate of incorporation provides, among other things, that:

- If we are unable to complete our initial business combination within 18 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, liquidate and dissolve, subject in each case to our obligations under Delaware law to provide for claims of creditors and in all cases subject to the requirements of other applicable law;
- Prior to our initial business combination, we may not issue additional securities that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote as a class with our public shares (a) on our initial business combination or (b) to approve an amendment to our amended and restated certificate of incorporation to (x) extend the time we have to consummate a business combination beyond 18 months from the closing of this offering or (y) amend the foregoing provisions;
- Although we do not intend to enter into a business combination with a target business that is affiliated with our sponsor, our directors or our executive officers, we are not prohibited from doing so. In the event we enter into such a transaction, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm which is a member of FINRA or a valuation or appraisal firm that such a business combination is fair to our company from a financial point of view;
- If a stockholder vote on our initial business combination is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act. Whether or not we maintain our registration under the Exchange Act or our listing on the NYSE, we will provide our public stockholders with the opportunity to redeem their public shares by one of the two methods listed above;
- So long as we obtain and maintain a listing for our securities on the NYSE, the NYSE rules require that we must not consummate an initial business combination with one or more operating businesses or assets with a fair market value of at least 80% of the assets held in the trust account (net of amounts disbursed to management for working capital purposes, if permitted, and excluding the amount of any deferred underwriting commissions) at the time of the agreement to enter into the initial business combination;
- If our stockholders approve an amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 18 months from the closing of this offering, or with respect to any other material provisions relating to stockholders' rights or pre-initial business

combination activity, we will provide our public stockholders with the opportunity to redeem all or a portion of their Class A common stock upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations described herein; and

- We will not effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In addition, our amended and restated certificate of incorporation provides that under no circumstances will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001.

Certain Anti-Takeover Provisions of Delaware Law and our Amended and Restated Certificate of Incorporation and Bylaws

We will be subject to the provisions of Section 203 of the DGCL regulating corporate takeovers upon completion of this offering. This statute prevents certain Delaware corporations, under certain circumstances, from engaging in a “business combination” with:

- a stockholder who owns 15% or more of our outstanding voting stock (otherwise known as an “interested stockholder”);
- an affiliate of an interested stockholder; or
- an associate of an interested stockholder, for three years following the date that the stockholder became an interested stockholder.

A “business combination” includes a merger or sale of more than 10% of our assets. However, the above provisions of Section 203 do not apply if:

- our board of directors approves the transaction that made the stockholder an “interested stockholder,” prior to the date of the transaction;
- after the completion of the transaction that resulted in the stockholder becoming an interested stockholder, that stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, other than statutorily excluded shares of common stock; or
- on or subsequent to the date of the transaction, the initial business combination is approved by our board of directors and authorized at a meeting of our stockholders, and not by written consent, by an affirmative vote of at least two-thirds of the outstanding voting stock not owned by the interested stockholder.

Our amended and restated certificate of incorporation will provide that our board of directors will be classified into three classes of directors. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual meetings.

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Exclusive forum for certain lawsuits

Our amended and restated certificate of incorporation will require, unless we consent in writing to the selection of an alternative forum, that (i) any derivative action or proceeding brought on our behalf, (ii) any action

asserting a claim of breach of a fiduciary duty owed by any director, officer or other employee to us or our stockholders, (iii) any action asserting a claim against us, our directors, officers or employees arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or bylaws, or (iv) any action asserting a claim against us, our directors, officers or employees governed by the internal affairs doctrine may be brought only in the Court of Chancery in the State of Delaware, except any claim (A) as to which the Court of Chancery of the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery or (C) for which the Court of Chancery does not have subject matter jurisdiction. If an action is brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, a court may determine that this provision is unenforceable, and to the extent it is enforceable, the provision may have the effect of discouraging lawsuits against our directors and officers, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder.

Notwithstanding the foregoing, our amended and restated certificate of incorporation will provide that the exclusive forum provision will not apply to suits brought to enforce a duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder.

Additionally, unless we consent in writing to the selection of an alternative forum, the federal courts shall be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act against us or any of our directors, officers, other employees or agents. Section 22 of the Securities Act, however, created concurrent jurisdiction for federal and state courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. Accordingly, there is uncertainty as to whether a court would enforce these exclusive forum provisions, and the enforceability of similar choice of forum provisions in other companies' charter documents has been challenged in legal proceedings. While the Delaware courts have determined that such exclusive forum provisions are facially valid, a stockholder may nevertheless seek to bring a claim in a venue other than those designated in the exclusive forum provisions, and there can be no assurance that such provisions will be enforced by a court in those other jurisdictions. Any person or entity purchasing or otherwise acquiring any interest in our securities shall be deemed to have notice of and consented to these provisions; however, we note that investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder.

Special meeting of stockholders

Our bylaws provide that special meetings of our stockholders may be called only by a majority vote of our board of directors, by our Chief Executive Officer or by our Non-Executive Chairman.

Advance notice requirements for stockholder proposals and director nominations

Our bylaws provide that stockholders seeking to bring business before our annual meeting of stockholders, or to nominate candidates for election as directors at our annual meeting of stockholders, must provide timely notice of their intent in writing. To be timely, a stockholder's notice will need to be received by the company secretary at our principal executive offices not later than the close of business on the 90th day nor earlier than the opening of business on the 120th day prior to the anniversary date of the immediately preceding annual meeting of stockholders. Pursuant to Rule 14a-8 of the Exchange Act, proposals seeking inclusion in our annual proxy statement must comply with the notice periods contained therein. Our bylaws also specify certain requirements as to the form and content of a stockholders' meeting. These provisions may preclude our stockholders from

bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders.

Action by written consent

Subsequent to the consummation of the offering, any action required or permitted to be taken by our common stockholders must be effected by a duly called annual or special meeting of such stockholders and may not be effected by written consent of the stockholders other than with respect to our Class B common stock.

Classified Board of Directors

Our board of directors will initially be divided into three classes, Class I, Class II and Class III, with members of each class serving staggered three-year terms. Our amended and restated certificate of incorporation will provide that the authorized number of directors may be changed only by resolution of the board of directors. Subject to the terms of any preferred stock, any or all of the directors may be removed from office at any time, but only for cause and only by the affirmative vote of holders of a majority of the voting power of all then outstanding shares of our capital stock entitled to vote generally in the election of directors, voting together as a single class. Any vacancy on our board of directors, including a vacancy resulting from an enlargement of our board of directors, may be filled only by vote of a majority of our directors then in office.

Class B Common Stock Consent Right

For so long as any shares of Class B common stock remain outstanding, we may not, without the prior vote or written consent of the holders of a majority of the shares of Class B common stock then outstanding, voting separately as a single class, amend, alter or repeal any provision of our certificate of incorporation, whether by merger, consolidation or otherwise, if such amendment, alteration or repeal would alter or change the powers, preferences or relative, participating, optional or other or special rights of the Class B common stock. Any action required or permitted to be taken at any meeting of the holders of Class B common stock may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of the outstanding Class B common stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of Class B common stock were present and voted.

Securities Eligible for Future Sale

Immediately after this offering we will have 30,000,000 (or 34,500,000 if the underwriters' over-allotment option is exercised in full) shares of common stock outstanding. Of these shares, the shares of Class A common stock sold in this offering (24,000,000 Class A common stock if the underwriters' over-allotment option is not exercised and 27,600,000 shares if the underwriters' over-allotment option is exercised in full) will be freely tradable without restriction or further registration under the Securities Act, except for any Class A common stock purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the outstanding founder shares (6,000,000 founder shares if the underwriters' over-allotment option is not exercised and 6,900,000 founder shares if the underwriters' over-allotment option is exercised in full) and all of the outstanding private placement warrants (8,700,000 warrants regardless of whether the underwriters' over-allotment option is exercised) will be restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering.

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted shares or warrants for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the

Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of shares of common stock then outstanding, which will equal 300,000 shares immediately after this offering (or 345,000 if the underwriters exercise in full their over-allotment option); or
- the average weekly reported trading volume of the Class A common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Form 8-K reports; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our initial stockholders will be able to sell their founder shares and private placement warrants, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

Registration Rights

The holders of the (i) founder shares, which were issued in a private placement prior to the closing of this offering, (ii) private placement warrants, which will be issued in a private placement simultaneously with the closing of this offering and the shares of Class A common stock underlying such private placement warrants and (iii) private placement warrants that may be issued upon conversion of working capital loans will have registration rights to require us to register a sale of any of our securities held by them pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering. Pursuant to the registration rights agreement and assuming the underwriters exercise their over-allotment option in full and \$1,500,000 of working capital loans are converted into private placement warrants, we will be obligated to register up to 16,200,000 shares of Class A common stock and 10,200,000 warrants. The number of shares of Class A common stock includes (i) 6,000,000 shares of Class A common stock to be issued upon conversion of the founder shares, (ii) 8,700,000 shares of Class A common stock underlying the private placement warrants and (iii) 1,500,000 shares of Class A common stock underlying the private placement warrants issued upon conversion of working

capital loans. The number of warrants includes 8,700,000 private placement warrants and 1,500,000 private placement warrants issued upon conversion of working capital loans. The holders of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

Notwithstanding the foregoing, the underwriters may not exercise their demand and “piggyback” registration rights after five and seven years after the effective date of the registration statement of which this prospectus forms a part and may not exercise their demand rights on more than one occasion.

Listing of Securities

We have been approved to list our units on the NYSE under the symbol “INAQ.U” commencing on or promptly after the date of this prospectus. Once the securities comprising the units begin separate trading, we expect that the Class A common stock and warrants will be listed on the NYSE under the symbols “INAQ” and “INAQ.WS,” respectively.

U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of certain U.S. federal income tax considerations to U.S. Holders and non-U.S. Holders (each as defined below) of the purchase, ownership and disposition of our units, Class A common stock and warrants, which we refer to collectively as our securities. Because the components of a unit are generally separable at the option of the holder within a short period of time after the date of this prospectus, the holder of a unit generally should be treated, for U.S. federal income tax purposes, as the owner of the underlying Class A common stock and warrant components of the unit. As a result, the discussion below of the U.S. federal income tax consequences with respect to actual holders of Class A common stock and warrants should also apply to holders of our units (as the deemed owners of the underlying Class A common stock and warrants that comprise the units).

This does not purport to be a complete analysis of all potential tax effects to holders of purchasing, owning or disposing our securities. This discussion does not address the potential application of the alternative minimum tax, the Medicare contribution tax and the effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax law. Holders should consult their own tax advisors as to these matters. This discussion is based on the Internal Revenue Code of 1986, as amended (the "Code"), final, temporary and proposed Treasury Regulations promulgated thereunder, judicial decisions and administrative pronouncements of the IRS, in effect as of the date of this offering. These authorities may change or be subject to differing interpretations. Any such change may be applied retroactively in a manner that could adversely affect a holder. We have not sought, and will not seek, any rulings from the IRS regarding the matters discussed below. There can be no assurance that the IRS will not take, or that a court will not uphold, a contrary position regarding the tax consequences of the purchase, ownership and disposition of our securities.

This discussion is limited to certain U.S. federal income tax considerations to beneficial owners of our securities who are initial purchasers of a unit pursuant to this offering and hold the unit and each component of the unit as a capital asset within the meaning of the Code. This discussion assumes that Class A common stock and warrants will trade separately and that any distributions made (or deemed made) by us on Class A common stock and any consideration received (or deemed received) by a holder in consideration for the sale or other disposition of our securities will be in U.S. dollars. This discussion does not address all U.S. federal income tax consequences relevant to a holder's particular circumstances. In addition, this discussion does not address consequences relevant to holders subject to special rules, including, without limitation:

- banks, insurance companies and other financial institutions;
- real estate investment trusts, regulated investment companies, and other entities treated as conduits for U.S. federal income tax purposes;
- brokers, dealers or traders in securities;
- persons who are subject to the mark-to-market accounting rules under Section 475 of the Code;
- "controlled foreign corporations," "passive foreign investment companies" and corporations that accumulate earnings to avoid U.S. federal income tax;
- partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes;
- tax-exempt organizations and governmental organizations or agencies;
- persons that acquired our securities pursuant to an exercise of employee share options, in connection with employee share incentive plans or otherwise as compensation;
- persons that actually or constructively own five percent or more (by vote or value) of our shares;
- tax-qualified retirement plans;

- “qualified foreign pension funds” as defined in Section 897(1)(2) of the Code and entities all of the interests of which are held by qualified foreign pension funds;
- U.S. expatriates and certain former citizens or long-term residents of the United States;
- U.S. Holders whose functional currency is not the U.S. dollar;
- our sponsor, founders, anchor investors, officers or directors;
- persons deemed to sell the our securities under the constructive sale provisions of the Code;
- persons for whom our securities constitute “qualified small business stock” within the meaning of Section 1202 of the Code;
- persons subject to special tax accounting rules as a result of any item of gross income with respect to the stock being taken into account in an “applicable financial statement” (as defined in the Code); and
- persons holding our securities as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment.

If a partnership (or other entity or arrangement classified as a partnership or a pass-through entity for U.S. federal income tax purposes) is the beneficial owner of our securities, the U.S. federal income tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships holding our securities and partners in such partnerships should consult their own tax advisors regarding the U.S. federal income tax consequences to them.

THIS DISCUSSION OF U.S. FEDERAL INCOME TAX CONSIDERATIONS IS FOR GENERAL INFORMATION PURPOSES ONLY AND IS NOT TAX ADVICE. WE URGE PROSPECTIVE HOLDERS TO CONSULT THEIR TAX ADVISORS CONCERNING THE U.S. FEDERAL INCOME TAX CONSEQUENCES TO THEM OF PURCHASING, OWNING AND DISPOSING OF OUR SECURITIES, AS WELL AS THE APPLICATION OF ANY U.S. FEDERAL NON-INCOME, STATE, LOCAL AND NON-U.S. TAX LAWS AND OTHER TAX CONSIDERATIONS.

Personal Holding Company Status

We would be subject to a second level of U.S. federal corporate income tax on a portion of our income if we are determined to be a personal holding company, or PHC, for U.S. federal income tax purposes. A U.S. corporation will generally be classified as a PHC for U.S. federal income tax purposes in a given taxable year if (1) at any time during the last half of such taxable year, five or fewer individuals (without regard to their citizenship or residency and including as individuals for this purpose certain entities such as certain tax-exempt organizations, pension funds, and charitable trusts) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of the stock of such corporation by value and (2) at least 60% of such corporation’s adjusted ordinary gross income, as determined for U.S. federal income tax purposes, for such taxable year consists of PHC income (which includes, among other things, dividends, interest, certain royalties, annuities and, under certain circumstances, rents).

This test applies on a year-by-year basis. Depending on the date and size of our initial business combination, it is possible that at least 60% of our adjusted ordinary gross income may consist of PHC income as discussed above. In addition, depending on the concentration of our stock in the hands of individuals, including the members of our sponsor and certain tax-exempt organizations, pension funds, and charitable trusts, it is possible that more than 50% of our stock will be owned or deemed owned (pursuant to the constructive ownership rules) by five or fewer such persons during the last half of a taxable year. Thus, no assurance can be given that we will not become a PHC in any given taxable year following this offering or in the future. If we are or were to become a PHC in a given taxable year, we would be subject to an additional PHC tax, currently 20%, on our undistributed PHC income, if any, for such taxable year, which generally includes our taxable income, subject to certain adjustments.

General Treatment of Units

There is no statutory, administrative or judicial authority directly addressing the treatment, for U.S. federal income tax purposes, of a unit or instruments similar to a unit and, therefore, its treatment is not entirely clear. The acquisition of a unit should be treated for U.S. federal income tax purposes as the acquisition of one share of our Class A common stock and one-half of one redeemable warrant to acquire one share of our Class A common stock. We intend to treat the acquisition of a unit in this manner, and by purchasing a unit in this offering, a holder agrees to adopt such treatment for U.S. federal income tax purposes. For U.S. federal income tax purposes, each holder of a unit must allocate the purchase price paid by such holder for such unit between the one share of Class A common stock and the one-half of one redeemable warrant based on the relative fair market value of each at the time of issuance. Under U.S. federal income tax law, each investor must make his or her own determination of such value based on all the relevant facts and circumstances. Therefore, we strongly urge each investor to consult his or her tax advisor regarding the determination of value for these purposes. The purchase price allocated to each share of Class A common stock and the one-half of one redeemable warrant should be such holder's tax basis in such share or one-half of one redeemable warrant, as the case may be. Any disposition of a unit should be treated for U.S. federal income tax purposes as a disposition of the share of Class A common stock and one-half of one redeemable warrant comprising the unit, and the amount realized on the disposition should be allocated between the Class A common stock and the one-half of one redeemable warrant based on their respective relative fair market values (as determined by each such unit holder on all the relevant facts and circumstances) at the time of disposition. The separation of the Class A common stock and warrant constituting a unit should not be a taxable event for U.S. federal income tax purposes.

The foregoing treatment of the units and a holder's purchase price allocation are not binding on the IRS or the courts. Because there is no authority that directly addresses instruments that are similar to the units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below. Each prospective investor is urged to consult its tax advisors regarding the U.S. federal, state, local and any non-U.S. tax consequences of and risks associated with an investment in a unit (including alternative characterizations of a unit and its components and allocation of the purchase price among the Class A common stock and the one-half of one warrant that comprise a unit). The following discussion is based on the assumption that the characterization of the Class A common stock and warrants and the allocation described above are respected for U.S. federal income tax purposes.

U.S. Holders

For purposes of this discussion, a "U.S. Holder" is any beneficial owner of our securities that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized under the laws of the United States, any state thereof, or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust that (i) is subject to the primary supervision of a U.S. court and the control of one or more U.S. persons (within the meaning of Section 7701(a)(30) of the Code), or (ii) has made a valid election under applicable Treasury Regulations to continue to be treated as a U.S. person.

If you are not a U.S. Holder, this section does not apply to you. Please see the discussion under "Non-U.S. Holders" below.

Taxation of Distributions

If we pay distributions in cash or other property (other than certain distributions of our stock or rights to acquire our stock) to U.S. Holders of shares of our Class A common stock, such distributions generally will constitute

dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a return of capital that will be applied against and reduce (but not below zero) the U.S. Holder's adjusted tax basis in our Class A common stock. Any remaining excess will be treated as gain realized on the sale or other disposition of the Class A common stock and will be treated as described under "U.S. Holders—Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock" below.

Dividends we pay to a U.S. Holder that is a taxable corporation generally will qualify for the dividends received deduction if the requisite holding period is satisfied. With certain exceptions (including, but not limited to, dividends treated as investment income for purposes of investment interest deduction limitations), and provided certain holding period requirements are met, dividends we pay to a non-corporate U.S. Holder will generally constitute "qualified dividend income" that will be subject to tax at preferential long-term capital gains rates. It is unclear whether the redemption rights with respect to the Class A common stock described in this prospectus may prevent a U.S. Holder from satisfying the applicable holding period requirements with respect to the dividends received deduction or the preferential tax rate on qualified dividend income, as the case may be. If the holding period requirements are not satisfied, then a corporation may not be able to qualify for the dividends received deduction and would have taxable income equal to the entire dividend amount, and non-corporate holders may be subject to tax on such dividend at regular ordinary income tax rates instead of the preferential rate that applies to qualified dividend income.

Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock

Subject to the discussion below regarding redemptions of Class A common stock, a U.S. Holder will recognize gain or loss on the sale, taxable exchange or other taxable disposition (which would generally include a redemption that is treated as a sale, as described below, including on our dissolution and liquidation in the event we do not complete an initial business combination within 18 months from the closing of this offering) of our Class A common stock. Any such gain or loss will be capital gain or loss, and will generally be long-term capital gain or loss if the U.S. Holder's holding period for the Class A common stock so disposed of exceeds one year. It is unclear, however, whether the redemption rights with respect to the Class A common stock described in this prospectus may suspend the running of the applicable holding period for this purpose. If the running of the holding period for the Class A common stock is suspended, then non-corporate U.S. Holders may not be able to satisfy the one-year holding period requirement for long-term capital gain treatment, in which case any gain on a sale or taxable disposition of the Class A common stock would be subject to short-term capital gain treatment and would be taxed at regular ordinary income tax rates. Long-term capital gains recognized by non-corporate U.S. Holders will generally be eligible to be taxed at reduced rates.

The amount of gain or loss recognized by a U.S. Holder will generally be equal to the difference between (1) the sum of the amount of cash and the fair market value of any property received in such disposition (or, if the Class A common stock is held as part of a unit at the time of the disposition, the portion of the amount realized on such disposition that is allocated to the Class A common stock based upon the then fair market values of the Class A common stock and the warrant included in the unit) and (2) the U.S. Holder's adjusted tax basis in its Class A common stock so disposed of. A U.S. Holder's adjusted tax basis in its Class A common stock will generally equal the U.S. Holder's acquisition cost (that is, as discussed above, the portion of the purchase price of a unit allocated to a share of Class A common stock or, as discussed below, the U.S. Holder's initial basis for Class A common stock received upon exercise of a warrant) less any prior distributions treated as a return of capital. The deductibility of capital losses is subject to limitations.

Redemption of Class A Common Stock

In the event that a U.S. Holder's Class A common stock is redeemed pursuant to the redemption provisions described in this prospectus under the section of this prospectus entitled "Description of Securities—Common

Stock” or if we purchase a U.S. Holder’s Class A common stock in an open market transaction (each of which we refer to as a “redemption”), the treatment of the transaction for U.S. federal income tax purposes will depend on whether the redemption qualifies as a sale of the Class A common stock under Section 302 of the Code. If the redemption qualifies as a sale of Class A common stock under the tests described below, the tax consequences to the U.S. Holder will be the same as described under “U.S. Holders—Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock” above. If the redemption does not qualify as a sale of Class A common stock, the U.S. Holder will be treated as receiving a corporate distribution, the tax consequences of which are described above under “U.S. Holders—Taxation of Distributions”. Whether the redemption qualifies for sale treatment will depend primarily on the total number of shares of our stock treated as held by the U.S. Holder (including any stock constructively owned by the U.S. Holder as a result of owning warrants) relative to all of our shares outstanding both before and after the redemption. The redemption of Class A common stock will generally be treated as a sale of the Class A common stock (rather than as a corporate distribution) if the redemption (1) is “substantially disproportionate” with respect to the U.S. Holder, (2) results in a “complete termination” of the U.S. Holder’s interest in us or (3) is “not essentially equivalent to a dividend” with respect to the U.S. Holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. Holder takes into account not only stock actually owned by the U.S. Holder, but also shares of our stock that are constructively owned by it. A U.S. Holder may constructively own, in addition to stock owned directly, stock owned by certain related individuals and entities in which the U.S. Holder has an interest or that have an interest in such U.S. Holder, as well as any stock the U.S. Holder has a right to acquire by exercise of an option, which would generally include Class A common stock which could be acquired pursuant to the exercise of the warrants. A redemption of a U.S. Holder’s stock will be substantially disproportionate with respect to the U.S. Holder if the percentage of our outstanding voting stock actually and constructively owned by the U.S. Holder immediately following the redemption of Class A common stock is, among other requirements, less than 80% of the percentage of our outstanding voting stock actually and constructively owned by the U.S. Holder immediately before the redemption. Prior to our initial business combination, the Class A common stock may not be treated as voting stock for this purpose and, consequently, this substantially disproportionate test may not be applicable. There will be a complete termination of a U.S. Holder’s interest if either (1) all of the shares of our stock actually and constructively owned by the U.S. Holder are redeemed or (2) all of the shares of our stock actually owned by the U.S. Holder are redeemed and the U.S. Holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of stock owned by certain family members and the U.S. Holder does not constructively own any other stock (including any stock constructively owned by the U.S. Holder as a result of owning warrants). The redemption of the Class A common stock will not be essentially equivalent to a dividend if the redemption results in a “meaningful reduction” of the U.S. Holder’s proportionate interest in us. Whether the redemption will result in a meaningful reduction in a U.S. Holder’s proportionate interest in us will depend on the particular facts and circumstances. The IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority stockholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a “meaningful reduction.”

If none of the foregoing tests is satisfied, the redemption will be treated as a corporate distribution, the tax consequences of which are described under “U.S. Holders—Taxation of Distributions,” above. After the application of those rules, any remaining tax basis of the U.S. Holder in the redeemed Class A common stock should be added to the U.S. Holder’s adjusted tax basis in its remaining stock, or, if it has none, to the U.S. Holder’s adjusted tax basis in its warrants or possibly in other stock constructively owned by it.

A U.S. Holder is urged to consult its tax advisors as to the tax consequences of a redemption, including the application of the constructive ownership rules and allocation of remaining tax basis described above.

Exercise of a Warrant

Except as discussed below with respect to the cashless exercise of a warrant, a U.S. Holder will not recognize taxable gain or loss upon the exercise of a warrant. The U.S. Holder’s tax basis in the share of our Class A

common stock received upon exercise of the warrant will generally be an amount equal to the sum of the U.S. Holder's initial investment in the warrant (i.e., the portion of the U.S. Holder's purchase price for a unit that is allocated to the warrant, as described above under "—General Treatment of Units") and the exercise price of such warrant. It is unclear whether a U.S. Holder's holding period for the Class A common stock would commence on the date of exercise of the warrant or the day following the date of exercise of the warrant; however, in either case the holding period will not include the period during which the U.S. Holder held the warrants.

The tax consequences of a cashless exercise of a warrant are not clear under current tax law. A cashless exercise may be nontaxable, either because the exercise is not a realization event or because the exercise is treated as a recapitalization for U.S. federal income tax purposes. In either situation, a U.S. Holder's tax basis in the Class A common stock received would generally equal the holder's tax basis in the warrant. If the cashless exercise were treated as not being a realization event, it is unclear when a U.S. Holder's holding period for the Class A common stock would commence. If, however, the cashless exercise were treated as a recapitalization, the holding period of the Class A common stock would include the holding period of the warrant.

It is also possible that a cashless exercise could be treated in whole or in part as a taxable exchange in which gain or loss would be recognized. In such event, a U.S. Holder could be deemed to have surrendered a number of warrants having an aggregate fair market value equal to the exercise price for the total number of warrants to be exercised. The U.S. Holder could recognize capital gain or loss in an amount equal to the difference between the fair market value of the warrants deemed surrendered and the U.S. Holder's tax basis in such warrants. Such gain or loss would be long-term or short-term depending on the U.S. Holder's holding period in the warrants deemed surrendered. In this case, a U.S. Holder's tax basis in the Class A common stock received would equal the sum of the U.S. Holder's initial investment in the warrants exercised (i.e., the portion of the U.S. Holder's purchase price for the units that is allocated to the warrants, as described above under "—General Treatment of Units") and the exercise price of such warrants. It is unclear whether a U.S. Holder's holding period for the Class A common stock would commence on the date of exercise of the warrant or the day following the date of exercise of the warrant; in either case, the holding period would not include the period during which the U.S. Holder held the warrant.

Due to the absence of authority on the U.S. federal income tax treatment of a cashless exercise, including when a U.S. Holder's holding period would commence with respect to the Class A common stock received, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. Holders are urged to consult their tax advisors regarding the tax consequences of a cashless exercise.

Sale, Exchange, Redemption, Expiration or Lapse of a Warrant

Upon a sale, exchange (other than by exercise), or redemption for cash of a warrant, a U.S. Holder will recognize taxable gain or loss in an amount equal to the difference between (1) the amount realized upon such disposition (or, if the warrant is held as part of a unit at the time of the disposition of the unit, the portion of the amount realized on such disposition that is allocated to the warrant based on the then fair market values of the warrant and the Class A common stock constituting such unit) and (2) the U.S. Holder's tax basis in the warrant (that is, the portion of the U.S. Holder's purchase price for a unit that is allocated to the warrant, as described above under "—General Treatment of Units"). Such gain or loss will generally be treated as long-term capital gain or loss if the warrant is held by the U.S. Holder for more than one year at the time of such disposition or expiration. If a warrant expires or is allowed to lapse unexercised, a U.S. Holder generally will recognize a capital loss equal to such holder's tax basis in the warrant. The deductibility of capital losses is subject to certain limitations.

If we give notice of an intention to redeem warrants for \$0.10 or \$0.01 as described in the section of this prospectus entitled "Description of Securities—Warrants—Public Stockholders' Warrants", and such warrants are exercised on a cashless basis as described in the section of this prospectus entitled "Description of

Securities—Warrants—Public Stockholders’ Warrants”, we intend to treat such exercise as a redemption of warrants for Class A common stock for U.S. federal income tax purposes. Such redemption should be treated as a recapitalization for U.S. federal income tax purposes. Accordingly, a U.S. Holder should not recognize any gain or loss on the redemption of warrants for shares of Class A common stock. A U.S. Holder’s aggregate tax basis in the shares of Class A common stock received in the redemption generally should equal the U.S. Holder’s aggregate tax basis in the warrants redeemed, and the holding period for the shares of Class A common stock received should include the U.S. Holder’s holding period for the surrendered warrants. However, there is some uncertainty regarding this tax treatment and it is possible such a redemption could be treated in part as a taxable exchange in which gain or loss would be recognized in a manner similar to that discussed above for a cashless exercise of warrants or otherwise characterized. Accordingly, a U.S. Holder is urged to consult its tax advisor regarding the tax consequences of a redemption of warrants for shares of Class A common stock.

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of shares of Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus captioned “Description of Securities—Warrants—Public Stockholders’ Warrants.” An adjustment which has the effect of preventing dilution is generally not a taxable event. Nevertheless, a U.S. Holder of warrants may be treated as receiving a constructive distribution from us if, for example, the adjustment increases the holder’s proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of Class A common stock that would be obtained upon exercise or through a decrease in the exercise price of the warrants), including as a result of a distribution of cash or other property, such as other securities, to the holders of shares of our Class A common stock, or as a result of the issuance of a stock dividend to holders of shares of our Class A common stock, in each case which is taxable to such holders of such shares as a distribution. Any constructive distribution received by a U.S. Holder would be subject to tax in the same manner as if such U.S. Holder received a cash distribution from us equal to the fair market value of such increased interest. Generally, a U.S. Holder’s adjusted tax basis in its warrant would be increased to the extent any such constructive distribution is treated as a dividend. For certain informational reporting purposes, we are required to determine the date and amount of any such constructive distributions and publicly report such information or report such information to the IRS and holders of warrants not exempt from information reporting. Proposed U.S. Treasury regulations, which we may rely on prior to the issuance of final regulations, specify how the date and amount of constructive distributions are determined.

Information Reporting and Backup Withholding

Dividend payments with respect to the Class A common stock to a U.S. Holder and proceeds from the sale, exchange or redemption of the Class A common stock by a U.S. Holder generally are subject to information reporting to the IRS and possible U.S. backup withholding, unless the U.S. Holder is an exempt recipient. Backup withholding may apply to such payments if a U.S. Holder fails to furnish a correct taxpayer identification number, a certification of exempt status or has been notified by the IRS that it is subject to backup withholding (and such notification has not been withdrawn). Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a U.S. Holder’s U.S. federal income tax liability, and such holder may obtain a refund of any excess amounts withheld under the backup withholding rules by timely filing the appropriate claim for refund with the IRS and furnishing any required information.

Non-U.S. Holders

For purposes of this discussion, a “non-U.S. Holder” is a beneficial owner of our securities that, for U.S. federal income tax purposes, is neither a U.S. Holder nor a partnership or other pass-through entity. If you are not a non-U.S. Holder, this section does not apply to you.

Taxation of Distributions

In general, any distributions (including constructive distributions) we make to a non-U.S. Holder of shares of our Class A common stock, to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles), will constitute dividends for U.S. federal income tax purposes and, provided such dividends are not effectively connected with the non-U.S. Holder's conduct of a trade or business within the United States, we will be required to withhold tax from the gross amount of the dividend at a rate of 30%, unless such non-U.S. Holder is eligible for a reduced rate of withholding tax under an applicable income tax treaty and provides proper certification of its eligibility for such reduced rate (usually on an IRS Form W-8BEN or W-8BEN-E, as applicable). In the case of any constructive dividend, it is possible that this tax would be withheld from any amount owed to a non-U.S. Holder by the applicable withholding agent, including cash distributions on other property or sale proceeds from warrants or other property subsequently paid or credited to such holder. Any distribution not constituting a dividend will be treated first as reducing (but not below zero) the non-U.S. Holder's adjusted tax basis in its shares of our Class A common stock and, to the extent such distribution exceeds the non-U.S. Holder's adjusted tax basis, as gain realized from the sale or other disposition of the Class A common stock, which will be treated as described under "Non-U.S. Holders—Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants" below. In addition, if we determine that we are classified as a "United States real property holding corporation" (see "Non-U.S. Holders—Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants" below), we generally will be required to withhold 15% of any distribution that exceeds our current and accumulated earnings and profits.

Dividends we pay to a non-U.S. Holder that are effectively connected with such non-U.S. Holder's conduct of a trade or business within the United States (or, if a tax treaty applies, are attributable to a U.S. permanent establishment or fixed base maintained by the non-U.S. Holder) will generally not be subject to U.S. withholding tax, provided such non-U.S. Holder complies with certain certification and disclosure requirements (usually by providing an IRS Form W-8ECI). Instead, such dividends will generally be subject to U.S. federal income tax, net of certain deductions, at the same graduated individual or corporate rates applicable to U.S. Holders. If the non-U.S. Holder is a corporation, dividends that are effectively connected income may also be subject to a "branch profits tax" at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty).

Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants

Subject to the discussion below regarding redemptions of Class A common stock, a non-U.S. Holder will generally not be subject to U.S. federal income or withholding tax in respect of gain recognized on a sale, taxable exchange or other taxable disposition of our securities, which would include a dissolution and liquidation in the event we do not complete an initial business combination within 18 months from the closing of this offering, or warrants (including an expiration or redemption of our warrants), in each case without regard to whether those securities were held as part of a unit, unless:

- the gain is effectively connected with the conduct of a trade or business by the non-U.S. Holder within the United States (and, if an applicable tax treaty so requires, is attributable to a U.S. permanent establishment or fixed base maintained by the non-U.S. Holder);
- the non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are met; or
- we are or have been a "United States real property holding corporation" for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the non-U.S. Holder held our Class A common stock, and, in the case where shares of our Class A common stock are regularly traded on an established securities market, the non-U.S. Holder has owned, directly or constructively, more than 5% of our Class A common stock at any time within the shorter of the five-year period preceding the disposition or such non-U.S. Holder's holding period for the shares of our Class A common stock. There can be no assurance that our Class A common stock will be treated as regularly traded on an established securities market for this purpose.

Unless an applicable treaty provides otherwise, gain described in the first bullet point above will be subject to tax at generally applicable U.S. federal income tax rates. Any gains described in the first bullet point above of a non-U.S. Holder that is a foreign corporation may also be subject to an additional “branch profits tax” at a 30% rate (or a lower applicable treaty rate). Gain described in the second bullet point above will generally be subject to a flat 30% rate (or a lower applicable treaty rate). Non-U.S. Holders are urged to consult their tax advisors regarding possible eligibility for benefits under income tax treaties.

If the third bullet point above applies to a non-U.S. Holder, gain recognized by such holder on the sale, exchange or other disposition of our Class A common stock or warrants will be subject to tax at generally applicable U.S. federal income tax rates. In addition, a buyer of our Class A common stock or warrants from such holder may be required to withhold U.S. income tax at a rate of 15% of the amount realized upon such disposition. We cannot determine whether we will be a United States real property holding corporation in the future until we complete an initial business combination. We will be classified as a United States real property holding corporation if the fair market value of our “United States real property interests” equals or exceeds 50% of the sum of the fair market value of our worldwide real property interests plus our other assets used or held for use in a trade or business, as determined for U.S. federal income tax purposes. You are urged to consult your own tax advisors regarding the application of these rules.

Redemption of Class A Common Stock

The characterization (as a sale or distribution) for U.S. federal income tax purposes of the redemption of a non-U.S. Holder’s Class A common stock pursuant to the redemption provisions described in this prospectus under “Description of Securities—Common Stock” will generally correspond to the U.S. federal income tax characterization of such a redemption of a U.S. Holder’s Class A common stock, as described under “U.S. Holders—Redemption of Class A Common Stock” above, and the tax consequences of the redemption to the non-U.S. Holder will be as described above under “Non-U.S. Holders—Taxation of Distributions” and “Non-U.S. Holders—Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants,” as applicable. Because it may not be certain at the time a non-U.S. Holder is redeemed whether such non-U.S. holder’s redemption will be treated as a sale of shares or a distribution constituting a dividend, and because such determination will depend in part on a non-U.S. Holder’s particular circumstances, we or the applicable withholding agent may not be able to determine whether (or to what extent) a non-U.S. Holder is treated as receiving a dividend for U.S. federal income tax purposes. Therefore, we or the applicable withholding agent may withhold tax at a rate of 30% on the gross amount of any consideration paid to a non-U.S. Holder in redemption of such non-U.S. Holder’s Class A common stock unless special procedures are available to non-U.S. Holders to certify that they are entitled to exemptions from, or reductions in, such withholding tax. However, there can be no assurance that such special certification procedures will be available. A non-U.S. Holder generally may obtain a refund of any such excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their own tax advisors regarding the application of the foregoing rules in light of their particular facts and circumstances.

Exercise, Lapse or Redemption of a Warrant

The characterization for U.S. federal income tax purposes of the exercise, lapse or redemption of warrants held by a non-U.S. Holder for Class A common stock generally will correspond to the characterization described under “U.S. Holders—Exercise of a Warrant” or “U.S. Holders—Sale, Exchange, Redemption, Expiration or Lapse of a Warrant” above, as applicable, although to the extent a cashless exercise or redemption results in a taxable exchange, the tax consequences to the non-U.S. Holder would be the same as those described above in “Non-U.S. Holders—Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants.”

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of shares of Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus captioned “Description of Securities—Warrants—Public Stockholders’ Warrants.” An adjustment which has the effect of preventing dilution is generally not a taxable event. Nevertheless, a non-U.S. Holder of warrants may be treated as receiving a constructive distribution from us if, for example, the adjustment increases the holder’s proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of Class A common stock that would be obtained upon exercise or through a decrease in the exercise price of the warrants), including as a result of a distribution of cash or other property, such as other securities, to the holders of shares of our Class A common stock, or as a result of the issuance of a stock dividend to holders of shares of our Class A common stock, in each case which is taxable to such holders of such shares as a distribution as described above under “Non-U.S. Holders—Taxation of Distributions”. Any constructive distribution received by a non-U.S. Holder would be subject to U.S. federal income tax withholding tax in the same manner as if such non-U.S. Holder received a cash distribution from us equal to the fair market value of such increased interest without any corresponding receipt of cash. It is possible that any withholding tax on such a constructive distribution might be satisfied by us or the applicable withholding agent from other distributions to the non-U.S. Holder, or from proceeds subsequently paid or credited to such holder. Generally, a non-U.S. Holder’s adjusted tax basis in its warrant would be increased to the extent any such constructive distribution is treated as a dividend.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code and the Treasury Regulations and administrative guidance promulgated thereunder (commonly referred as the “Foreign Account Tax Compliance Act” or “FATCA”) generally impose withholding at a rate of 30% in certain circumstances on dividends (including constructive dividends) in respect of our securities which are held by or through certain foreign financial institutions (including investment funds), unless any such institution (1) enters into, and complies with, an agreement with the IRS to report, on an annual basis, information with respect to interests in, and accounts maintained by, the institution that are owned by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments, or (2) if required under an intergovernmental agreement between the United States and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. Accordingly, the entity through which our securities are held will affect the determination of whether such withholding is required. Similarly, dividends (including constructive dividends) in respect of our securities held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exceptions will generally be subject to withholding at a rate of 30%, unless such entity either (1) certifies to us or the applicable withholding agent that such entity does not have any “substantial United States owners” or (2) provides certain information regarding the entity’s “substantial United States owners,” which will in turn be provided to the U.S. Department of Treasury. Prospective investors should consult their tax advisors regarding the possible implications of FATCA on their investment in our securities. Thirty percent withholding under FATCA was scheduled to apply to payments of gross proceeds from the sale or other disposition of property that produces U.S.-source interest or dividends beginning on January 1, 2019, but on December 13, 2018, the IRS released proposed regulations that, if finalized in their proposed form, would eliminate the obligation to withhold on gross proceeds. Such proposed regulations also delayed withholding on certain other payments received from other foreign financial institutions that are allocable, as provided for under final Treasury Regulations, to payments of U.S.-source dividends, and other fixed or determinable annual or periodic income. Although these proposed Treasury Regulations are not final, taxpayers generally may rely on them until final Treasury Regulations are issued. However, there can be no assurance that final Treasury Regulations will provide the same exceptions from FATCA withholding as the proposed Treasury Regulations. Prospective investors should consult their tax advisors regarding the effects of FATCA on their investment in our securities.

Information Reporting and Backup Withholding

In general, information reporting requirements will apply to payments of dividends and proceeds from the sale of our securities to non-U.S. Holders that are not exempt recipients. We must report annually to the IRS and to each such holder the amount of dividends or other distributions we pay to such non-U.S. Holder on our shares of Class A common stock and the amount of tax withheld with respect to those distributions, regardless of whether withholding is required. The IRS may make copies of the information returns reporting those dividends and amounts withheld available to the tax authorities in the country in which the non-U.S. Holder resides pursuant to the provisions of an applicable income tax treaty or exchange of information treaty.

The gross amount of dividends and proceeds from the disposition of our Class A common stock or warrants paid to a holder that fails to provide the appropriate certification in accordance with applicable Treasury Regulations generally will be subject to backup withholding at the applicable rate.

Information reporting and backup withholding are generally not required with respect to the amount of any proceeds from the sale by a non-U.S. Holder of Class A common stock or warrants outside the United States through a foreign office of a foreign broker that does not have certain specified connections to the United States. However, if a non-U.S. Holder sells Class A common stock or warrants through a U.S. broker or the U.S. office of a foreign broker, the broker will generally be required to report to the IRS the amount of proceeds paid to such holder, unless the non-U.S. Holder provides appropriate certification (usually on an IRS Form W-8BEN or W-8BEN-E, as applicable) to the broker of its status as a non-U.S. Holder or such non-U.S. Holder is an exempt recipient. In addition, for information reporting purposes, certain non-U.S. brokers with certain relationships with the United States will be treated in a manner similar to U.S. brokers.

Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a non-U.S. Holder will be allowed as a credit against such holder's U.S. federal income tax liability, if any, and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS.

All non-U.S. Holders should consult their tax advisors regarding the application of information reporting and backup withholding to them.

UNDERWRITING

The company and the underwriters named below have entered into an underwriting agreement with respect to the units being offered. Subject to certain conditions, the underwriters have agreed to purchase the number of units indicated in the following table.

<u>Underwriters</u>	<u>Number of Units</u>
Cantor Fitzgerald & Co	16,800,000
Odeon Capital Group, LLC	7,200,000
Total	24,000,000

The underwriters are committed to take and pay for all of the units being offered, if any are taken, other than the units covered by the option described below unless and until this option is exercised.

The company granted to the underwriters an option to purchase, from time to time, in whole or in part, up to an aggregate additional 3,600,000 units at the public offering price set forth on the cover page of this prospectus less underwriting discounts and commissions from the company to cover sales by the underwriters of a greater number of units than the total number set forth in the table above. They may exercise that option for 45 days.

The Company has agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

The following table shows the per unit and total underwriting discounts and commissions to be paid to the underwriters by the company. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 3,600,000 additional units.

	<u>Paid by the Company</u>	
	<u>No Exercise</u>	<u>Full Exercise</u>
Per Unit(1)	\$ 0.70	\$ 0.70
Total(1)	\$ 16,800,000	\$ 19,320,000

- (1) \$0.20 per unit sold in the base offering, or \$4,800,000 in the aggregate, is payable upon the closing of this offering. Includes an additional \$0.50 per unit sold in the base offering, or \$12,000,000 in the aggregate (or up to \$14,520,000 if the underwriters' over-allotment option is exercised in full), payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States and released to the underwriters only upon the completion of an initial business combination.

Units sold by the underwriters will initially be offered to the public at the initial offering price set forth on the cover page of this prospectus. The underwriters may allow dealers concessions not in excess of \$0.12 per unit and the dealers may re-allow a concession not in excess of \$0.12 per unit to other dealers. After the initial public offering, the public offering price, concession and discount may be changed. If all of the units are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms after completion of the initial public offering. The offering of units by the underwriters is subject to receipt and acceptance and subject to the underwriter's right to reject any order in whole or in part. The underwriters have advised us that they does not intend to make sales to discretionary accounts. Sales of any units outside the United States may be made by affiliates of the underwriters.

The company estimates expenses payable in connection with this offering, other than the underwriting discounts and commissions referred to above, will be approximately \$700,000. The company has agreed to pay certain out-of-pocket expenses of the underwriters, including FINRA-related fees of the underwriters' legal counsel in an amount not to exceed \$15,000 and an additional expense reimbursement of up to \$27,500 for background checks of the Company's officers and directors.

Cantor and Odeon have committed to purchase 1,200,000 private placement warrants for an aggregate purchase price of \$1,200,000, or \$1.00 a warrant, in the private placement that will occur simultaneously with the completion of this offering. The terms of the private placement warrants are identical to those of the public warrants, except as described in this prospectus. The private placement warrants have been deemed compensation by FINRA and are therefore subject to the lock-up restrictions imposed by FINRA Rule 5110(e) pursuant to which these securities will not be sold, transferred, assigned, pledged, or hypothecated, or be the subject of any hedging, short sale, derivative, put or call transaction that would result in the economic disposition of the securities by any person for a period of 180 days immediately following the commencement of sales of this offering except as permitted under FINRA Rule 5110(e)(2) including to any member participating in the offering and the officers or partners, registered persons or affiliates thereof. In addition, for as long as the private placement warrants are held by Cantor, the other underwriters or their designees or affiliates, they may not be exercised after five years from the commencement of sales of this offering. We have granted Cantor and Odeon or their designees or affiliates certain registration rights relating to these securities. The underwriters may not exercise its demand and “piggyback” registration rights after five and seven years after the effective date of the registration statement of which this prospectus forms a part and may not exercise its demand rights on more than one occasion.

If the company does not complete its initial business combination within the time period required by its amended and restated certificate of incorporation, the underwriters have agreed that (i) they will forfeit any rights or claims to their deferred underwriting discounts and commissions, including any accrued interest thereon, then in the trust account, and (ii) that the deferred underwriter’s discounts and commissions will be distributed on a pro rata basis, together with any interest earned on the funds held in the trust account and not previously released to the company to pay the company’s taxes, to the public stockholders.

The company and its sponsors, officers, and directors have agreed with the underwriters, subject to certain exceptions, not to, except with the prior written consent of the underwriters, offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any units, warrants, shares of Class A common stock or any other securities convertible into, or exercisable, or exchangeable for, shares of Class A common stock during the period from the date of this prospectus continuing through the date 180 days after the date of this prospectus; provided, however, that the company may (1) issue and sell the private placement warrants, (2) issue and sell the additional units to cover the underwriters’ over-allotment option (if any), (3) register with the SEC pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, the resale of the founder shares and the private placement warrants or the warrants and shares of Class A common stock issuable upon exercise of the warrants and (4) issue securities in connection with a Business Combination. The underwriters in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

The company’s initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (A) one year after the completion of the company’s initial business combination and (B) the date on which the company completes a liquidation, merger, capital stock exchange or other similar transaction after the company’s initial business combination that results in all of the company’s stockholders having the right to exchange their Class A common stock for cash, securities or other property; except to certain permitted transferees and under certain circumstances as described herein under “Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants”. Any permitted transferees will be subject to the same restrictions and other agreements of the company’s initial stockholders with respect to any founder shares. The company refers to such transfer restrictions throughout this prospectus as the lock-up. Notwithstanding the foregoing, the founder shares will be released from the lockup if the closing price of the company’s Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the company’s initial business combination.

The private placement warrants (including the shares of Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of the company’s initial business combination (except with respect to permitted transferees as described herein under “Principal Stockholders — Transfers of Founder Shares and Private Placement Warrants”).

The underwriters have advised us that, following the completion of this offering, they currently intend to make a market in the units as permitted by applicable laws and regulations. However, the underwriters are not obligated to do so, and the underwriters may discontinue any market-making activities at any time without notice in their sole discretion. Accordingly, no assurance can be given as to the liquidity of the trading market for the units, that you will be able to sell any of the units held by you at a particular time or that the prices that you receive when you sell will be favorable.

Prior to the offering, there has been no public market for the units. The initial public offering price has been negotiated among the company and the underwriters. The determination of the per unit offering price was more arbitrary than would typically be the case if the company was an operating company. Among the factors considered in determining initial public offering price were the history and prospects of companies whose principal business is the acquisition of other companies, prior offerings of those companies, the company's management, the company's capital structure, and currently prevailing general conditions in equity securities markets, including current market valuations of publicly traded companies considered comparable to the company.

We have been approved to list the units on the NYSE under the symbol "INAQ.U".

The underwriters pursuant to Regulation M under the Securities Exchange Act of 1934, as amended, may engage in short sale transactions, stabilizing transactions, syndicate covering transactions or the imposition of penalty bids in connection with this offering. These activities may have the effect of stabilizing or maintaining the market price of the units at a level above that which might otherwise prevail in the open market. Establishing short sales positions may involve either "covered" short sales or "naked" short sales.

"Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional units in this offering. The underwriters may close out any covered short position by either exercising the overallotment option or purchasing our securities in the open market or from market participants. In determining the source of units to close out the covered short position, the underwriters will consider, among other things, the price of units available for purchase in the market as compared to the price at which they may purchase units through the overallotment option. "Naked" short sales are sales in excess of the option to purchase additional units.

The underwriters must close out any naked short position by purchasing units in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the units in the open market after pricing that could adversely affect investors who purchase in this offering.

A stabilizing bid is a bid for the purchase of securities on behalf of the underwriters for the purpose of fixing or maintaining the price of the securities. A syndicate covering transaction is the bid for or the purchase of securities on behalf of the underwriters to reduce a short position incurred by the underwriters in connection with the offering. Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our securities or preventing or retarding a decline in the market price of our securities. As a result, the price of our securities may be higher than the price that might otherwise exist in the open market. A penalty bid is an arrangement permitting the underwriters to reclaim the selling concession otherwise accruing to a syndicate member in connection with the offering if the securities originally sold by such syndicate member are purchased in a syndicate covering transaction and therefore have not been effectively placed by such syndicate member.

Neither we, nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our securities. The underwriters are not obligated to engage in these activities and, if commenced, may end any of these activities at any time. These transactions may be effected on the NYSE in the over-the-counter market or otherwise.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management,

investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to the issuer and to persons and entities with relationships with the issuer, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the issuer. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

NOTICE TO INVESTORS

Canada

This prospectus supplement constitutes an “exempt offering document” as defined in and for the purposes of applicable Canadian securities laws. No prospectus has been filed with any securities commission or similar regulatory authority in Canada in connection with the offer and sale of the securities. No securities commission or similar regulatory authority in Canada has reviewed or in any way passed upon this prospectus supplement or on the merits of the securities and any representation to the contrary is an offence.

Canadian investors are advised that this prospectus supplement has been prepared in reliance on section 3A.3 of National Instrument 33-105 *Underwriting Conflicts* (“NI 33-105”). Pursuant to section 3A.3 of NI 33-105, this prospectus supplement is exempt from the requirement that the issuer and the underwriter(s) provide investors with certain conflicts of interest disclosure pertaining to “connected issuer” and/or “related issuer” relationships that may exist between the issuer and the underwriter(s) as would otherwise be required pursuant to subsection 2.1(1) of NI 33-105.

Resale Restrictions

The offer and sale of the securities in Canada is being made on a private placement basis only and is exempt from the requirement that the issuer prepares and files a prospectus under applicable Canadian securities laws. Any resale of the securities acquired by a Canadian investor in this offering must be made in accordance with applicable Canadian securities laws, which may vary depending on the relevant jurisdiction, and which may require resales to be made in accordance with Canadian prospectus requirements, pursuant to a statutory exemption from the prospectus requirements, in a transaction exempt from the prospectus requirements or otherwise under a discretionary exemption from the prospectus requirements granted by the applicable local Canadian securities regulatory authority. These resale restrictions may under certain circumstances apply to resales of the securities outside of Canada.

Representations of Purchasers

Each Canadian investor who purchases the securities will be deemed to have represented to the issuer and the underwriter(s) that the investor (i) is purchasing the securities as principal, or is deemed to be purchasing as principal in accordance with applicable Canadian securities laws, for investment only and not with a view to resale or redistribution; (ii) is an “accredited investor” as such term is defined in section 1.1 of National Instrument 45-106 *Prospectus Exemptions* (“NI 45-106”) or, in Ontario, as such term is defined in section 73.3(1) of the *Securities Act* (Ontario); and (iii) is a “permitted client” as such term is defined in section 1.1 of National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*.

Taxation and Eligibility for Investment

Any discussion of taxation and related matters contained in this prospectus supplement does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a Canadian investor when deciding to purchase the securities and, in particular, does not address any Canadian tax considerations. No representation or warranty is hereby made as to the tax consequences to a resident, or deemed resident, of Canada of an investment in the securities or with respect to the eligibility of the securities for investment by such investor under relevant Canadian federal and provincial legislation and regulations.

Rights of Action for Damages or Rescission

Securities legislation in certain of the Canadian jurisdictions provides certain purchasers of securities pursuant to an offering memorandum (such as this prospectus supplement), including where the distribution involves an “eligible foreign security” as such term is defined in Ontario Securities Commission Rule 45-501 *Ontario Prospectus and Registration Exemptions* and in Multilateral Instrument 45-107 *Listing Representation and Statutory Rights of Action Disclosure Exemptions*, as applicable, with a remedy for damages or rescission, or both, in addition to any other rights they may have at law, where the offering memorandum, or other offering document that constitutes an offering memorandum, and any amendment thereto, contains a “misrepresentation” as defined under applicable Canadian securities laws. These remedies, or notice with respect to these remedies, must be exercised or delivered, as the case may be, by the purchaser within the time limits prescribed under, and are subject to limitations and defences under, applicable Canadian securities legislation. In addition, these remedies are in addition to and without derogation from any other right or remedy available at law to the investor.

Language of Documents

Upon receipt of this document, each Canadian investor hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the securities described herein (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. *Par la réception de ce document, chaque investisseur Canadien confirme par les présentes qu’il a expressément exigé que tous les documents faisant foi ou se rapportant de quelque manière que ce soit à la vente des valeurs mobilières décrites aux présentes (incluant, pour plus de certitude, toute confirmation d’achat ou tout avis) soient rédigés en anglais seulement.*

Australia

This document does not constitute a prospectus, product disclosure statement or other disclosure document under the Australia’s Corporations Act 2001 (Cth) (the “Corporations Act”) of Australia. This document has not been lodged with the Australian Securities & Investments Commission and is only directed to the categories of exempt persons set out below. Accordingly, if you receive this document in Australia:

You confirm and warrant that you are either:

- a “sophisticated investor” under section 708(8)(a) or (b) of the Corporations Act;
- a “sophisticated investor” under section 708(8)(c) or (d) of the Corporations Act and that you have provided an accountant’s certificate to the company which complies with the requirements of section 708(8)(c)(i) or (ii) of the Corporations Act and related regulations before the offer has been made; or
- a “professional investor” within the meaning of section 708(11)(a) or (b) of the Corporations Act.

To the extent that you are unable to confirm or warrant that you are an exempt sophisticated investor or professional investor under the Corporations Act any offer made to you under this document is void and incapable of acceptance.

You warrant and agree that you will not offer any of the shares issued to you pursuant to this document for resale in Australia within 12 months of those securities being issued unless any such resale offer is exempt from the requirement to issue a disclosure document under section 708 of the Corporations Act.

European Economic Area

In relation to each member state of the European Economic Area (each a “Member State”), no securities have been offered or will be offered pursuant to the offer described herein in that Member State prior to the publication of a prospectus in relation to the securities which has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State, all in accordance with the Prospectus Regulation, except that the securities may be offered to the public in that Member State at any time:

(i) to any legal entity which is a qualified investor as defined under Article 2 of the Prospectus Regulation;

(ii) to fewer than 150 natural or legal persons (other than qualified investors as defined under Article 2 of the Prospectus Regulation), subject to obtaining the prior consent of the underwriters for any such offer; or

(iii) in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of securities shall require the issuer or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

Each person in a Member State who acquires any securities in the offer or to whom any offer is made will be deemed to have represented, acknowledged and agreed to and with the issuer and the underwriters that it is a qualified investor within the meaning of the Prospectus Regulation.

In the case of any securities being offered to a financial intermediary as that term is used in Article 5(1) of the Prospectus Regulation, each such financial intermediary will be deemed to have represented, acknowledged and agreed to and with the issuer and the underwriters that the securities acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer to the public other than their offer or resale in a Member State to qualified investors, in circumstances in which the prior consent of the underwriters has been obtained to each such proposed offer or resale. Neither the issuer nor the underwriters have authorised, nor do they authorise, the making of any offer of securities through any financial intermediary, other than offers made by the underwriters which constitute the final placement of securities contemplated in this document.

The issuer and the underwriters and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgements and agreements.

For the purposes of this provision, the expression an “offer to the public” in relation to any securities in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any securities to be offered so as to enable an investor to decide to purchase, or subscribe for, any securities and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129.

In Member States, this document is being distributed only to, and is directed only at, persons who are “qualified investors” within the meaning of Article 2(e) of the Prospectus Regulation (“Qualified Investors”). This document must not be acted on or relied on in any Member State by persons who are not Qualified Investors. Any investment or investment activity to which this document relates is available in any Member State only to Qualified Investors and will be engaged in only with such persons.

Hong Kong

No securities have been, may be or will be offered or sold in Hong Kong, by means of any document, other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent; or to “professional investors” as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the “SFO”) and any rules made thereunder; or in other circumstances which do not result in the document being a “prospectus” as defined in the Companies (Winding UP and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong (the “C(WUMP)O”), or which do not constitute an offer to the public within the meaning of the C(WUMP)O. No document, invitation or advertisement relating to the securities has been issued or may be issued or will be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted under the securities laws of Hong Kong) other than with respect to securities which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made thereunder.

This document has not been and will not be registered with the Registrar of Companies in Hong Kong. Accordingly, this document may not be issued, circulated or distributed in Hong Kong, and the securities may not be offered for subscription to members of the public in Hong Kong. Each person acquiring the securities will be required, and is deemed by the acquisition of the securities, to confirm that he is aware of the restriction on offers of the securities described in this document and the relevant offering documents and that he is not acquiring, and has not been offered any securities in circumstances that contravene any such restrictions.

Japan

The offering has not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948 of Japan, as amended) (the “FIEA”), and the Initial Purchaser will not offer or sell any securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means, unless otherwise provided herein, any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

Singapore

This document has not been and will not be lodged or registered with the Monetary Authority of Singapore. Accordingly, this document and any other document or material in connection with the offer or sale, or the invitation for subscription or purchase of the securities may not be issued, circulated or distributed, nor may the securities be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person as defined under Section 275(2) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions, specified in Section 275 of the SFA and where (where applicable) Regulation 3 of the Securities and Futures (Classes of Investors) Regulations 2018, or (iii) otherwise pursuant to, and in accordance with the conditions of any other applicable provision of the SFA. **In the event that you are not an investor falling within any of the categories set out above, please return this document immediately. You may not forward or circulate this document to any other person in Singapore.**

No offer is made to you with a view to the securities being subsequently offered for sale to any other party. There are on-sale restrictions that may be applicable to investors who acquire securities. As such, investors are advised to acquaint themselves with the provisions of the SFA relating to resale restrictions and comply accordingly.

Where the securities are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- a corporation (which is not an accredited investor as defined under Section 4A of the SFA) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor,

securities or securities-based derivatives contracts (each term as defined in Section 2(1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferable within six months after that corporation or that trust has acquired the securities under Section 275 of the SFA except:

- to an institutional investor under Section 274 of the SFA or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA;
- where no consideration is given for the transfer;
- where the transfer is by operation of law;
- as specified in Section 276(7) of the SFA; or
- as specified in Regulation 37A of the Securities and Futures (Offers of Investments) (Securities and Securities-based Derivatives Contracts) Regulations 2018 of Singapore.

Switzerland

The securities may not be publicly offered in Switzerland and will not be listed on the SIX Swiss Exchange, or SIX, or on any other stock exchange or regulated trading facility in Switzerland. This document has been prepared without regard to the disclosure standards for issuance prospectuses under art. 652a or art. 1156 of the Swiss Code of Obligations or the disclosure standards for listing prospectuses under art. 27 ff. of the SIX Listing Rules or the listing rules of any other stock exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the securities or the offering may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this document nor any other offering or marketing material relating to the offering, the issuer or the securities have been or will be filed with or approved by any Swiss regulatory authority. In particular, this document will not be filed with, and the offer of securities will not be supervised by, the Swiss Financial Market Supervisory Authority FINMA, or FINMA, and the offer of securities has not been and will not be authorized under the Swiss Federal Act on Collective Investment Schemes, or CISA. The investor protection afforded to acquirers of interests in collective investment schemes under the CISA does not extend to acquirers of securities.

Israel

This document does not constitute a prospectus under the Israeli Securities Law, 5728-1968, or the Securities Law, and has not been filed with or approved by the Israel Securities Authority. In the State of Israel, this document is being distributed only to, and is directed only at, and any offer of the shares is directed only at, investors listed in the first addendum, or the Addendum, to the Israeli Securities Law, consisting primarily of joint investment in trust funds, provident funds, insurance companies, banks, portfolio managers, investment advisors, members of the Tel Aviv Stock Exchange, underwriters, venture capital funds, entities with equity in excess of NIS 50 million and "qualified individuals", each as defined in the Addendum (as it may be amended from time to time), collectively referred to as qualified investors (in each case purchasing for their own account or, where permitted under the Addendum, for the accounts of their clients who are investors listed in the Addendum). Qualified investors will be required to submit written confirmation that they fall within the scope of the Addendum, are aware of the meaning of same and agree to it.

United Kingdom

In relation to the United Kingdom, no securities have been offered or will be offered pursuant to the offer described herein to the public in the United Kingdom prior to the publication of a prospectus in relation to the securities which has been approved by the UK Financial Conduct Authority, except that the securities may be offered to the public in the United Kingdom at any time:

(i) to any legal entity which is a qualified investor as defined under Article 2 of the UK Prospectus Regulation;

(ii) to fewer than 150 natural or legal persons (other than qualified investors as defined under Article 2 of the UK Prospectus Regulation), subject to obtaining the prior consent of the underwriters for any such offer; or

(iii) in any other circumstances falling within Section 86 of the Financial Services and Markets Act 2000 (as amended) (the “FSMA”),

provided that no such offer of the securities shall require the issuer or any underwriter to publish a prospectus pursuant to Section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

Each person in the United Kingdom who acquires any securities in the offer or to whom any offer is made will be deemed to have represented, acknowledged and agreed to and with the issuer and the underwriters that it is a qualified investor within the meaning of the UK Prospectus Regulation.

In the case of any securities being offered to a financial intermediary as that term is used in Article 5(1) of the UK Prospectus Regulation, each such financial intermediary will be deemed to have represented, acknowledged and agreed to and with the issuer and the underwriters that the securities acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer to the public other than their offer or resale in the United Kingdom to qualified investors, in circumstances in which the prior consent of the underwriters has been obtained to each such proposed offer or resale. Neither the issuer nor the underwriters have authorised, nor do they authorise, the making of any offer of securities through any financial intermediary, other than offers made by the underwriters which constitute the final placement of securities contemplated in this document.

The issuer and the underwriters and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgements and agreements.

For the purposes of this provision, the expression an “offer to the public” in relation to the securities in the United Kingdom means the communication in any form and by any means of sufficient information on the terms of the offer and any securities to be offered so as to enable an investor to decide to purchase or subscribe for any securities and the expression “UK Prospectus Regulation” means Regulation (EU) 2017/1129 as it forms part of United Kingdom law by virtue of the European Union (Withdrawal) Act 2018.

In the United Kingdom, this document is being distributed only to, and is directed only at, persons who are “qualified investors” within the meaning of Article 2(e) of the UK Prospectus Regulation who are also: (i) persons who fall within the definition of “investment professionals” in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Order”); (ii) persons falling within Article 49(2) of the Order; or (iii) persons to whom it may otherwise lawfully be communicated (all such persons together being referred to as “relevant persons”). This document must not be acted on or relied on in the United Kingdom by persons who are not relevant persons. Any investment or investment activity to which this document relates is available in the United Kingdom only to relevant persons and will be engaged in only with such persons.

Any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) may only be communicated or caused to be communicated in connection with the issue or sale of the securities in circumstances in which Section 21(1) of the FSMA does not apply. All applicable provisions of the FSMA and the Order must be complied with in respect of anything done by any person in relation to the securities in, from or otherwise involving the United Kingdom.

LEGAL MATTERS

Proskauer Rose LLP, New York, New York, is acting as counsel in connection with the registration of our securities under the Securities Act, and as such, will pass upon the validity of the securities offered in this prospectus. Ellenoff Grossman & Schole LLP advised the underwriters in connection with the offering of the securities.

EXPERTS

The financial statements of Insight Acquisition Corp. as of May 5, 2021, for the period from April 20, 2021 (inception) through May 5, 2021, appearing in this prospectus have been audited by WithumSmith+Brown, PC, independent registered public accounting firm, as set forth in their report thereon, appearing elsewhere in this prospectus, and are included in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the securities we are offering by this prospectus. This prospectus does not contain all of the information included in the registration statement. For further information about us and our securities, you should refer to the registration statement and the exhibits and schedules filed with the registration statement. Whenever we make reference in this prospectus to any of our contracts, agreements or other documents, the references are materially complete but may not include a description of all aspects of such contracts, agreements or other documents, and you should refer to the exhibits attached to the registration statement for copies of the actual contract, agreement or other document.

Upon completion of this offering, we will be subject to the information requirements of the Exchange Act and will file annual, quarterly and current event reports, proxy statements and other information with the SEC. You can read our SEC filings, including the registration statement, over the Internet at the SEC's website at www.sec.gov.

Report of Independent Registered Public Accounting Firm

To the Stockholder and the Board of Directors of Insight Acquisition Corp.

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Insight Acquisition Corp. (the “Company”) as of May 5, 2021, the related statements of operations, changes in stockholder’s equity and cash flows for the period from April 20, 2021 (inception) through May 5, 2021, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of May 5, 2021, and the results of its operations and its cash flows for the period from April 20, 2021 (inception) through May 5, 2021, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ WithumSmith+Brown, PC

We have served as the Company’s auditor since 2021.

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

Note 1 — Description of Organization and Business Operations

Insight Acquisition Corp. (the “Company”) is a blank check company incorporated in Delaware on April 20, 2021. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). The Company is an emerging growth company and, as such, the Company is subject to all of the risks associated with emerging growth companies.

As of May 5, 2021, the Company had not commenced any operations. All activity for the period from April 20, 2021 (inception) through May 5, 2021 relates to the Company’s formation and the proposed initial public offering described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Proposed Public Offering (as defined below). The Company has selected December 31 as its fiscal year end.

The Company’s sponsor is Insight Acquisition Sponsor LLC, a Delaware limited liability company (the “Sponsor”). The Company’s ability to commence operations is contingent upon obtaining adequate financial resources through a proposed public offering (the “Proposed Public Offering”) of 24,000,000 units (each, a “Unit” and collectively, the “Units”) at \$10.00 per Unit (or 27,600,000 units if the underwriters’ over-allotment option is exercised in full), which is discussed in Note 3, and the sale of 8,700,000 warrants (each, a “Private Placement Warrant” and collectively, the “Private Placement Warrants”), at a price of \$1.00 per Private Placement Warrant in a private placement to the Sponsor and the underwriters that will close simultaneously with the Proposed Public Offering.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Public Offering and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete one or more initial Business Combinations having an aggregate fair market value of at least 80% of the net assets held in the Trust Account (as defined below) (net of amounts disbursed to management for working capital purposes and excluding the deferred underwriting commissions and taxes payable on the interest earned on the Trust Account) at the time of the agreement to enter into the initial Business Combination. However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the “Investment Company Act”). Upon the closing of the Proposed Public Offering, management has agreed that an amount equal to at least \$10.05 per Unit sold in the Proposed Public Offering, including the proceeds from the sale of the Private Placement Warrants to the Sponsor, will be held in a trust account (“Trust Account”) located in the United States with American Stock Transfer & Trust Company acting as trustee, and invested only in U.S. “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

The Company will provide the holders of the Company’s outstanding shares of Class A common stock (the “Public Stockholders”), par value \$0.0001 per share, sold in the Proposed Public Offering (the “Public Shares”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholders meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then held in the Trust Account (initially anticipated to be \$10.05 per Public Share). The per-share amount to be distributed to Public Stockholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 5). These Public Shares will be recorded at a redemption value and classified as temporary equity upon the completion of the Proposed Public Offering in accordance with the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." The Company will proceed with a Business Combination if a majority of the shares voted are voted in favor of the Business Combination. The Company will not redeem the Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Certificate of Incorporation (the "Certificate of Incorporation"), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission ("SEC") and file tender offer documents with the SEC prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by law, or the Company decides to obtain stockholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each public stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction. If the Company seeks stockholder approval in connection with a Business Combination, the Initial Stockholders (as defined below) will agree to vote their Founder Shares (as defined below in Note 4) and any Public Shares purchased during or after the Proposed Public Offering, and the Anchor Investors (as defined below in Note 3) will agree to vote any Founder Shares held by them in favor of a Business Combination. In addition, the Initial Stockholders will agree to waive their redemption rights with respect to their Founder Shares and Public Shares in connection with the completion of a Business Combination.

The Company's amended & restated certificate of incorporation will provide that a Public Stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Public Shares, without the prior consent of the Company.

The Sponsor and the Company's officers and any other holders of the Founder Shares immediately prior to the Proposed Public Offering (the "Initial Stockholders") will agree not to propose an amendment to the Certificate of Incorporation to modify the substance or timing of the Company's obligation to redeem 100% of the Public Shares if the Company does not complete a Business Combination within the Combination Period (as defined below) or with respect to any other material provisions relating to stockholders' rights or pre-initial Business Combination activity, unless the Company provides the Public Stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

The Anchor Investors will not be entitled to (i) redemption rights with respect to any Founder Shares held by them in connection with the completion of the initial Business Combination, (ii) redemption rights with respect to any Founder Shares held by them in connection with a stockholder vote to amend the amended & restated certificate of incorporation in a manner that would affect the substance or timing of the Company's obligation to redeem 100% of its Public Shares if the Company has not consummated an initial Business Combination within the Combination Period or (iii) rights to liquidating distributions from the Trust Account with respect to any Founder Shares held by them if the Company fails to complete the initial Business Combination within the Combination Period (although they will be entitled to liquidating distributions from the Trust Account with respect to any Public Shares they hold if the Company fails to complete the initial Business Combination within the Combination Period).

If the Company is unable to complete a Business Combination within 18 months from the closing of the Proposed Public Offering (the "Combination Period"), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter,

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account (which interest shall be net of taxes payable and up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish Public Stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining stockholders and the board of directors, liquidate and dissolve, subject, in each case, to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

The Initial Stockholders will agree to waive their rights to liquidating distributions from the Trust Account with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Initial Stockholders acquire Public Shares in or after the Proposed Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such Public Shares if the Company fails to complete a Business Combination within the Combination Period. The underwriters will agree to waive their rights to the deferred underwriting commission (see Note 5) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be only \$10.05. In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party (except for the Company's independent registered public accounting firm) for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a letter of intent, confidentiality or other similar agreement or business combination agreement (a "Target"), reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.05 per Public Share and (ii) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.05 per Public Share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or Target that executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of the Proposed Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Note 2 — Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the rules and regulations of the SEC.

The Company does not have sufficient liquidity to meet its anticipated obligations over the next year from the issuance of these financial statements. In connection with the Company's assessment of going concern considerations in accordance with FASB's Accounting Standards Update ("ASU") 2014-15, "Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that the Company has access to funds from the Sponsor that are sufficient to fund the working capital needs of the Company until the earlier of the consummation of the Proposed Public Offering or one year from the issuance of these financial statements.

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Fair Value of Financial Instruments

The fair value of the Company’s assets and liabilities, which qualify as financial instruments under FASB ASC 820, “Fair Value Measurements” approximates the carrying amounts represented in the balance sheet.

Fair Value Measurements

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

Derivative Financial Instruments

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with FASB ASC Topic 815, "Derivatives and Hedging." For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value on the grant date and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative warrant liabilities are classified as non-current liabilities as their liquidation is not reasonably expected to require the use of current assets or require the creation of current liabilities. There were no derivative financial instruments as of May 5, 2021.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in these financial statements is the determination of the fair value of the warrant liability. Such estimates may be subject to change as more current information becomes available and accordingly the actual results could differ significantly from those estimates.

Deferred Offering Costs Associated with the Proposed Public Offering

Deferred offering costs consist of legal fees incurred through the balance sheet date that are directly related to the Proposed Public Offering. Upon completion of the Proposed Public Offering, offering costs are allocated to the separable financial instruments issued in the Proposed Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs allocated to derivative warrant liabilities will be charged to operations. Offering costs allocated to the Class A common stock will be charged to stockholders' equity upon the completion of the Initial Public Offering. Should the Proposed Public Offering prove to be unsuccessful, these deferred costs, as well as additional expenses to be incurred, will be charged to operations.

Net Loss Per Common Share

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, "Earnings Per Share." Net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period excluding common stock subject to forfeiture. Weighted average common shares were reduced for the effect of an aggregate of 900,000 shares of Class B common stock that are subject to forfeiture if the overallotment option is not exercised by the underwriters (Note 4). As of May 5, 2021, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted loss per common share is the same as basic loss per common share for the period presented.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. Deferred tax assets were deemed de minimis as of May 5, 2021.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of May 5, 2021. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties as of May 5, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

The provision for income taxes was deemed to be de minimis for the period from April 20, 2021 (inception) through May 5, 2021.

Recent Accounting Standards

The Company's management does not believe that any recently issued, but not yet effective, accounting standards updates, if currently adopted, would have a material effect on the accompanying financial statements.

Note 3 — Proposed Public Offering

Pursuant to the Proposed Public Offering, the Company intends to offer for sale 24,000,000 Units at a price of \$10.00 per Unit. Each Unit consists of one share of Class A common stock, and one-half of one redeemable warrant (each, a "Public Warrant"). Each Public Warrant entitles the holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 6).

The Company will grant the underwriters a 45-day option from the date of the final prospectus relating to the Proposed Public Offering to purchase up to 3,600,000 additional Units to cover over-allotments, if any, at the Proposed Public Offering price, less underwriting discounts and commissions.

Note 4 — Related Party Transactions

Founder Shares

On May 5, 2021, the Sponsor paid for certain offering costs totaling \$25,000 on behalf of the Company in exchange for issuance of 6,181,250 shares of the Company's Class B common stock, par value \$0.0001 per share, (the "Founder Shares"). On July 29, 2021, the Company effected a 1:1.1162791 stock split of Class B common stock, resulting in an aggregate of 6,900,000 shares of Class B common stock outstanding. All shares and associated amounts have been retroactively restated to reflect the stock split. The Sponsor agreed to forfeit up to 900,000 Founder Shares to the extent that the over-allotment option is not exercised in full by the underwriters. The forfeiture will be adjusted to the extent that the over-allotment option is not exercised in full by the underwriters so that the Founder Shares will represent 20% of the Company's issued and outstanding shares after the Proposed Public Offering. If the Company increases or decreases the size of the offering, the Company will effect a stock dividend or share contribution back to capital, as applicable, immediately prior to the consummation of the Proposed Public Offering in such amount as to maintain the Founder Share ownership of the Company's stockholders prior to the Proposed Public Offering at 20% of the Company's issued and outstanding common stock upon the consummation of the Proposed Public Offering.

The initial stockholders will agree, subject to limited exceptions, not to transfer, assign or sell any of the Founder Shares until the earlier to occur of: (i) one year after the completion of the initial Business Combination

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

and (ii) the date following the completion of the initial Business Combination on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of the stockholders having the right to exchange their common stock for cash, securities or other property. Notwithstanding the foregoing, if the closing price of Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, the Founder Shares will be released from the lockup.

Private Placement Warrants

The Sponsor and the underwriters will agree to purchase an aggregate of 8,700,000 Private Placement Warrants, at a price of \$1.00 per Private Placement Warrant (\$8.7 million in the aggregate) in a private placement that will occur simultaneously with the closing of the Proposed Public Offering.

Each Private Placement Warrant is exercisable for one whole share of Class A common stock at a price of \$11.50 per share. A portion of the proceeds from the sale of the Private Placement Warrants to the Sponsor and the underwriters will be added to the proceeds from the Proposed Public Offering to be held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Warrants will expire worthless. Except as set forth below, the Private Placement Warrants will be non-redeemable for cash and exercisable on a cashless basis so long as they are held by the Sponsor, the underwriters or their permitted transferees.

The Sponsor, the underwriters and the Company's officers and directors will agree, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the initial Business Combination.

Related Party Loans

On April 30, 2021, the Sponsor agreed to loan the Company an aggregate of up to \$300,000 to cover expenses related to the Proposed Public Offering pursuant to a promissory note (the "Note"). This loan is non-interest bearing and payable on the earlier of December 31, 2021 or the completion of the Proposed Public Offering. As of May 5, 2021, the Company has not made any borrowings under the Note.

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination or, at the lender's discretion, up to \$1.5 million of such Working Capital Loans may be convertible into warrants of the post Business Combination entity at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. As of May 5, 2021, the Company had no borrowings under the Working Capital Loans.

Administrative Services Agreement

The Company will enter into an agreement that will provide that, commencing on the date that the Company's securities are first listed on the NYSE and continuing until the earlier of the Company's

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

consummation of a Business Combination and the Company's liquidation, to the Company will pay the Sponsor a total of \$15,000 per month for services rendered to us by members of our management team.

The Sponsor, executive officers and directors, or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on the Company's behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. The Company's audit committee will review on a quarterly basis all payments that were made to the Sponsor, executive officers or directors, or the Company's or their affiliates.

Note 5 — Commitments and Contingencies

Registration and Stockholder Rights

The holders of Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any shares of common stock issuable upon the exercise of the Private Placement Warrants or warrants issued upon conversion of the Working Capital Loans and upon conversion of the Founder Shares), as well as the Forward Purchasers and their permitted transferees, will be entitled to registration rights pursuant to a registration and stockholder rights agreement to be signed prior to the consummation of the Proposed Public Offering. These holders will be entitled to certain demand and "piggyback" registration rights. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The underwriters will be entitled to an underwriting discount of \$0.20 per unit, or \$4.8 million in the aggregate, payable upon the closing of the Proposed Public Offering. An additional fee of \$0.50 per unit, or \$12.0 million in the aggregate will be payable to the underwriters for deferred underwriting commissions. If the underwriters' over-allotment option is exercised, \$0.70 per over-allotment unit, or up to an additional approximately \$2.5 million, or approximately \$14.5 million in the aggregate, will be deposited in the Trust Account as deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, the close of the Proposed Public Offering, and the results of its operations, close of the proposed public offering and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Note 6 — Derivative Warrant Liabilities

As of May 5, 2021, there were no warrants outstanding. Public Warrants may only be exercised for a whole number of shares. No fractional Public Warrants will be issued upon separation of the Units and only whole Public Warrants will trade. The Public Warrants will become exercisable 30 days after the completion of a Business Combination; provided that the Company has an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the Public Warrants and a current

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

prospectus relating to them is available (or the Company permits holders to exercise their Public Warrants on a cashless basis and such cashless exercise is exempt from registration under the Securities Act). The Company has agreed that as soon as practicable, but in no event later than 15 business days after the closing of the initial Business Combination, the Company will use its best efforts to file with the SEC and have an effective registration statement covering the shares of Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed. If a registration statement covering the Class A common stock issuable upon exercise of the warrants is not effective by the 60th business day after the closing of the initial Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the Company’s shares of Class A common stock are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elect, it will not be required to file or maintain in effect a registration statement, and in the event the Company does not so elect, it will use our best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The warrants have an exercise price of \$11.50 per share, subject to adjustments, and will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation. In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of the initial Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the board of directors and, in the case of any such issuance to the Initial Stockholders or their affiliates, without taking into account any Founder Shares held by the Initial Stockholders or such affiliates, as applicable, prior to such issuance), (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of Class A common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates its initial Business Combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described below under “Redemption of warrants” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

The Private Placement Warrants are identical to the Public Warrants, except that the Private Placement Warrants and the shares of Class A common stock issuable upon exercise of the Private Placement Warrants will not be transferable, assignable or salable until the completion of a Business Combination, subject to certain limited exceptions. Additionally, except as set forth below, the Private Placement Warrants will be non-redeemable so long as they are held by the Sponsor, the underwriters or their permitted transferees. If the Private Placement Warrants are held by someone other than the Sponsor, the underwriters or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

Redemption of warrants. Once the warrants become exercisable, the Company may redeem the outstanding warrants for cash (except as described herein with respect to the Private Placement Warrants):

- in whole and not in part;

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption; and
- if, and only if, the closing price of Class A common stock equals or exceeds \$18.00 per share (as adjusted) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If and when the warrants become redeemable by the Company for cash, the Company may exercise its redemption right even if the Company is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

In no event will the Company be required to net cash settle any warrant. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

The Company will account for the 20,700,000 warrants to be issued in connection with the Proposed Public Offering (including 12,000,000 Public Warrants and 8,700,000 Private Placement Warrants, assuming the underwriters' option to purchase additional units is not exercised) in accordance with the guidance contained in FASB ASC Topic 815-40. Such guidance provides that because the warrants do not meet the criteria for equity treatment thereunder, each warrant must be recorded as a liability due to the existence of provisions whereby adjustments to the exercise price of the warrants is based on a variable that is not an input to the fair value of a "fixed-for-fixed" option and the existence of the potential for net cash settlement for the warrant holders (but not all common stockholders) in the event of a tender offer.

The warrant agreement provides that the terms of the warrants may be amended without the consent of any shareholder or warrant holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least a majority of the then outstanding Public Warrants to make any other change that adversely affects the interests of the registered holders of Public Warrants. Accordingly, the Company may amend the terms of the Public Warrants in a manner adverse to a holder of Public Warrants if holders of at least a majority of the then outstanding Public Warrants approve of such amendment. Although the Company's ability to amend the terms of the Public Warrants with the consent of at least a majority of the then outstanding Public Warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash or shares, shorten the exercise period or decrease the number of Class A common stock purchasable upon exercise of a warrant.

Note 7 — Stockholder's Equity

Class A Common Stock — The Company is authorized to issue 200,000,000 shares of Class A common stock with a par value of \$0.0001 per share. As of May 5, 2021, there were no shares of Class A common stock issued or outstanding.

Class B Common Stock — The Company is authorized to issue 20,000,000 shares of Class B common stock with a par value of \$0.001 per share. On May 5, 2021, the Company issued 6,181,250 shares of Class B common stock. On July 29, 2021, the Company effected a 1:1.1162791 stock split of Class B common stock, resulting in an aggregate of 6,900,000 shares of Class B common stock outstanding. All shares and associated amounts have been retroactively restated to reflect the stock split. Of the 6,900,000 shares of Class B common stock outstanding, up to 900,000 shares of Class B common stock are subject to forfeiture, to the Company by

INSIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

the Initial Stockholders for no consideration to the extent that the underwriters' over-allotment option is not exercised in full or in part, so that the Initial Stockholders will collectively own 20% of the Company's issued and outstanding common stock after the Proposed Public Offering.

Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Holders of Class B common stock will have the right to elect all of the Company's directors prior to the consummation of the initial Business Combination. On any other matter submitted to a vote of the Company's stockholders, holders of Class B common stock and holders of Class A common stock will vote together as a single class, except as required by applicable law or stock exchange rule.

The Class B common stock will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of the initial Business Combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock or equity-linked securities are issued or deemed issued in connection with the initial Business Combination, the number of shares of Class A common stock issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the total number of shares of Class A common stock outstanding after such conversion (after giving effect to any redemptions of shares of Class A common stock by Public Stockholders), including the total number of shares of Class A common stock issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination, excluding any shares of Class A common stock or equity-linked securities or rights exercisable for or convertible into shares of Class A common stock issued, or to be issued, to any seller in the initial Business Combination and any private placement warrants issued to the Sponsor, officers or directors upon conversion of Working Capital Loans, provided that such conversion of Founder Shares will never occur on a less than one-for-one basis.

Preferred Stock — The Company is authorized to issue 1,000,000 shares of preferred stock, par value \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. As of May 5, 2021, there were no shares of preferred stock issued or outstanding.

Note 8 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date, up to August 30, 2021, the date that the financial statements were available to be issued. Based upon this review, the Company did not identify any other additional subsequent events that would have required adjustment or disclosure in the financial statements, except as noted below.

On July 29, 2021, the Company effected a 1:1.1162791 stock split of Class B common stock, resulting in an aggregate of 6,900,000 shares of Class B common stock outstanding. All shares and associated amounts have been retroactively restated to reflect the stock split.
